

The Daily Astorian.

ASTORIA, OREGON:

THURSDAY.....JULY 29, 1885

The business office of THE ASTORIAN closes at 11:57 P. M.

The State arrived in yesterday morning; the Oregon sails to-day.

The A. B. Field leaves the Main street wharf at six o'clock this morning, bound for Tillamook.

Still hot, and dry, and dusty; fires on every side; fortunately the vigilance of our citizens has prevented any fire breaking out in the city.

By yesterday's steamer we received New York papers of the 17th inst. Such celerity of transportation almost compensates for lack of telegraphic facilities.

"Our Boarding House," will be produced by the Leonard Grover Comedy company at Occidental Hall, to-morrow evening, with the original cast which played it in San Francisco.

Mike Quinn desires that his affectionate remembrance be given to all his friends on the Columbia river. Under date of Dublin, Ireland, July 3, he states that he and his banjo have arrived in safety, and that he is now amusing his friends.

Mr. Leonard Grover, the distinguished author, accompanies the company bearing his name, and personally supervises the production of his plays. In this city, they will produce "Our Boarding House," and "My Son-in-Law," two of the most successful American comedies.

Two plaques in the window of B. F. Stevens & Co., attract considerable attention. One has a representation of Young's river, with Saddle mountain in silhouette against the southern sky. The other portrays the cape lighthouse. They are the work of the talented artist, Mrs. Achey.

The Idaho arrived in last evening with a large party of excursionists from Alaska. Capt. Carroll reports a splendid trip, and everyone seemed thoroughly delighted with the wonders of that northern shore, its glaciers and icebergs; sunrises and moonsets; landscapes and water-scapes. The Idaho brings 160 cases of salmon to M. J. Kinney, and 300 tons coal for the lighthouse department.

The whiskers of the seal are well known to be an article upon which the Chinese set a high value, but the use made of them is not generally understood. A Santa Barbara paper, which notes the sale of a lot at that place, says the Chinese use the seal whisker as a tooth-pick, and also as an ear-cleaner. A seal whisker of average length, about 10 or 12 inches, is worth, just as it is taken from the animal, from 15 to 25 cents. One Chinaman is mentioned who, on this occasion, was the purchaser of \$100 worth of the whiskers.

We are in receipt of a pressing invitation to attend the Louisville, Kentucky, Exposition, which begins August 1st, and lasts 100 days. It is with regret we decline. A prior arrangement to meet President Arthur in the Yellowstone Park interferes sadly with other festivities which must go unattended, and as we are also to make the answering speech and dish up the usual taffy on the occasion of the N. P. R. R. last spike driving, and are now sitting up nights composing that address, it is of little use to send anything but certified checks or money orders till after September 15th. Should any Astorian, however, who contemplates journeying eastward, care to see the show, the ticket is transferable, and is at his service.

Business Changes. W. E. Dement & Co., have removed their drug store to the Odd Fellows' building, occupying that portion of the lower story adjacent to I. W. Case's bank, and fronting on Squemoqua street. A. G. Spexarth, who lost nearly everything at the late fire, has with commendable enterprise, re-opened with a fine stock, in the building in Chenamus street, from which W. E. Dement & Co., have just moved. Roscoe Dixon will close his eating house in the Occident block, to-night, and will reopen on the first of August, in his new establishment on Squemoqua street, in Capt. Flavel's building.

New Buildings. In the burned district the utmost activity prevails. On the site of Frank Fabre's old stand, Dr. Kinsey is putting up a substantial structure, and next to it Mrs. Grant has the foundation laid for a new building. Farther down J. W. Welch is putting in the foundation for five stores, which will take up one hundred feet along the line of Water street. On the opposite side of the street Aug. Danielson and H. Jeldnes are putting up buildings, and Jas. Turk is building on his lot. Next to him Chas. Grake, who bought a half lot for \$2,500 last Thursday, is about to build. The roadway is being put in trim as rapidly as possible, and no part of the city presents a busier appearance than that portion which was swept by flame on the 2nd inst.

ORDINANCE NUMBER 531

Passed Over the Mayor's Veto.

The city council met in regular session last Tuesday night, a full board present. A petition from Washington street property owners, asking the council to establish the grade of that street was referred to street committee. From West-8th street property owners asking that the council order the improvement of that street, was referred to street committee. The proposition of Chas. Williamson & Co., to furnish council with map of city, was referred to committee on public property. Report of street committee concerning petition of D. K. Warren and others, in relation to constructing sewer, was adopted. Of same committee on petition of Columbia Water Co., recommending that petition be granted, was adopted. Of fire committee recommending the purchase of certain supplies for the Astoria Fire department, was adopted. Of same committee to whom was referred an ordinance for the support of the fire department recommending it be passed, was adopted.

An ordinance levying certain taxes for 1885, was read first and second times and was passed under suspension of the rules. An ordinance providing for the time and manner of repairing Water street was passed in like manner, as was also an ordinance making appropriations out of the Cedar street and Hemlock street funds. An ordinance making allowance to the several fire companies was read third time and passed.

An ordinance closing business houses between the hours of 12 o'clock midnight, and five o'clock a. m., having been returned by the mayor without his approval, was placed upon its final passage or rejection, and passed, the vote being: Aye, councilmen Case, Cooper, Hume, and Trenchard; nays, councilmen Caruthers and Johns. The following claims were ordered paid: Morey & Co., \$15.75; Gill & Clinton, \$58; W. B. Headington, \$2,000. A resolution was unanimously adopted authorizing bids to be advertised for, for the construction of a sewer on Court street. On motion council adjourned.

The Mayor's Veto.

TO THE HONORABLE, THE CITY COUNCIL OF THE CITY OF ASTORIA:

GENTLEMEN:—I hereby return ordinance No. 531, entitled an ordinance requiring places of business to close at midnight, without my approval. The ordinance, as it is, is not practicable, and would only confuse the officers who would enforce the same. If approved by me it would only add to the number of ordinances that have been passed in former times and are now a dead letter on record, teaching us that it not only requires the good intention of the council, but that they also must take proper precaution in the wording of a law of such importance.

We are in favor of advancing and bettering the moral condition of this community; to do this, we not only should show our good will and intent, but we should also carefully and deliberately consider whether an ordinance will stand a legal test before a court.

The ordinance in question will not do this; it includes all houses of business, shops or places. The interpretation would be like this: The fireman who starts a fire at 4 a. m. in a machine-shop or saw-mill is subject to fine no less than the baker who bakes his bread in the morning before 5 o'clock; the druggist who administers to the relief of a sick or dying person at midnight has violated the law as well as the keeper of a low dive who makes his living by selling bad whisky to the pickpocket who has robbed a drunken man in the street after midnight.

This is not, and can not be the intention of your honorable body, therefore we should pass an ordinance allowing the necessary exceptions, at the same time being careful and precise in the wording of the same. Such an ordinance I will sign most cheerfully. JOHN HARN, Mayor.

A Fortune

may be made by hard work, but can neither be made nor enjoyed without health. To those living sedentary lives Dr. R. V. Pierce's "Golden Medical Discovery" is a real friend. It stimulates the liver, purifies the blood, and is the best remedy for consumption, which is a scrofulous disease of the lungs. By all druggists.

Meeting Notice.

The regular monthly meeting of the Astoria Longshoremen and Riggers' association will be held at their hall in this city at seven o'clock Monday evening, July 30, 1885. SAM PITKIN, Pres. A. MALTMAN, Secy.

Look Here!

You are out a treat, and don't you forget it, if you miss JEFF'S Dinner every day from 5 to 8. Soups, fish, eight kinds of meat, vegetables, pies, puddings, coffee, tea, wine, S. F. beer, or milk. Dinner 25 cents.

Banish ill health, nervousness, vexation, fretfulness, etc., by using Brown's Iron Bitters.

—D. A. McIntosh has received a large stock of Fine Clothing which he calls special attention to.

—Frank Fabre has reopened for business in his fine new building opposite THE ASTORIAN office. Ice cream, oysters, coffee, etc., of the best quality.

The Great Strike.

A Chicago dispatch says: A committee of striking operators visited the meeting of the bricklayers last night and were received with cheers. The committee says the bricklayers offered to raise \$1,000 for them on the spot, but the offer was declined, as the men were not yet in need of money.

The telegraph company at this point is in great straits, owing to the fact that many smaller places in the surrounding country, are coming up, thus increasing the number of circuits. The ease with which the company seemed to dispose of business seems to have been largely due to the fact that these small towns had no operators to receive, so that their circuits were closed and counted out. All Associated Press matter went promptly, except to Milwaukee and its territory, but the delay there is chiefly due to a lightning storm which prevailed all night, rendering the wires useless. The impression last night was that the situation is rather more favorable to the operators, the idea having got out that the company was playing a very heavy game of bluff. Whether or not this is true remains to be seen.

The Inter-Ocean reporter made his rounds yesterday, and began at the Western Union headquarters. "You may say that we are all right," remarked the head office; "we have 103 operators at work; and they are constantly increasing, and our increase is from eighteen to twenty-two a day. The night force is sixty-five for to-night." "Are you accepting all applicants?"

"Not by any means. We have refused at least twenty to-day railroad men, who had no knowledge of the business."

"Are you able to handle all the business?" "So far we have taken care of the business. Well, to be sure, it is not so heavy as usual, as we advertise that we receive telegrams subject to delay. However, business has been sent with but little delay, except in the north-west, where the severe storm of this morning broke and crossed the wires. On the whole, we think we are in condition to receive congratulations," smilingly remarked the official.

In New York, Manager Young of the Western Union office reports no material change in the situation. He says there is a good force. Everything is all right for the west. The local branch of the Telegraphers' Brotherhood was in session to-day. There was a large attendance of operators. The striking employees of the Baltimore and Ohio in this city listened to manager Clarke of the local office, at his request this afternoon. The members of the brotherhood report that he told them that if they would return to duty he would give them higher salaries than asked for in their bill of grievances and let them arrange their hours of labor themselves, but the operators referred him to the executive committee, which presented the bill of grievances to the officers of the company at Baltimore. The strikers report a constant increase of membership of the brotherhood. The Central Labor Union voted the telegraphers financial aid to continue the strike.

At Boston the usual number of operators have manned the wires of the Western Union office and the business offered suffered no delay. At a meeting of strikers the proposed establishment of a co-operative telegraph company was discussed and very favorably received. The capital stock will be \$20,000,000 in untransferable shares of \$5 each. Three-quarters of the entire capital stock must be held by operators and members of labor organizations. It was stated at the meeting that bankers and merchants had already agreed to subscribe the other \$5,000,000 and a committee was appointed to arrange the details of the scheme.

The Boston Typographical Union has adopted resolutions of sympathy with the striking telegraphers and offered financial aid. The Central Trades and Labor Union took similar action.

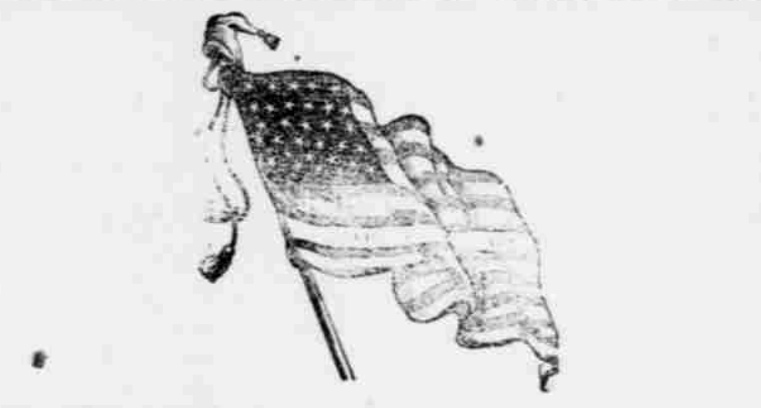

The Oregonian which has mail dates to the 20th, reports that in Portland those who left the office in a body on the forenoon of the 19th inst., and the other two operators who also left on Friday the 20th, still remain out. Several operators who have come to Portland from interior points, for the purpose of working have also joined the strikers. There is no indication of a yield on the part of the strikers. They declare that inasmuch as they ceased working by the order of the Brotherhood, they will not resume their places until ordered to do so by the Brotherhood.

How to Make Men Handsome.

You all agree, that a good stylish suit, well fitting, makes all men look better than their old ones, yet there is a class of men that can never dress well, they don't know the art thereof. M. D. Kant, our Boss Merchant Tailor, Hatter and Clothier, has undertaken a task to fit all men, from the best Apollo shape to the hunchback of Notre Dame, and meets with excellent success, but the crown of his efforts are his excellent assortment of Hats; he certainly has the noblest, finest and latest styles in the city, and if you doubt it go and convince yourself. His prices are at bed rock.

I Know Whereof I Speak.

For I have used it extensively. I regard Parker's Ginger Tonic a most excellent remedy for kidney, lung and stomach disorders. It invigorates without intoxicating. J. Francis, Religio Philos. Journal, Chicago.
