## Railroad Completion.

SAN FRANCISCO, July 26 .-With the advancement of the Northern Pacific Railroad the eciving all its rolling stock neces transcontinental war is assuming greater proportion than ever, and though the fact is carefully disguised, it is certain that the street commisions being paid at present are larger than have over been paid heretofore. And the war is not to be confined only to passenger business, but the freight question is also being drawn in. The Union Pacific yesterday appointed a freight manager in this city and stood that the latter company a careful watch will be placed upon the Central Pacific people to stop their diversion of freight over their Southern route.

"If the Central people cut on the rates in favor of the Southern," said a gentleman immediately connected with the Union Pacific yesterday, "the Union will make a like cut and go them one better.

"Where will the cut be taken

"From the Union Pacific, and if necessary, the connecting lines will stand part of the loss. There are great interests involved, and if necessary, a bold stand will be taken against the Central by all the Eastern and Middle roads. Let the Union Pacific see that a cut has been made and the music will begin. It will at the worst take but a year or two for them to build an independent line from San Francisco to the coast and then it will be good-by to the Central and Southern. I understand that Dillon is now contemplating such a measure and laying plans for it. By the way, the United States Railroad Commissioner has received a formal complaint from Dillon on the subject of diversion of traffic, and as it closely affects the government, the matter will, no doubt, be looked into by him at the present examination."

Another significant circumstance is that President Villard of the Northern Pacific has, it is authoritatively stated, bought the property formerly owned by the Clay street Bank at the gorn of Post, Market and Montgomery streets, and a large building will be erected there for offices of the company. The Central Pacific, not to be outdone, will, it is saidalso build a new office, centrally located, for the transaction of freight and passenger business. their present offices being too far removed.

Beechers's Bellef. Chicago, July 24.-Last Sunday Rev. J. Spencer Kennard pastor of the Fourth Baptist Church, took the occasion of the Rev. Henry Ward Beecher's presence in this city to deliver a pleasantly turned sermon combating the views of the great Brooklyn divine. To-morrow the papers will publish a breezy brotherly letter from Beecher to Brother Kennard. It is, perhaps, the most unequivocal statement of Beecher's views ever made public. The Northern Pacific .

CHICAGO, July 24 .- The Northern Pacific road is gradually resary for the opening and proper operation of its lines. A few Ladies, round trip. days ago two great mogul engines from the Baltimore Locomotive Works passed through here and are now at Brainard. Heretofore STILL WAVES the company has shipped its engines needed on the Western Division to San Francisco and Portland, going by way of the Union Pacific road. It is undercharged the Northern Pacific road \$10,000 for the shipment of each engine. This charge was so large that the company decided to keep all the new rolling tock Brainard until it could be sent over the completed line. Northern Pacific has addressed a circular to connecting lines, directing them to prepare and place on sale, in anticipation of the opening of the road September 1st, coupon tickets, reading from St. Paul, Minn., and Du-Pacific, Oregon Railway and Navigation Company's lines, the Oregon and California and the Olympia and Chehalis Valley railroads. The Northern Pacific yesterday commenced shipping Montana cat- O tle from Miles City to Chicago. The first shipment consisted of fifty-six carloads from Miles City,
