SISTERS OF CHARITY

If He was only Bigger

Governor Moody relates an incident that occurred on the extension of the O. & C. R. R., which is characteristic of the young Oregonian. It was about this:

The locating engineer came to a house, while running a line along Rogue river, which he could not pass around without considerable INE OF THE OLDEST AND MOST RELABLE expense. He therefore proceeded to pass the line through it. While engaged in this business, a young boy came out of the house, and the following conversation took place:

Boy-"What are you doing

Engineer-"Locating a railroad, sir. We are going to run it right through your house; yes, and barn too.

Boy-"No, you ain't, nuther." Engineer-"Yes, we are locating the line now."

Boy-"Well, sir, I think you are real mean. Dad's gonemam's in the house sick-but if I was a little bigger, I'd lick h-l out of yer."-Statesman,

France pays 85 per year per capita for the support of her army, and 35 cents per capita per year for the cause of popular education. England pays \$4.60 per person per year for war, against 77 cents for her schools. Peace thus, may have her victories no less renowned than war, but they are not nearly as expensive. In the United States the state and local expenditure on account of public schools amounts to about \$1.75 per capita, and the National expenditure for the army and navy to about 35 cents.

The strike of the men employed in the construction of the Oregon branch of the C. P. R. R. is at an end and the men are again at
