Recognizing the importance of the excursion upon the opening of the Northern Pacific railroad, a circular letter has been issued by J. T. Odell, superintendent of transportation, which contains instructions to division superintendents of the eastern portion of the Northern Pacific road, and gives them information in regard to the manner in which the excursion of COMPLETE TREATMEMT \$1 President Villard is to be run on their respective divisions. To guard against accidents the excursion train will be run as a special in four sections of ten palace coaches each; upon each section there will be telegraph operators with a relay battery and climbers, in order that telegraphic communication can at once be made from any point at which it may be deemed necessary. There will be an experienced car repairer with each section.

HOME COMFORT

After a Rainy Ride a Country Physician Tells What He Thinks of Some People.

"I wish to gracious some people would learn when they need a doctor and when they don't," exclaimed Dr. E _____, as he entered his house in a cosey little village in the inter-ior of the State of New York, after a todious ride of many miles. "I have been down smong the mountains to see a man, who the messenger said, was very sick and not likely to live 'till morning, unless he had immediate help; and found him suffering from a rather sharp attack of colic, which his family night have relieved in ten minutes, if they had a grain of sense and two or three simple remedies in the house. But no; they must remain ignorant as pigs, and when the least sche or pain takes them, send for a doctstr whether they ever pay him or not."

"Why, Doctor, what kind of simple reme dies, as you call them, do you expect people to keep in the house?" asked his wife, as she poured him a cup of hot ten.
