PLAIN TRUTHS.

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

Brown's Iron Bitters will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is positively not injurious.

Saved his Child.

27 N. E. 1st St., Baltimore, Md. Feb. 12, 1883.
Gent:—Upon the recommendation of a friend I tried Brown's Iron Bitters as a tonic and restorative for my daughter, who was suffering from Consumption, and when the physician was consulted he said that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's Iron Bitters, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required," and when informed that the elder sister was taking Brown's Iron Bitters, responded "that is a good tonic, take it."

ADOLPH FRIEDL.

Brown's Iron Bitters effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

THE PATHER OF Forty-two Children.

John Heffner, a ragpicker of Reading, Pa., aged 68, was killed recently by a locomotive. He himself is the authority of the statement that he was the father of forty-two children. He was a small, wiry, hump-backed, dark-skinned man, and was born in Germany. At twenty-five he married his first wife in Germany. She lived eight years, and in that time became the mother of seventeen children—twins twice, triplets four times, and a single child. He employed a young woman to take charge of the brood of seventeen little ones, and in 1849 she became his wife. In due time she became the mother of fifteen children, and died in 1857. Twelve of the little ones died, leaving twenty in the brood. He then brought them to America, and in 1858 married his third wife, a widow with one child. She bore him ten children, making forty-two in all, a small number of whom are now living. He seemed to enjoy himself, and went through life apparently happy and contented. He was unable to save much money.—New York Sun.

The suicidal mania seems to have become epidemic in London. The varied forms of destruction practiced are in themselves indicative that no one short of a maniac could invent them. An officer of engineers a few days ago made a dynamite belt, donned it, and blew himself to atoms. A day or two afterward a prominent doctor put an end to his life by eating bread upon which he had spread a quantity of phosphorus, washing down the meal with a glass of carbolic acid. Although the number of suicides increases monthly, no notice is taken of individual cases, unless the victim destroys himself in some extraordinary manner.
