Gents:—Upon the recommendation of a friend I tried BROWN'S
INON BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physiciams, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's Ison Bittens, she began to mead and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted the quickly said "Tonics were required." and when informed that the elder sister was taking BROWN's Ison BITTERS, responded "that is a good tonic, take it."

A Little Story with a Large Moral One Man who Knew his Own Business.

"No. my dear," said the venerable keepe of a country store to a timid little girl whose head scarcely came up to the level of the ounter. "No. my dear, we haven't any red flannel, but we have some first rate New Orleans molasses." Softly binting that she didn't think that would answer the purpose quite as well, the child went her way in search of the article she wanted.

"Have you BENSON'S CAPCINE PLAS-TERS?" asked a gentleman of a certain druggist whose name could be given were it desired. "I am troubled just now with a touch of my old friend, the lumbago, and the Benson's Plaster seems to go to the spot almost as oon as it touches the skin."

"Not at present." replied the druggist, genially " but, we have lots of plasters just as good. There is Allcock's, the Capsicum and others-won't one of them do as well?" "My dear sir," retorted the gentleman.

with a slight show of temper, "I say nothing against those articles, but I am a business man, and always ask for precisely what I want, and for nothing else. I may enlighten with the signature of "L BUTTS" on the wroppe you, however, when I say that sometime ugo. for another disease, of which the Capcine has since cured me, I tried all those you mention, with no appreciable benefit. They are inefficient, every one of them, the meanest act of the proprietors of some of them being this: that they make plasters with similar sounding names to declive the unwary into believ-ing they are the same thing. Experience taught me the difference. I'll go to the next man in your line. Good day."
