The Secret of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it-no more and no iess.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health-in no other way can lasting benefit be obtained.

### Just So.

A soldier of the late great civil war that put himself up as a target to be shot at and through the excessive exposure attending the open field, has even fairly to beg of this government the small allowance of 160 acres, which has been allowed, provided he pays certain land office fees and if he has not a cent to make a start, lose his right; also if he does not live up strictly to a bard and we Coughs, Colds, Hearseness must say unjust law, he terfeits his claim. When he was engaged in throwing up earthworks, laying the corduroy roads, it was enough to compensate the government without now being obliged to again in his middle or old age, dig and delve for such services that saved and gave our Washington government the power to dispose of the public domain. Railroad corporations have often forfeited their claim to lands, but as they are out of the pale of the land offices, and generally backed with sufficient money to keep a corps of cunning lobbyists who do their dishonest work, at our national capitol, they have without a single exception, won their way and retained possession of the grants .-Oregon Mist.

Julius Stratton is winning laurels by the excellent manner in which he is conducting the affairs of the penitentiary. His course will rebound not only to his own credit butto Gov. Moody, whose appointee he is. Only one attempt, since he assumed control, has been made, by those incarcerated to escape, and that was the most serious one of the kind in the history of the institution. Six made a break for their liberty; five of them got it by being sent to their final homes across the river, and only one, Disbrew, remains at large. The prisoners are in excellent physical condition and do a great deal of work. The discipline is strict, the food plain, but substantial, and the prisoners get plenty of hard work. This is as it should be. The Oregon penitentiary too long has been a place of rest and recretreated as to make them shudder tice of such award, enter into contract therefor with good and sufficient sureties for the faithful performace of the work. The right to reject anyor all bids is hereby reserved.

By order of the Common Council.

Hereby treated as to make them shudder at the thought of being sent there again. That would either reform them or cause them to leave the state."-Enterprise.
