TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause -liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

Itisafact1 Baown's 1208 BITTERS, a true non-alcohol-ic tonic, made in Baltimore. Md., by the Brown Chemic. Company, who are old drug-gists and in every particu-ar reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health result-ing from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with Brown's IRON BITTERS. Itisa medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price \$1.00.

agitation has been inaugurated in avor of secession from the Dominion confederation. It is an association of Manitoba and the northwest that is being advocated, and the movement will be properly organized within a week, when meetings will be held and officers appointed. A prominent mover in the agitation said there has been a strong sentiment to rebel against Dominion government in consequence of the treatment of the northwest, but people were too timid to make a movement in the direction of rebellion. "There are scores of abuses in the country. In the first place we are looked on and treated as a sort of offshoot from the Dominion.

A place we are looked on and treated as a sort of offshoot from the Dominion. The tariff is a terrible thing: it is crushing the settlers. Then there is the opening of the Hudson bay route, which every far-seeing man must know will be the selvation of the country. The future of the country must depend on that line. The Dominion government is opposed to the opening of the route. They will not help us, and we must help ourselves. Then again, it is pretty clear that the Dominion government is subservient to the Carticles of the Carticles of the Carticles of the Carticles of the Switz of the good work is still going on. I feel myself s new man, and all through the Cuticura nemedies. JAMES E RICHARDSON, Custom flouse, New Orleans. government is subservient to the Canadian Pacific railway. What we want is our own laws, like Ontario has, and then we could build all the railroads we wanted, without any monoply. By this means settlement would be encouraged, and the settlement would be encouraged, and the settlement would not suffer as they do now from pirates and high tariff. As it is, no competing lines will be allowed. Besides, this country is made the plunder ground for worn out political hacks of the Dominiou governmen. government is subservient to the Ca-Our mines are given up to people who do not belong to the country, and our timber limits are leased to enrich men who at some time have done a service to the Dominion government. The people would be will-ing that the Canadian Pacific rail-road contract should be foregone, and a portion of the line around the north shore of Lake Superior and across the Rocky range abandoned.

Millions of dollars have been sunk in constructing this portion of the construction of the const constructing this portion of the road, and the country will be saddled with the greatest of the debt." "We prothe greatest of the debt." "We propose to get up a manifesto of all our grievances and present it to the Dominion government. If we don't get satisfaction, why then there will be a satisfaction, why then there will be a row," said many of the agitators, who are strongly in favor of secession.

SLIGHT ODDS. A Little Story with a Large Moral

One Man who Knew his Own Business. "No. my dear," said the venerable keeper

of a country store to a timid little girl whose head scarcely came up to the level of the counter. "No, my dear, we haven't any red One Month, fiannel, but we have some first rate New Orleans molasses." Softly hinting that she didn't think that would answer the purpose quite as well, the child went her way in earch of the article she wanted.

"Have you BENSON'S CAPCINE PLAS-TERS?" asked a gentleman of a certain druggist whose name could be given were it desired. "I am troubled just now with a touch of my old friend, the lumbago, and the Benson's Plaster seems to go to the spot almost as oon as it touches the skin."

"Not at present." replied the druggist, genially " but, we have lots of plasters just as good. There is Allcock's, the Capsicum and others-won't one of them do as well?"
"My dear sir," retorted the gentleman. with a slight show of temper, "I say nothing against those articles, but I am a business man, and always ask for precisely what want, and for nothing else. I may enlighter you, however, when I say that sometime ago, for another disease, of which the Capeine has since cured me, I tried all those you mention, with no appreciable benefit. They are ineffi-cient, every one of them, the meanest act of the proprietors of some of them being this that they make plasters with similar sound ing names to deceive the unwary into believ-ing they are the same thing. Experience

taught me the difference. I'll go to the next man in your line. Good day."
