The Pioneers who went East this fall, remarks the Benton Leader, are slowly straggling back to their homes in old Webfoot. Many and varied are the experiences undergone by them during the trip, and not a few will relate by their fireside this winter how the sharpers in the larger cities tried their wiles upon the supposed unsophisticated Oregonians. One old fellow, who chews tobacco and expectorates like a Yankee when he talks, proved too much for a certain bunko steerer. The latter's defeat was compassed in this wise: The Pioneer was accosted as usual by a Pioneer was accosted as usual by a well-dressed man, who was profuse in his declarations of pleasure at seeing some one from old Webfoot, and went some one from old Webfoot, and went on at a great length to speak of the friends of the former, whom he had known. "You say you know those old friends of mine?" repeated the Pi-oneer. "Yes." "Well, I'm powerful glad to see you, in that case," contin-ued the Pioneer, "Klahowyumsıx?" This was too much for the astounded bunko man, and his ignorance was plainly discernible in his face. His plainly discernible in his face. His education in Chinook jargon had been neglected, and before he could recover, the distinguished Pioneer had turned on his heel and was walking away, with this parting sneer: "Much you know about old Webfoot!"

How It Is Done.

Commissioner McFarland, of the general land office, being interviewed on the subject of land frauds, said: UPPER COLORED

Largely engaged in the timber business, the 'settler' being a convenient myth. A class is organized to secure timber lands in California, Oregon, Nevada and Washington Territory. That class discloses a combination of large capitalists, English as well as American, to obtain title to immense tracts of timber lands by obtaining men, women and children to swear to false afflidavits that they have made entries, as required by law, for their own use and benefit, and not for speculation. The prices regularly

The prices regularly speculation. The prices regularly paid for sets of false entry papers range, according to report, from \$20 to \$100. The government gets \$2.50 an acre for land perhaps worth ten times its cost to the speculators.

It is semi-officially announced in Paris that England, Germany, America, Russia and France will participate in joint protection of their subjects and interests in China. The object is to protect the lives and property of Europeans and Americans, in the event of a recurrence of an incident similiar to the Canton trouble last summer. In order to accomplish this the five powers would form a flotilla of gunboats on the Canton river, the command of which would be given to the command of which would be given to the power having the largest naval force in the Chinese At the present time France has the greatest number of vessels

The Butte (M. T.) Index says: American Falls, on the Oregon Short Line, is keeping up its reputation as 'Hell's Half-Acre.' In a cowboy fracas there last Friday William Stokes shot and killed Reuben Wil-son. It is said to be the tenth murder in the past year."

"I am troubled just now with a touch of my old friend, the lumbago, and the Benson's Plaster seems to go to the spot almost as Washington Market, soon as it touches the skin."

"Not at present." replied the druggist, genially "but, we have lots of plasters just as good. There is Alleock's, the Capsicum and others-won't one of them do as well?"

"My dear sir," retorted the gentleman with a slight show of temper, "I say nothing against those articles, but I am a business man, and always ask for precisely what want, and for nothing else. I may anlighten you, however, when I say that sometime ago for another disease, of which the Capcine has since cured me, I tried all those you mention, with no appreciable benefit. They are inefficient, every one of them, the meanest act of the proprietors of some of them being this : that they make plasters with similar sound ing names to deceive the unwary into believ ing they are the same thing.
