"Cartisle's election," he said, "of course means that the Democratic party is committed to tariff reform, and he for one was glad to see it. It will cause a healthier state of poli-tics, this dividing of the two partics on the line of issue, than to have gone into another presidential con-test with simply the offices at itake, or on war issues. The sectional isgone into another presidential contest with simply the offices at itake, or on war issues. The sectional issues are dead, as no portion of the Anglo-Saxon race in this country will ever consent to the negro socially or politically, where he may be in the numerical ascendancy, and the rest of the country will have to come to understand this and the sooner the better. Do you suppose all the power in the United States could ever make the people of the Pacific coast tolerate Chinese, supposing the latter were naturalized. posing the latter were naturalized and outnumbered them? It is always in politics a question of force, and the greatest force is bound to get the supremacy of the ballot, which sim-ply presents a certain force, and if it does not represent a greater force it amounts to nothing. Realizing that they are a greater force morally, intellectually and physically, the whites of the south will never respect the ballots of negro majorities."

A New Orleans Times-Democrat Greenville, Miss., special of the 10th inst., says: At a difficulty Saturday night at a political meeting between a colored man named Homer and Frank Montgomery, as is usual in such occurrences, pistols were drawn and shooting commenced. Sam Finley (white) was seriously injured. Three negroes were shot. One is dead and one is expected to die. The other is slightly wounded. A coroner's jury found that Homer was killed by Montgomery and Finley, local politicians. local politicians.

The Walla Walla Journal, under the head of "Startling Rumor," says: The rumor has currency here and at Wallula that the Union Pacific people have leased the Baker City branch of the O. R. & N. line for a long term of years, to be used as a link in the extension of the Oregon Short Line to the Sound, via the Yakima country and the Cascades, and the work or the projection, which is to start from Wallula, where is a fine natural loca-tion for a bridge, will be begun in the spring. The alleged lease is said to be the concession which the Oregon & Transcontinental company made to the Jay Gould party in consideration of the cessation of war on the O. & T. stocks. The rumor here is given without endorsement, for what it is worth. If true, the matter is of im-mense importance to the northwest and particularly to Walla Walla, which would thus gain not only direct communication to the Sound, but be placed on a through line to the east shorter than the Northern Pacific, and, if no combination is formed, acquire every advantage to be had from competition in freight rates.

The new trail to the Cour d' Alene mines from Heron Siding is finished. It is reported almost impassible. There is but one mule in the Cœur d' Alene country and the owner of the animal demands \$15 a day for him. Quartz prospecting has ceased. Every foot of ground in Pritchard gulch is already taken up. Eagle City is being built at a lively rate. There are five saloons and a stud "It does not dry up a cough, and leave the cause horse game in each of them. Many achied, as is the case with most preparations, but men are going into the new camp daily and almost as many leaving. Such is the location of Eagle City that the sun disappears from sight at noon daily.

SLIGHT ODDS. One Man who Knew his Own Business.

"No. my dear," said the venerable keeper of a country store to a timid little girl whose head scarcely came up to the level of the ounter. "No, my dear, we haven't any red figured, but we have some first rate New Orleans molasses." Softly hinting that she didn't think that would answer the purpose quite as well, the child went her way in search of the article she wanted.

"Have you BENSON'S CAPCINE PLAS-TERS?" asked a gentleman of a certain druggist whose name could be given were it do sired. "I am troubled just now with a touch of my old friend, the lumbago, and the Benson's Plaster seems to go to the spot almost as

on as it touches the skin." "Not at present." replied the druggist, gen ially " but, we have lots of plasters just as good. There is Alleock's, the Capsicum and others-won't one of them do as well?"
"My dear sir," retorted the gentleman, with a slight show of temper, "I say nothing against those articles, but I am a business man, and always ask for precisely what I want, and for nothing else. I may enlighten you, however, when I say that sometime ago, for another disease, of which the Capcine has since cured me, I tried all those you mention,

with no appreciable benefit. They are ineffithe proprietors of some of them being this that they make plasters with similar sound ing names to declive the unwary into believ-ing they are the same thing. Experience taught me the difference. I'll go to the next man in your line. Good day." Bo on your guard against imitations. The genuine has the word CAPCINE cut cleanly

in the middle of the plaster. All others are
