d-tw Going to "Run" Dakota.

"Yes, we're going to Dakota," said one of the party of eight lively young men on board a Lake Shore train, near Toledo. "We're going out to Dakota to run it." "To run it?,' I queried.

"Yes, we mean to run the state, when it becomes a state. Jim over there is to be governor. Henry'll be state treasurer, John will be the con-gressman, and I guess a United States Vitalizes and Enriches the Blood, Tone senatorship will be good enough for up the System, Makes the Weak

me." Then the whole party laughed and another spoke up.
"It isn't as bad as that, stranger. But we have a scheme. We're going going out to settle in two or three ad iscent counties. After we get started we're going to bring a lot more of our friends out. Some of us are lawyers, some doctors, one a newspaper man, two merchants, and you can bet we are all politicians. We'll go into some of those new counties, help each other into the offices, and when the state is organized perhaps we'll be strong enough to capture some-thing pretty good. You know it doesn't take a very large crowd of fellows that pull well together to make quite a stir in a little state like that. And we're all from Ohio, too. But keep it quiet, stranger, because the darned newspapers might get hold of it."

What is Done With Buffalo Bones.

W. R. Dodds, agent of the North western Pertilizing company, of Chi-cago, was interviewed by the James-town Capital reporter as to the use of the hundreds of tons of buffalo bones now being shipped east. He "The bones are utilized four distinct and equally profitable purposes in the East. The horns, are remarkably hard probably centuries of decay have unfitted them for use, are made into buttons, and shipped on wearing ap-parel to the four quarters of the globe. The sinewy skin bones are hard and durable, and are use knife handles, sometimes fancifully engraved. In other cases, the whole skeletons are run through compli cated machinery, and come out as a fine fertilizer. Go to a sugar refinery and watch through various filtering processes until you will see the finely ground remnants of the proud old prairie beast thrown into the back-All cheap for CASH.
