In one of the schools the other day, the In one of the schools the other day, the class in English grammar was discussing the difference between the words "like" and "love." "Now," said the teacher, "we can like a tomato, but is it proper to say we can love a tomato?" "No, it is not," said a fresh young miss, "one cannot love a tomato." "Why not?" inquired the teacher." "Because, you know, you cannot—you can't—well, you can, thug a tomato."

WHEAT SHIPMENTS .- It is said that wheat is being shipped to San Francisco teenth U. S. infantry, attempted to cross the State of California on her last trip. -Standard. The Columbia took out considerable wheat yesterday.

A Very Pressing Necessity

It seems to us that the present condition of the water works in this city is a very poor one. There is a good excuse for defective working during the cold weather of last week, but that cannot continue to be an excuse. The mains and pipes should be put into good working order at once. If money is needed we have no doubt hundreds of citizens will stand ready to put their own pipes in order; it is the business of the superndent of the water works to see that

the mains are all right. In other cities where water works are in operation let mains be broken, and the men who have charge of the water works are busy at once. This matter of water is an important one. Shuffling around with buckets and cans and pitchers, as though we lived in a little village, is no way when a better way is feasible. The question admits of no delay and should be attended to at once.

Ocean and River.

and reported southerly weather all the proud, too sensitive, and too independent way up; rain and mist a part of the for that."

Capt. Bolles of the Columbia came down with his vessel at 2 in the after-noon. He reported thick ice nearly all the way down. When near Swan Island bar he found a mass of ice stretching clear across the river. He put on all steam and drove the vessel through. The Reed, which had been lying by, waiting, started to follow in his wake, but before going three boats' lengths the ice closed in, jamming her hard and fast. The mbia showed signs of ice on her bow which was scoured clear up to the hawse holes. In places where she had ripped through the ice cakes, great chunks had fallen on the deck. A dispatch to THE ASTORIAN A little later said that there was no show of getting down with the river boat. It is almost needless to say that there will be no Fleet swood to-day.

Rescue Jubilee Troupe's Performance.

The coming performance of Rescue Jubilee troupe at Occidental ball next Friday evening is the principal topic of conversation. The talent displayed by the several members of the troupe at the two recent performances, on which occa-sions the house was crowded, insures the most hearty and cordial reception next Priday evening. The same careful study most hearty and cordial reception next Friday evening. The same careful study and perfect rendition of characters which made those performances the success they were, will be evident in the coming rendition of the standard Globe darma, "Nevada; or, the Lost Mine." This is a splendid play in three acts, and as the following cast shows will be well performed throughout: Mosell (the principal character), Miss Alice Stockton; Mother Merton, Mrs. Butler; Agnes Fairlee, Miss Hannah McCormick; Nevada, C. H. Stockton; Vermont, A. A. Cleveland; Tom Carew, Jno. Brown; Dandy Dick, F. D. Blake; Slas Steele, F. L. Parker; Jordan, the detective, Paul Parker; Jube, the darkey, B, S. Worsley; Chinaman, Lon Dolson. The play is of the style of "M'liss," Bret Harte's most fanciful crestion, and is replete with dramatic interest.

Next day he was taken to bed, grew worse, and died this morning. He was aged 17, his brother 22. No legal action has yet been taken.

The American Hog in Diplomacy. London, Feb. 16.-The Times Berlin correspondent says: Bismarck has re-

turned to Herr Edzendecker, the German minister at Washington, the resolution on Edouard Lasker's death, recently passed by congress, as the position of Lasker in Germany was not such as to justify the resolutions. The Times adds that though this seems incredible, the fact is the relations of Washington and J Peterson, S F Berlin are in a state of great tension, chiefly owing to the hog question. The Times concludes as follows: "One thing Capt. Pohlman arrived in in good sea- is certain, we have not heard the last of son with the Oregon, yesterday morning, this Lasker incident. Wood podddles or rather passing the butter through clear water should be used in making outter to free it entirely of its butter nik. The cream or mik should be thor oughly churned with a proper tempera-ture and then gathered and beat with paddle, and the butter-milk poured off pefore it becomes too cool, as this win prevent the butter-milk from being worked into the butter in freeing it. After this, work the butter thoroughly with its required quantity of salt and thus let it stand over night and you will nave butter that will keep. Some times a little pure sugar is worked in the butter with the salt which adds to its flavor, this however is a matter of taste. As re spects the color of the butter this comes from the feed of the cow. Sometimes it is too white, the use of a small quantity of carrot will correct this. The art of making good butter, can never be perfect.
