THE REPUBLICAN STATE CONVENTION

A Republican convention for the state of Oregon is called to meet at the city of Portland, Oregon, on Wednesday, the 30th day of April, 1884, at 11 o'clock A. M., 30th day of April, 1884, at 11 o'clock A. M., for the purpose of nominating candidates for the following offices, to-wit: Representative in congress, judge of the supreme court, the presidential electors, and district officers for the several judicial districts, and to select six delegates to attend the national Republican convention, and to transact such other business as may properly come before the convention.

The convention will consist of 206 delegates, apportioned among the severa

ı	counties, as follows:	
ı	Baker 5	Lake
1	Benton 91	Lane
1	Clackamas10	Linn
ı	Clatsop	Marion

1	Total	206

The same being one delegate at large from each county, and one delegate for every 125 votes, and one for every fraction over one-half thereof, cast for Hon. M. C. George, congressman, at the last general election.

The committee recommend that the primaries be held on Saturday, the 12th of April, and the county conventions on Tuesday, the 22d day of April, unless otherwise ordered by the county

otherwise ordered by the proper county central committees.

The committee earnestly recommend that the delegates elected to the state convention attend in person, and if not convenient for them to so attend personally that they must deep records by convenient for them to so attend personally, that they send their proxies by electors of the county they represent.

The Republican voters of the state, without regard to past political differences, who are in favor of elevating and dignifying American labor, giving free popular education to the masses of the people, effectually protecting all human rights in every section of our common country, and who desire to promote friendly feeling and permanent harmony throughout the state by maintaining a government pledged to these objects and privileges, are cordially invited to unite in selecting delegates to the Republican state convention. SOL. HIRSCH, Chairman.

Portland, Oregon, Feb. 21, 1884.

The state Democratic convention is hereby called to meet at Dalles City, on Thursday, the 17th of April next, at 10 o'clock A. M., for the purpose of nominat-ing candidates for the following offices: Judge of the supreme court, three presi-dential electors, representative in the lower house of congress and district officers for the several judicial districts, and to select six delegates to the national Democratic convention, and generally to to do such other busines as may of right come before such convention.

The committee deem it fitting to pre

sent to the Democratic voters of the state the following considerations:

We see approaching an election of most vital import to our commonwealth in all its interests, both public and pri-

vate.

Deeming honesty the best policy, and in striking contrast with the course of the opposition party, we have named an early day for the assembling of the state convention. Our principles as a party will then be enunciated, and our candidates placed in the field subject to the approval or consideration of the body politic.

The variance in the vote of this state

The variance in the vote of this state The variance in the vote of this state during the past few years, and especially the very close contest in the presidential election of 1880, gives us much hope that, notwithstanding our present minority, with harmony in our ranks, and a well-directed exertion of our strength, we shall carry off the palm of victory. But to insure this end it is imperative that all Democrats should contribute their undivided support and hearty co-operation. vided support and hearty co-operation, not only in the actual canvass but in its very initiation-the county primaries. we do not presume to trespass upon the precincts of our popular convention, but do earnestly invoke all members of our party to put aside past differences and personal antagonisms, to unite in harmonious action in the various primaries

monious action in the various primaries and to sand full delegations of representative men to attend the state convention. We have deemed it fitting to reduce the number of delegates, in the hope of securing the personal attendance of those to be chosen. We especially recommend the formation of local clubs, where practicable, throughout the state.

Believing that the success of the Democracy is the welfare of the people, we cordially invite all persons, regardless of past political affiliations, who favor simplicity, economy and fragality in the administration of public affairs to unite with us.

P. H. D'ABOY, Secretary.

This season we have seen an active demand for choice butter all over the country; butter has been coming from Ohio and Illinois as well as California, besides which, much choice butter has been made in Washington and Oregon, for our nearest neighoors do some good dairying. fact that we have a good dairy re-gion and do not make our own supply is something that reflects upon the country and goes abroad to our discredit. California supplies us with a great portion of our living, and we go east for another portion. The world asks: What do they raise in Oregon? That is a question export returns and commercial statistics answer, but not so satisfactorily as we could wish. That we possess very favorable conditions for making butter is all that some peo-ple will ask. There is a general an-swer to be made to all this unfriendly criticism. Our dairymen do not produce enough to enable them to pursue the business to advantage, and those who do find a ready mar-ket for their product as "gilt edge" when fresh. Butter is made in the country and taken to town where merchants receive it in trade in the spring and summer and pack it after a fashion. This butter is sent to market when fresh rolls are scarce in winter, and is usually ranked as a poor article of packed. The country merchant doesn't buy it because he vants it, but to humor a customer. He does the best he can with it and that isn't much. He is not prepared to do much. He cannot handle it to advantage. He may not have a cellar to work it over in, and if he has that won't cure the oiliness that it gathered when coming to town in the hot sun and dust. This butter cannot help but be rancid and of course inferior. There is a mixture of all sorts of it, good, bad and indiffer-The merchant loses, the merchant loses, and the consumer must have a stomach that has lost its pur-

ity of taste.

We assert, then, that the regular
Oregon dairyman is all right. The irregular dairyman is commonly all wrong. If the farmer's wife, who makes butter, cannot send it to regular customers, as is the case with many good butter makers who live near the towns, then she ought to have a good spring house or cool cellar where she can handle the milk save and churn the cream, and pack and keep the butter until cold weath for fifteen or twenty cents, so she can double the income from that source None genuine without trade-mark of the Bull by handling the business properly. We cannot, and need not now go into the whole scheme of making it and packing it. Any good housewife can do that. What we are trying to show is that the milk should be set in some proper place, a spring house or cellar where water is procurable, then handle everything properly and the but-ter can be offered in January as good as anywhere in the world. So long as we are to have small dairies (and we should always have them, for are as profitable as any if well han-dled) we should handle them aright and they will pay much better fnr it. If our farmer friends will fix their wives for making butter they can supply the home market with a good article and not only make a profit from it, but stop this clamor we forever hear about "poor Oregon butter."-Willamette Farmer.

191 WEST TESTH STREET,) NEW YORK, August 11, 1880,)

Gentlemen:-Like most of my profession, I am cautious about pinning my fai h to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER, has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mino Although I was well acquainted with the superior excellence of your other plaster and antiseptic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in case of Lame Back, Local Rheamatism, Neuralgia. Congestion of the Bronchial Tubes and Lungs. Dyspepsia, Torpid Liver and the like affections, and have since begun to experiment with it personally. I find BENSON'S CAPCINE PLAST Ran exceptionally clean ly plaster to use, and rapid in its action-Many tests of its qualities, m de in my own family and among my patients have convinced me that there is no single article so valu-
