THE DEMOCRATIC STATE CONVENTION.

The state Democratic convention is hereby called to meet at Dalles City, on Thursday, the 17th of April next, at 10 o'clock a. M., for the purpose of nominating candidates for the following offices: Judge of the supreme court, three presidential electors, representative in the lower house of congress and district officers for the several judicial districts, and to select six delegates to the national Democratic convention, and generally to

to do such other busines as may of right come before such convention.

The committee deem it fitting to present to the Democratic voters of the state the following considerations:

We see approaching an election of most vital import to our commonwealth in all its interests, both public and private.

Deeming honesty the best policy, and in striking contrast with the course of the opposition party, we have named an early day for the assembling of the state convention. Our principles as a party will then be enunciated, and our candidates placed in the field subject to the approval or consideration of the body politic.

The variance in the vote of this state.

politic.

The variance in the vote of this state during the past few years, and especially the very close contest in the presidential election of 1880, gives us much hope that, notwithstanding our present minority, with harmony in our ranks, and a well-directed exertion of our strength, we shall carry off the palm of victory. But to insure this end it is imperative that all Democratis should contribute their undivided support and hearty co-operation, vided support and hearty co-operation, not only in the actual canvass but in its very initiation—the county primaries. We do not presume to trespass upon the precincts of our popular convention, but We do not presume to trespass upon the precincts of our popular convention, but do earnestly invoke all members of our party to put aside past differences and personal antagonisms, to unite in harmonious action in the various primaries and to send full delegations of representative men to attend the state convention. We have deemed it fitting to reduce the number of delegates, in the hope of securing the personal attendance of those to be chosen. We especially recommend the formation of local clubs, where practically invoke all members of our popular convention, but do earnestly invoke all members of our month, at 7% o'clock. P. The Indian Question

The United States senate has assed the bill providing for an allotnent of lands in severalty to Indians. This measure is the beginning and the end of the Indian question, which for six years has been pending in con-gress, having passed the senate twice, but met with failure in the house. The bill provides that whenever the president shall think proper he may take measures to obtain the consent of any Indians now on the reserva-tions, and they shall allot their lands in sufficient quantity to support themselves. None are allowed to own such ands until the expiration of twenty-five years, when the United States patent of ownership will be issued to to them. The idea of the bill is also to ultimately abolish Indian reserva-tions and make the red men depen-dent upon themselves. If the bill passes the houses, it will, within the next quarter of a century, add 100, 000,000 acres to the public domain, all of which will be thrown open to pre-emption. It comprises some of the best land in the country. The bill provides that after each tribe is allotted lands in severalty, its members are to be considered citizens and subject to the civil and criminal laws of the state or territory in which

Senator Dolph has an amendment inserted in the bill providing that all proceeds from the sale of reservation lands shall be invested by the secretary of the interior for the benefit of Indians and paid in full at the end of twenty-five years. In the meantime interest is to be paid the Indians to aid in maintaining themselves. No one objected to this amendment, but Dolph made a short speech upon it, in which he said it was proposed to prevent the Indians from being left after obtaining title to their lands, without anything. Senator Miller made a short speech upon the bill, in which he expressed the opinion that twenty-five years was too short a time to allow in which to make the red men dependent upon themselves. But as the time may be extended in the judgment of the president, no change was made and the bill passed.

Think twice before you believe every evil story you hear, and think twenty times before you repeat it especially if it is about a woman, especially if it is about a woman, Say to yourself, "this may not be true, or it may be exaggerated," unless you have proof of the veracity of your informant. People sometimes tell falsehoods—they often make mistakes, and they sometimes "hear wrong." There is auricular illusion as well as optical illusion. Take all these things into consideration before you even believe. As for repeating the story, ask yourself if it repeating the story, ask yourself if it necessary. Then do it with the fear of God and the remembrance of the golden rule before you. Let us give the helping hand, not the downward push; so may the angels reach their hands toward us when we stand in

People who have been denouncing the bottle-or the jug, it amounts to the same thing—so vigorously, will probably temper their remarks when they hear of the jug found near Island Shoals, Georgia, with 13,000 \$5 gold pieces in it. And yet it was the old reliable whisky jug, with liquor in it when found. It is sup-posed to have been hid away since the time of the Florida war, and the quality of the liquor was decidedly improved by age.
