THE DEMOCRATIC STATE CONVENTION.

The state Democratic convention is The state Democratic convention is hereby called to meet at Dalles City, on Thursday, the 17th of April next, at 10 o'clock 4. M., for the purpose of nominat-ing candidates for the following offices: Judge of the supreme court, three presi-dential electors, representative in the lower house of congress and district officers for the several judicial districts, and to select six delegates to the national Democratic convention, and generally to Democratic convention, and generally to to do such other busines as may of right some before such convention.

The committee deem if fitting to pre-sent to the Democratic voters of the state the following considerations: We see approaching an election of most vital import to our commonwealth in all its interests, both public and pri-vate.

vate. Determing honesty the best policy, and in striking contrast with the course of the opposition party, we have named an early day for the assembling of the state convention. Our principles as a party will then be enunciated, and our candi-dates placed in the field subject to the approval or consideration of the body politic.

The variance in the vote of this state politic. The variance in the vote of this state during the past few years, and especially the very close contest in the presidential electric listen of 1880, gives us much hope that, notwithstanding our present minority, with harmony in our ranks, and a well directed exertion of our strength, we shall carry of the palm of victory. But to insure this end it is imperative that all Democrats should contribute their undi-not only in the actual canvass but in its very initiation—the county primaries. We do not presume to treepass upon the precincts of our popular convention, but do earnestly invoke all members of our party to put aside past differunces and personal antagonisms, to unite in har-monious action in the various primaries tative men to sttend the state convention. We have deemed it fitting to reduce the number of delegates, in the hope of secur-ting the personal attendance of those to be chosen. We especially recommend the formation of local clubs, where prac-ticable, throughout the state. Believing that the success of the De-mocrave is the welfare of the popule, we cordially invite all persons, regardless of 8544-604

An Old Problem

J. C. asks if the following, which appeared in a Chicago paper, is cor-rect: How many cubic feet are in a stick of square timber 1 foot square at one end and tapering to a point at the other, and 100 feet long? The answer was 25 feet. Orton & Sad dler's calculator gives the rule for finding the solid contents of squared or four-sided timber as follows: "Mul tiply the breadth in the middle by depth in the middle, and that the

product by the length for solidity." A note says: "If the tree taper regularly from one end to the other, half the sum of the breadth of the two ends will be the breadth in the middle, and half the sum of the depth of the two ends will be the depth of the middle." In this case the breadth and depth of one end would be 0. and depth of one end would be 0. Following the rule, the breadth and depth at the middle would be 6 inches, and the example would be 6 times 6, equal 36 inches, multiplied by 100 feet equals 3,600, divided by 144, equals 25 cubic feet. A. We be-lieve this answer to be incorrect. Hearedly, and for computing the Haswell's rule for computing the volume of a pyramid is, multiply area of base by perpendicular height and take one-third of product. This will give us a cubic contents of 331/2 feet.

An Excited Editor's Admission

An exchange has a correspondent who writes thus about a fellow who broke his engagement with a girl he had been keeping up of nights for a long time:

"Of course he has no heart, but what there is of him ought to be kicked to death by jackasses, and we would be willing to be one to lend a helping foot."

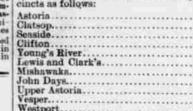

In these days of sham and pretense and wolves clothed in high-tariff wool, it is not often that you can get a man to come right out in print and acknowledge that he is only a simple trusting, sad-eyed jackass.
