A cable special to the World from London says: Russia's tyrrany in Poland is becoming more and more in-tense, There is a report, which receives wide consideration, that the Czar is contemplating declaring the people of Poland guilty of fomenting rebellion against his authority, for the purpose of diverting the atten-tion of the public from the growing strength of nihilism, and affording a pretext for a reign of blood and ter-ror, which it is hoped may crush the nihilists. This policy is said to be the outcome of the military council held by the Czar and the rulers of the various Russian governments. It is said that General Albedenski, governor-general of Russian Poland, left the council armed with authority to dragoon that unhappy country into revolt, and that he found a fitting law.
