### DEMOCRATIC PLATFORM.

Following is the platform adopted by the Democratic state convention at The

venting discrimination in layor of or against persons or places.

Third—That we look with alarm upon the unauthorized assumption of power and jurisdiction of United States courts in interfering with officers collecting the revenue of the state of Oregon.

Fourth—That we are in favor of the mortgage tax law, and believe the principle of taxation enunciated therein is correct and ought to be sustained.

correct and ought to be sustained.

Fifth—That we favor the passage of such laws in relation to the assessment and collection of taxes as will make the and conection of states as an analysis assessment and taxation of property equal and uniform throughout the state, and demand the strict enforcement of

and demand the strict enforcement or such laws when enacted.

Sixth—That the power conferred by the federal constitution upon congress to enact tariff laws was given for the sole and exclusive purpose of deriving reve-nues for the support of such government, and that the enacting of any tariff law for any other surpose, such as taration and that the emacing of any tariff law for any other purpose, such as taxation of one class of people, is as entirely unwarranted by the constitution as it is repugnant to justice and inimical to the general welfare, and we therefore favor a turiff for revenue, limited to the necessities of government economically administered, and a gradual but persistent reduction of the existing protective duties. Seventh—That the improvement of our cost harbors, the Columbia river and its tributaries, is of vital importance to the commerce of the whole state of Oregon, and we earnessly sak that an adequate appropriation be made by our present congress to begin the work of the Columbia river bar improvement, already too long neglected. We also ask such appropriation for the Cascade locks as will insure their speedy completion; also, we seek of our recessors.

sure their speedy completion; also, we ask of our representatives in congress a united effort to secure a liberal appropristion for the improvement and continua-tion of the work of improving the har-bors of Yaquina bay, Coos bay and the

Coquille river.
Eighth—That we favor the abolition of the prison contract system, and the present coolie trade conducted on this coast, as degrading to the wage workers of the

country.

Ninth—That for the purpose of preventing growing frauds in our elections, and to preserve the fruits of the ballotbox, we favor the passage of a registry

Tenth—That we are in favor of more efficient mechanics' lien laws.

It would be a great relief to some of us simple-minded farmers if this clever pen-driver could come to our relief and solve a difficulty that is driving us wild. Here it is:

I have a little farm of five hundred acres. It is supposed to be private property. Very well. On one fair summer day I find half a dozen goodlooking gentlemen, with instruments land, busy as Satan, driving on my stakes and making notes as they sight their way along my best meadow land. I ask, politely, what they are

"Making a survey for a bee-line from Pittsburg to Chicago.' "Through my farm?"

"Through your farm."
"But I will not have it. The road will rum my farm. Now stop where you are, or rather get off my place. You have not even been polite enough to ask my permission."

"It is not considered necessary, the head man answers. "We should lose much time by going through with such a ceremony with farmers. This is a public improvement, and if the right of way is denied, we appeal to the courts; your land is condemned and paid for, and there is an end of it."

As this is true, I am forced to submit. After the road is built, to my great injury, as a public improve-ment, I take a carload of cattle to the depot and ask to have them freighted to Chicago. I find the charges a third more than the same road demands fifty miles nearer Chicage, and double, even, what the charges should be. Somewhat indignant, for it is taking all the profit out of my beef, I say I will not pay. "Then you cannot transport your

cattle," is the answer. "I will appeal to the courts, this is infamous.'

"And the courts will tell you. dear sir, that they have no right to interfere. This is private property and exclusively private business. The courts can as well fix your price of beef as our rates."

Now, will the Nation or some other tony journal tell me where the publie improvement ends and private property begins?-Donn Piatt.

New York, August 11, 1880.

MEESTS. SEABURY & JOHNSON, Gentlemen:-Like most of my profession, I am cautious about pinning my fai h to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER. has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine Although I was well acquainted with the superior excellence of your other plaster and antiseptic dressing, made especially for the profession, the Benson was comparatively new to me. I had heard however, of its merits as a remedy, in case of Lame Back, Local Eheumatism, Neuralgia. Congestion of the Bronchial Tubes and Lungs, Dyspepsia, Torpid Liver and the like affections, and have since begun to experiment with it personally. I find BENSON'S CAPCINE PLAST R an exceptionally cleanly plaster to use, and rapid in its action Many tests of its qualities, made in my own

family and among my patients have convinc-ed me that there is no single article so valuable for popular use, nor so helpful in the diseases I have named. Should you desire to do so, you may use my name to that effect.
