A New Political Party.

A dispatch from Indianapolis, Ind., says: "Some of the features of a strong secret political organization, numbering several hundred thousand members, have been uncovered here. It extends from Maine to California. It claims 25,000 members in Indiana, 50,000 in Illinois, 60,000 in Ohio and 40,000 in Maine. The name is the "New Era," and it is anti-monopolistic in character. It is charged that the order has been organized in Ben Butler's behalf and that its movements are concealed to further his presidential aspirations. The organization was founded in Chicago less than a year ago. Some of its principles may be gathered from the following card inviting membership to the organization:

"Before the one Father who watches over all, we stand as brothers, and seek to establish equity and fraternity in all relations of life. We love our country and support the execution of all equitable laws, yet hold that laws which defeat equity are crimes against the inalienable rights of men. The right and title of the men of toil to the fruits of their toil and to a safe home and country are from God, and sooner or later His will shall be reached and established among men that it may be done on earth, as it is in heaven. We invite all good men of every proper trade and calling, who believe in and hope for these things and are willing to fraternally cooperate for their accomplishment, to come into our organization."

The Emigrant And The Indian.

A little transaction has come under our observation during the past week, which is too contemptible for anything, and causes us to have less respect for "poor Lo" than we had before entertained. An Indian went to a white man and told him that he was very ill and requested him to get him some liquor. The gentleman being a new-comer and unacquainted with the laws on this point, through sympathy did as requested. The Indian drank the liquor and went away feeling better. In a short time two other Indians went to the gentleman for liquor, but he refused to get it for them; they went away and soon Indian No. 1 returned for more liquor, and he too was refused. This refusal raised his ire and he proceeded to inform on the gentleman who had befriended him, and he was taken to Portland and fined before the U. S. court for doing what he supposed to be an act of mercy. You see the person informing the authorities of a violation of law gets paid for such information. If this is the kind of a game the children of the forest propose to play upon the innocent and unsuspecting, the authorities had best keep them on the reservation, where they belong.—Yamhill Reporter.

Absolutely Pure.

This powder never varies. A natural purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall-st., N. Y.

Analysis by Lt. A. Voelcker, F. R. S., Consulting Chemist Royal Agricultural Society, England, shows only a trace of nitrates in Blackwell's Bull Durham Tobacco. The soil of the Golden Belt of North Carolina, in which this tobacco is grown, don't supply nitrates to the leaf. That is the secret of its delicious mildness. Nothing so pure and luxurious for smoking. Don't forget the brand. None genuine without the trade-mark of the Bull. All dealers have it.

When feline comports drive away sleep, your best solace is found in Blackwell's Bull Durham Smoking Tobacco.

The following letter tells its own story. The signature will be recognized as that of the Physician-in-Chief of the De Quincy Home, and author of "Drugs That Enslave," "The Hypodermic Injection of Morphine," "A Manual of Nursing," and many other popular and valuable special medical works:

191 West Tenth Street, New York, August 11, 1880.

MRS. SEABURY & JOHNSON, Gentlemen:—Like most of my profession, I am cautious about planning my faith to any new medicine or curative agent. But your BENSON'S CAPICINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine. Although I was well acquainted with the superior excellence of your plaster and antiseptic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of Lame Back, Local Rheumatism, Neuralgia, Congestion of the Bronchial Tubes and Lungs, Dyspepsia, Torpid Liver and the like affections, and have since begun to experiment with it personally. I find BENSON'S CAPICINE PLASTER an exceptionally clean, hygienic plaster to use, and rapid in its action.

Many tests of its qualities, made in my own family and among my patients have convinced me that there is no single article so valuable for popular use, nor so helpful in the diseases I have named.

Should you desire to do so, you may use my name to that effect.

Very truly yours, H. H. KANE, A. M., M. D.

The genuine have the word CAPICINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.
