DROWNED. On CLATSOP SPIT, ON THE NIGHT OF June 12th, John Huhtals, aged about 35 years, about 5 feet 7 inches high heavy light mustache, blue shirt, blue overalls, rubber boots, a hunting-case silver watch, and am ready for business it, and am ready for business it. E. Cannery.

lated by a traveler that as he was going up one of the mouths of the Zambesi, he saw a whole village suddenly deserted by the inhabitants, who fied with all they could carry off, a proceeding which, as there was no fee in sight rather puzzled him, till a proceeding which, as there was no foe in sight, rather puzzled him, till he found they were fleeing from the ants. When these ants enter a hut, they clear it of every living thing in a few minutes. Hugh cockroaches, almost as large as mice, centipeds, mice and rats are instantly devoured. A strong rat is killed in less than a minute and in another minute its bones are picked. A leopard dog, or deer is soon dispatched and devoured, for they kill by their numbers. They are quite half an inch long, and one variety is so strong that it will bite pieces clean out of the flesh. They possess, however, one meritorious quality—they mortally hate, and, whenever they can, put to death the mischievous white ants which make such destruction in houses. In adsuch destruction in houses. In adsuch destruction in houses. In addition to these and the sand ants, which bite like scorpions, leaving a distressing pain behind them, there are several varieties of flies which sting horribly, such as the igogonai—small gnats—whose bites go through the tough hide of the negros, causing a terrible itch; the ibolai or gnats—which sting as though with a gnats—which sting as though with a needle, and whistle as they dash at you; the richouma, which fill themselves with your blood before you know they are there, and then leave an itching that lasts for hours, varied at itching that lasts for hours, varied at intervals by certain sharp stabs of pain; the sloway, or nest-building flies, not quite so big as a bee, which cling to a man even in the water, and assail the natives with such ferocity that if a canoe, by chance, touch one of their nests, the men instantly dive overheard.

Present trans-Atlantic freight rates by steamers from New York to Liver-pool are for wheat three to four cents Lowest Prices, per bushel, corn the same, flour twenty-four cents per barrel, bacon \$2.40 per 2240 pounds, lard and tallow the same, while cheese pays \$3.60 per 2240 pounds, pork per barrel thirty-six cents, cotton one-fourth cent per pound, hops one-half cent, tobacco \$4.89 to \$5.40 per hogshead and in cases \$4 per 40 cubic feet.

The largest shad catch of the season at Red Banks, Fair Haven, Conn., was made on the night of May 21st by four men. They caught 245 shad the first haul, and immediately set the net again and secured 250 more. Each man made over \$20 for his two
