Sufferings of a California Prospector.

WINNEPEG, Aug. 8th.—W. B. McBride, of Chicago, who has arrived here from a trip to the Rocky Mountains, brings word that a man named William Owens, a California miner, was found by some railway navvies near Kicking Horse river a few days ago in a famished and partially decomposed condition.

Owens had been living six days on human flesh when found, and still had a quantity of dried flesh in an old handkerchief. He was very weak and emaciated and told his story with difficulty. He repeated the horrible details on several occasions and all who heard him concluding that the story is true. He had a large roll of bills with him. The police have taken the matter in hand and will investigate it.

"Very Like a Whale." Capt. Frank Pierce, an old whaler of New London, Conn., gives this solution of the way the yarn about a black hump-back whale being seen off Block Island started: He was on the steamer Block Island and they were lying still off the north end of the island, in the fog, while the captain of the steamer was listening to get his bearings from the fog whistle on shore.

The current swept the steamer down near the Clay Head can buoy—a large, black, conical shaped affair—which was dancing up and down, now under the water and now out. As the steamer near the buoy it shot up on the crest of a wave and came hissing for two-thirds of its length out of the water, throwing a cloud of spray and spume above it.

"The-re she blows!" sang out Captain Pierce, half involuntarily, and immediately the passengers rushed to the side of the boat to see the whale. By this time the buoy was soaring upward on another giant wave and "swish-swashed very like a whale." "And it is impossible now," says Captain Pierce "to make the Block Island passengers believe that they did not see a real live whale, chock full of oil."

Hunting Condors. The Chilean government has declared a war of extermination against the condor. It offers a reward of \$5 for every condor killed. The hunting of this bird of prey has, under the circumstances, though it seems doubtful, if one considers the astounding powers of the bird and its wonderful habits, that the government can or will ever succeed in destroying the species at any price.

PILES! PILES! PILES! A SURE CURE FOUND AT LAST! NO ONE NEED SUFFER. A sure cure for Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams (an Indian Remedy) called Dr. Williams' Indian Pile Ointment.

191 WEST TENTH STREET, NEW YORK, August 11, 1884.

MEETS, SEABURY & JOHNSON, Gentlemen.—Like most of my profession, I am cautious about pinning my faith to any new medicine or curative agent. But your BENSON'S CAPSINE POISSON PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine. Although I was well acquainted with the superior excellence of your other plaster and antiseptic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of Lame Back, Local Rheumatism, Neuralgia, Congestion of the Bronchial Tubes and Lungs, Dyspepsia, Torpid Liver and the like affections, and have since begun to experiment with it personally. I find BENSON'S CAPSINE PLASTER an exceptionally clean-plaster to use, and rapid in its action.

Many tests of its qualities, made in my own family and among my patients have convinced me that there is no single article so valuable for popular use, nor so helpful in my name to that effect.

Very truly yours, H. H. KANE, A. M., M. D. The genuine have the word CAPSINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.
