

The Daily Astorian.

ASTORIA, OREGON: WEDNESDAY, AUGUST 20, 1884

BUTLER beat Cleveland after all in his letter of acceptance. But hold on! May be Mr. Cleveland has written his letter of acceptance, but forgotten to mail it.

A MAN without enemies is said to be a fool. Such being the case it is tolerably certain that there are no fools connected with the present presidential struggle.

"The tax rate in the city of Boston has reached what may be called the danger point. This year it is \$17 a thousand."—Oregonian. The aggregate of taxes in Astoria this year is \$35 on the thousand, a little more than double that of Boston. The "danger point" in our little city is not far distant unless a halt is soon called.

WHEAT is worth 45 cents a bushel at Walla Walla: \$1.12 a bushel at Liverpool. That is, it costs 67 cents to get a bushel of wheat from where it is raised to market. It takes thirty cents of the 67 to carry it from Astoria; it costs 37 cents to get it from Walla Walla to Astoria by the present system, and yet the Walla Walla papers in one column bewail the low price of wheat, and in the next throw cold water on THE ASTORIAN'S effort to have the Columbia river bar improved.

Is England drifting toward a republic? Mr. Morris, the "Earthly Paradise" man, says that the middle classes are becoming socialists. John Bright is at the head of the crusade against the lords. The people are clamoring for reform. Land has become a drug in the market. Business in many lines is stagnant. Workmen are emigrating or starving. Noblemen and sons of noblemen are placing their money in our western lands. The Queen is more a cipher than ever, and the Prince of Wales is popular because he is good natured. Influences are certainly at work in John Bull's island which will give it the blessing of presidential elections perhaps before the century is dead.

THE Franco-Chinese muddle grows more mixed with every dispatch. One day the imperial tea-chests are reported to have taken down their signs. Another they are coiling up their pigtails for action. Now they will pay up their little score, then again they won't. All this time the French admiral is waiting with his decks cleared and his powder dry. On Saturday it was rumored that Lespes had bombarded and captured Kelung on the island of Formosa. Then M. Ferry, the French prime minister, says that no such event has happened. The entire matter was to have been referred to our minister, John Russell Young, in China. Now that arrangement seems to have fallen through. There is nothing for it, apparently, but a good fight.

THE Nihilists, Nationalists, or whatever they are pleased to call themselves, are not idle. Finding that the blowing-up business is not quite so successful as was expected they are now devoting their destructive minds to arson. Vienna is at present in a state of panic and the frequency of notable conflagrations certainly gives cause for alarm. It is a cowardly as well as stupid business. What special benefit the destruction of handsome buildings is to bring to the idle and vicious children of anarchy does not appear. Reason does not, unfortunately, enter into their deliberations; otherwise they would incontinently hoist themselves with their own petards. It is to the interest of all true men that they should be brought to justice.

Frank and Clear. Having Admitted the Strength of the Evidence a Prominent Physician takes Logical Action.

The following letter tells its own story. The signature will be recognized as that of the Physician-in-Chief of the De Quincy Home, and author of "Drugs That Enslave," "The Hypodermic Injection of Morphine," "A Manual of Nursing," and many other popular and valuable special medical works: 121 WEST TENTH STREET, NEW YORK, August 11, 1884.

Messrs. SEABURY & JOHNSON, Gentlemen—Like most of my profession, I am cautious about pinning my faith to any new medicine or curative agent. But your BENSON'S CAPSICINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine. Although I was well acquainted with the superior excellence of your other plaster and antiseptic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of Lame Back, Local Rheumatism, Neuralgia, Congestion of the Bronchial Tubes and Lungs, Dyspepsia, Torpid Liver and the like affections, and have since begun to experiment with it personally. I find BENSON'S CAPSICINE PLASTER an exceptionally clean-plaster to use, and rapid in its action.

Many tests of its qualities, made in my own family and among my patients have convinced me that there is no single article so valuable for popular use, nor so helpful in the disease I have named.

Should you desire to do so, you may use my name to that effect. Very truly yours, H. H. KANE, A. M., M. D. The genuine has the word CAPSICINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.
