The Australia sailed from San Fran-cisco for Sydney August 30th, with 12,294 cases salmon.

A light run of salmon is reported thus far at Tillamook, about 700 cases having een packed to date.

Marion Hawkins, a single man, aged sixty, who came here some time ago from California, was yesterday adjudged in-sane and goes to Salem.

It scalled the "The United States Democrat," and has no use for Binine nor Butlet.
It was Thackeray who said that no man would accept the position of king of all the earth if he had to do so under the proviso of wearing a tight shoe. He was right, and so is P. J. Goodman, who guarantees the finest and most comfort able foot wear in the city.

Holden's last even-ing, the occasion being an introductory pastor of the Presbyterian church, and his family, who have lately arrived from the east. By a notice elsewhere it will be seen that the proposition to establish a coffee club gives fair promise of being an assured success. Everyone spoken to on the subject gives assurance of hearty co-operation. It is the intention to organize this afternoon and begin active operathis afternoon and begin active operations at once. Hermann Wise returned from San Francisco on the State yesterday after-noon. He brings a new and complete assortment of gents' furnishing goods, clothing, etc., and has leased the store formerly occupied by Jordan & Bozorth, where he will have an opening and begin ess next Saturday, the 6th inst. A case was tried over at Skamokwa last Tuesday, in which Neil Campbell was charged with obstructing the highway. Stokes, in Kinnney's new building. A jury of six was impaneled, among whom was one woman, and when the case was argued the jury stood five for acquittal, one for conviction. It was the first time in Wahkiakum county where a woman served as a jury served as a juror. D. P. Thompson, manager of the Hol-laday estate has engaged the services of anctioneer E. C. Holden to dispose of all live stock at Seaside on Clatsop plains. The stock comprises about 20 head of half blooded milch cows, several one and two-year-olds,forty hogs and some horses. The auction sale will take place about the 18th inst. Further particulars will be duly announced. A ten per cent. reduction on freights and fares to San Francisco is in order now. 'Tis a poor role that won't work both ways. The river service is well enough, but \$20 fare and \$4 a ton for freight to San Francisco from Astoria is a little steep. If Eastern notions are to prevail and men have to work for starva-tion wages, let a corresponding reduction mages, let a corresponding reduction made all around. The O. R. & N. Co. might as well do that now as later on, for opposition is sure to come. The attention is sure to come. The attention of our fishermen and ethers anxious to secure a home of their own in one of the finest locations in up-per Astoria, is directed to the advertise-ment of Mr. E. C. Holden under new to-day, who has been instructed to sell at public auction on the 13th inst., eight valuable lots in block 62 in Adair's ad-dition to Astoria. Here is a chance too for some of our moneved men who have for some of our moneyed men who have foresight enough to realize that all such eligible property will, at no late day, be-come scarce in the real estate market at the low prices obtainable at the present time. Superintendent Allen, of the Mechan-ics' fair, of Portland, in response to in-quiries, states that the board of directors have concluded to offer a gold medal as a first, and a silver medal as a second prize for hose contests during the exhibition this year. He also intimates there will be no difficulty in raising a liberal purse as an additional inducement to bose teams from abroad, and adds that the entire matter has been placed in the hands of Thomas A. Jordan and Frank G. Abell, who will use every means in their power to make it a success. Here is a chance for Astorie to win additional irophice.
