The movement meets with the heartiest approval of the ladies of the city, and the club will be a most valuable adjunct to the Astoria Fire Department. Nearly every lady in Astoria has a husband or son or brother or some relative or acquaintance in whom she is interested in the department and to whom with his associate firemen she can render splendid assistance. The Probable Cause of the O. R. & N.

The Northern Pacific R. R. and the O. R. & N. Co. are at present engaged in one Greely of Arctic fame, a complimentary of the biggest games of bluff on record. When President Harris was here about a month ago he said that it was probable ring's island, Behring's sea, for illicitly the O. R. & N. people would lease their selling rum to natives. entire property to his company for a term of ninety-nine years, in a few weeks. Shortly after his return to New York it became provises that the O. P. f. Y. became manifest that the O. R. & N. nanagers concluded they were a little Advertisements inserted by the year at the rate of \$2 per square per month. Trais-tient advertising fifty cents per square, each insertion. too hasty and began to exhibit an un-willingness to make the lease which had been looked upon by the N. P. folks as something already virtuelly accom-

About this time the N. P. concluded that the best way to force the game was to show their strength. Accordingly an anow their strength. Accordingly an edict went out that on and after the lat, wheat would be carried from all points east of Wallula junction to Duluth, Minneapolis or St. Paul for \$8 a ton, and have recan flects. neapolis or St. Paul for \$8 a ton, and would be taken thence to Liverpool by the lakes and Atlantic route for \$7.60 a

Of course all that is pure, simple bluff. The N. P. cannot and will not make any such arrangement, for it would be ruinous. It would be to carry wheat for less than It would be to carry wheat for less than half a cent per ton per mile, when such men as Vanderbilt, Gould and Field, who have the thing down to a science, say that the actual cost to their great corporations in carrying wheat is \$\frac{1}{2}\$ of a cent per ton per mile. But it had its effect, for the same day that the decree was made public, O. R. & N. stock began to drop, and a counter move we all see in the rest duction of wages by the O. R. & N. Co. They simply raise the Northern Pacific folks \$350,000 better. The moving of this year's grain crop eastward instead of westward would greatly curtail the O. R. & N. People should be forced into signing the lease rather than lose so much business. The latter now retort by virtually saying: "Go the Scatines's answer would be ready and heads course the eastern Orsean and the same of the defense appeared and announced that the Scatines's answer would be ready and heads overraled the demurer filed by the defense appeared and announced that the Scatines's answer would be ready and the Scatines's answer would be ready and the same contents.

Another apparent reason for reducin the salaries is the necessity that the O. R. & N. folks are under of making a fair showing of earning as a percentage on the amount of capital invested. There is to-day, probably, one million of dol-lars invested in O. R. & N. boats that is not earning one doller. The Olympian over on the Sonnd is not paying expenses, the Alaskan is tied up at Portland. All along the Columbia may be found boats idle and a constant source of expense. All these go to swell the sum on which interest must never the principle that street yesterday afternon that was anything but a dry fall.

Portland is receiving alleged Chinook salmon from the Nestucca. The Oregonian says that they are landed at Oretown, hauled thirty miles to Sheridan, in Yamhill county, and then shipped by rail to Portland. It also adds that they "arrive in fine condition."

The Chinese evidently have no fear of cholera. A crowd of them yesterday pounced on two boxes of melons, decaying apples and putrid peaches, that were flung out back of a grocery store, and in two minutes the whole mess had disappeared down their throats. They and the gulls make splendid scavengers.

There will be a novel and pleasing entertainment at Liberty hall at 8 o'clock this evening, where some brilliant views will be displayed by the famous stereout. much or do more than he thinks is a fair equivalent for the wages that he is prof-fered. As the matter stands it is an inwill win, the Northern Pacific or the O.

Soon after he was employed in the First Naafter he was employed in the First National bank as assistant exchange clerk. His salary did not suffice to keep him, and he helped himself to deposits made by the Oregon division of the Northern Pacific Railroad Company, of which he had charge. He regularly abstracted some portion of the contents of packages of bills from station agents and conductors which passed through his hands. He continued stealing, and when he found that he had taken more than he could re continued stealing, and when he found that he had taken more than he could repay he ran away. With what was left he went with his family to San Francisco on a sailing vessel, and then took passage in a Pacific Mail steamer for this city. Afterward he got tickets for Paris, thinking to throw the police off the track. He said he did not know how much he had taken. A small portion of the money was found in his possession. Detectives left for Albany to day to get the necessary papers to take the prisoner to Ora gon.

special of a Washington correspondent of the Cincinnati Enquirer, who, after interviewing Dana and others, concluded: "If I should be broadly asked the result of my conclusions, I would say the out-look here is not hopeful. In no quarter look here is not hopeful. In no quarter are the indications such as point to a reconciliation of factions in New York, and if they are not brought together the loss of the state is conceded, not alone by Republicans, but by Democrats, who are zealously 1 utting their shoulders to the wheel to compass Cleveland's election. The cast of the die is in Ohio. Ohio can save Cleveland and throw the tide in the Empire state. The national Democratic committee is beginning to awaken to a full realization of this, and the immediate plans for a great battle in the immediate plans for a great battle in the state are to be formulated." The Star says: The correspondent's conclu-sions agree substantially with ours. Unless the Democrats carry Ohio nex month, the whole battle will be lost, fo it is only by a signal victory there that the shadow of a fighting chance will be left them for any northern state, except perhaps Indiana. On the other hand, it is by no means impossible that the Re-publicans will carry Ohio in November, after losing it in October. These are facts, and it is useless to disguise or mis-
