Coal Harbor, the Western Terminus of

The terminus of the Canadian Pacific on the Pacific slope will be at Coal Harbor, Burrard Inlet, and not at Port Moody, where the section of the road being constructed by the Dominion government ends. The extension leaves the C. P. between one and two miles east of Pitt river, crosses the river between the present bridge and the mouth, and runs in an almost straight line to Deer lake, deflects to a point on the inlet near

with the main line by a spur. A new bridge will be constructed across the Pitt river, near its estuary. Port Moody will not be abandoned, but both lines will be used, and it is even possible that the whole inlet may be required for railway purposes. The quantity of sidings required will be enormous should the company ability to carry the Asiatic commerce at less than other continental roads at less than other continental roads give it the boom it anticipates. At Winnipeg the company has 21 miles of side tracks and 300 acres of ground for their works. At Fort William and Port Arthur there will be five or six miles of wherves. The Central Pacific, Manager Van Horn declares, will be complete in sixteen months, and he further believes that the excellence of British Columbia timber will command it a market as far east will command it a market as far east as Winnipeg. On the completion of the C. P. R. R., a line of powerful steamers will be put on from the terminus to the orient, as well as coast steamers to the various ports in the province of British Columbia The Pacific ter-minal city will be one of the two larg-est on the Pacific coast, San Francisco being the other. The journey from Montreal or Toronto can be made in one hundred hours. This will be an enormous saving of time compared with the American routes.—Ottawa Free Press.

Having Admitted the Strength of the Evidence a Prominent Physician takes Logical Action.

The following letter tells its own story. The signature will be recognized as that of the Physician-in-Chief of the De Quincy Home, and author of "Drugs That Enslave," "The ual of Nursing," and many other popular and valuable special medical works:

MESSTS. SEABURY & JOHNSON, Gentlemen; -Like most of my profession, am cautious about pinning my faith to any new medicine or curative agent. But your has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine Although I was well acquainted with the superior excellence of your other plaster and antiseptic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of I ame Back, Local Rheumatism, Neural-gia. Congestion of the Bronchial Tubes and Lungs. Dyspepsia, Torpid Liver and the like affections, and have since begun to experi-ment with it personally. I find BENSON'S CAPCINE PLASTER an exceptionally clean-

ly plaster to use, and rapid in its action-Many tests of its qualities, made in my own family and among my patients have convinced me that there is no single article so valu able for popular use, nor so helpful in the

diseases I have named. Should you desire to do so, you may use my name to that effect. Very truly yours,

H. H. KANE, A. M., M. D. The genuine have the word CAPCINE cut in the center. Price 25 cents. Seabury & Johnson, Chemists, New York.

VISITORS TO PORTLAND

Should not forget to call at Towne's San Francisco Callery, where may be seen photographs of all the leading men and women of Oregon and Washington Territory. Skillful operators always in attendance, and the most minute attention paid to pictures of children. Don't forget the location, S. W. corner First and Morrison streets, up stairs. No trouble to show apecimens to visitors. Street railroads pass the door every ten minutes, and this is the nearest gallery to the five principal hotels.
