BLAINE AT CINCINNATI.
CINCINNATI, Oct. 1.—At the Hamilton meeting, Hon. H. L. Morey introduced Mr. Blaine as the most distinguished representative of the American flag. The great crowd cheered heartily and repeatedly. When order was restored Mr. Blaine said: Citizens of Ohio—It is now forty years since the great protective tariff engaged the attention of the American people as profoundly as it does to-day. It was in the contest between Mr. Clay and Mr. Polk, in 1814, that a great national debate on the question took place, and the protective tariff was defeated, not by popular vote, but by the bad faith of the party which succeeded in the election. And I beg to call your attention—the attention of a large manufacturing population—to the fact that the policy of protecting American industry has never been defeated in the United States by a popular vote. A contrary policy has been forced on the people at different times through the bad faith of their representatives, but never, I repeat, by the popular vote, upon a deliberate appeal to the people in their primary capacity. It would therefore seem to be the duty of the people of the United States, if they be true in their policy of protection, to see that that policy is sustained which can be trusted to uphold it.

PARIS DISPATCHES.
PARIS, Oct. 1.—The bicentenary of Cernolle was celebrated to-day in a church at St. Roche. Members of the Theater Francaise were present by invitation. Dumas and other academicians and notables were also present. There was an immense crowd in the church. Abbe Millault pronounced a eulogy on Cernolle which was followed by a brilliant musical service.

PARIS, Oct. 1.—It is reported that Bismarck has actually proposed a renewal of the conference to finally settle the Egyptian finance question, and has suggested that the conference meet in Berlin before the end of October. The idea meets with increasing favor among French politicians.

PARIS, Oct. 1.—A cabinet council will be held Thursday to consider a communication from Granville, English secretary of state for foreign affairs, complaining to the French government of the hostile attitude and intrigues in Egypt by Barre, French official representative at Alexandria.

ALBANY, N. Y., Oct. 1.—Grover Cleveland, accompanied by Erasmus Corning and Major Banks of Albany, Simon W. Rosendale, John A. McCull, and General Austin Duthier, leaves Albany for Buffalo on a special train to-morrow afternoon. The party will arrive in Buffalo at 8:20. Elaborate preparations have been made for the governor's reception. The train makes no stops. The governor leaves Buffalo on the regular train Friday night for Albany.

WOODS HALL, Mass., Sept. 1.—The Merrit Wrecking company succeeded in raising the Tallapoosa, sufficiently to remove her two miles toward Edgewater harbor. It appears probable that in a few days she will be got there where she can be temporarily repaired.

The late Edmund G. Rawson, M. D., who was an interne at Bellevue Hospital during the great cholera epidemic years ago, has just published a lifting tale of the post mortem phenomena of the deadhouse. He had often seen a corpse alter its position when placed in an uneasy posture. "Once," said he to the writer, speaking of these memorable experiences, "I saw a patient who had been dead an hour, lift his arm deliberately and lay it across his breast. On another occasion, just as I was about to make an incision with the scalpel at a post mortem in which the symptoms had been peculiar, a deep, prolonged sigh issued from the lips of the dead"—phenomena accounted for by the persistence of irritability of the muscular tissues after the functions of life had been totally suspended.

John W. Mackay said to a reporter of the St. Paul Pioneer Press: "Maintaining the most generous business in the world." "You can well afford to say it," the reporter retorted, "with thirty million dollars to your credit. But did you think so in 1869, when you were pushing an ore-car in the Ophir mine?" "I knew it then only in theory; for my salary of \$4 a day was always sure, and my wants were simple. You always hear of the successful miners. The men who disappear and are lost in Pauper alley are not so often quoted."

The Brain and the Bottle.
Nobody can stand protracted indulgence in strong drink. The toppers who seek continued stimulus in what they call their "bitters" have muddled brains, blood shot eyes, unsteady gait, and ruined digestion. Just remember that the stout who calls "bitters" is not Brown's Iron Bitters. No topper wants it. It contains nothing that suits him for stimulus. It is a pure tonic, and the best preparation of iron in existence. Cures indigestion, malaria, kidney and liver diseases.

The freeman's oath in Vermont requires the citizen to "solemnly swear (or affirm) that whenever you give your vote or suffrage touching any matter that concerns the state of Vermont, you will do so as in your conscience you shall judge will most conduce to the best good of the same, as established by the constitution, without fear or favor of any man." The state of Vermont was founded on independence, and existed as an independent republic for fourteen years.

Scott's Emulsion of Pure Cod Liver Oil, with Hyposphosphites.
For Pulmonary Troubles.—T. J. McFALL, M. D., Anderson, S. C., says: "I consulted Scott's Emulsion of Pure Cod Liver Oil in the market for Pulmonary Troubles. I have used it in my practice since 1876, and am well satisfied with it."
