In those days there were a good many slaves getting away from their masters in Virginia and making for Penn-sylvania. So the owners clubbed together and estal lished a patrol along the Baltimore and Ohio. For more these are land of the thor more than one hundred miles they kept an average of three men to every mile where there was timber, watching the track nights with dogs and guns to catch any siave that would attempt to cross. One night I was running a freight west. All of a sudden before me in the light from my head-lamp I saw a colored man standing on the track. He has a heavy stick in his hand and was fighting for life with a pack of dogs. Down the track I saw three slave-hunters running toward the negro. I tell you it was a sight that made my blood boil. Acting on the impulse of the moment I shut off steam, whistled down brakes and set up a fearful whistling. I also released the safety-valve and made her blow off steam. I hoped to frighten the dogs, and did. They turned and looked at the big light of the engine, and some of them ran away. But the slave was nearly as badly frightened as the dogs. He stood motionless on the track. To this day I can see his figure as it was outlined against the darkness. It was a statue of despair. Fearing we would run over him I ed to him just in time. He roused with a start, jumped to one side as I passed and called to him to get on the train, which was by this time running slow. I watched him get on, Sold everywhere. My bucket was empty when it came back, and then the fireman took his back to our passenger. It was emptied too. The man was famishing. Well, that slave got into Ohio, and after an investigation my case was laid before Mr. Gar-rett. Gentlemen: - Like most of my profession, I am cautious about pinning my faith to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine Although I was well acquainted with the superior excellence of your other plaster and antiseptic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of Lame Back, Local Rheumatism, Neuralgia. Congestion of the Bronchial Tubes and Lungs. Dyspepsia, Torpid Liver and the like affections, and have since begun to experiment with it personally. I find BENSON'S CAPCINE PLASTER an exceptionally clean-
