The children lived in a little cabin home and all three of them—Nell, Rob and Lizzie—were taking a gay "make-believe" ride on on old log. Fido jumped and barked as if he en-joyed the fun as much as anybody. A gentleman who was passing down

the road stopped and laughed. "Good morning, little folks! That is rather slow riding. Wouldn't you like a horse and carriage?"

"Yes, sir," said Robbie, "but we

haven't any, and so we are getting the most fun we can out of what we do Was not that a wise answer? How

much pleasanter this world would be if all the little people—and big ones, too—would stop fretting about the things they cannot get, and make the best of what they have!

The European possessions on the west coast of Africa are gradually ex-tending at such a rate that in a few years nothing will remain for the natives. Of the whole extent of this coast, not counting the inhospitable desert in the north, the French own about 600 miles, the English 1,300 miles, including the Niger delta. The Portuguese own 800 miles, the Republic of Liberia 350 miles, and Germany about 900 miles. This leaves 900 miles of territory in the hands of the natives between the Senegal and the Cape of Good Hope, of which 500 miles between the Gab-oon territory and Ambriz, inclusive of the mouth of the Congo, are of more importance, the coast itself be-ing of very little value aside from the fact that it opens the way into

The following letter tells its own story. The signature will be recognized as that of the Physician-in-Chief of the De Quincy Home, and author of "Drugs That Enslave," Hypodermic Injection of Morphine," A Manual of Nursing," and many other popular and valuable special medical works:

NEW YORK, August 11, 1880.

MESSTS. SEABURY & JOHNSON,

Genflemen:-Like most of my profession, 1 am cautious about pinning my faith to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine Although I was well acquainted with the superior excellence of your other plaster and antisoptic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in case of Lame Back, Local Rheumatism, Neuralgia. Congestion of the Bronchial Tubes and Lungs, Dyspepsia, Torpid Liver and the like affections, and have since begun to experiment with it personally. I find BENSON'S CAPCINE PLASTER an exceptionally clean ly plaster to use, and rapid in its action. Many tests of its qualities, made in my own

family and among my patients have convinced me that there is no single article so valuable for popular use, nor so helpful in the diseases I have named. Should you desire to do so, you may use my
