All quiet.  
 Nothing succeeds like success.  
 The *Typhoon* has arrived out.  
 The *Willamette* crossed out yesterday afternoon.  
 The *Queen* is due this morning from San Francisco.

The *Heda* goes to carry iron ore between Ironside and Port Townsend.  
 Carl Adler is among the returning passengers on this morning's steamer.  
 A clam has his ear in his foot. It is no trouble to a clam to walk off on his ear.

The street in the vicinity of Wyatt & Thompson's, was taken up yesterday to let in the pile driver.  
 The *Prince Umberto*, *Wm. H. Starbuck*, *Mary A. Trapp*, *Emerson* and *Abner* are at Sand Island.

The Y. M. C. A. is having a week of prayer. Under the circumstances such exercise is peculiarly appropriate.  
 L. M. Starr of San Francisco had \$80,000 that Blaine would carry New York. Mr. Starr is anxious to hear the returns.

During October 22,755 cases Columbia river salmon were shipped overland. The amount remaining on the river is very small.  
 The old tug *Astoria*, now at San Francisco is to be dismantled, the machinery taken out and the hull sold for a fishing boat. She semper ligatus.

On the 23rd trains will begin running on the Oregon Short Line. Astorians now have their choice of four different Pacific railroads when they go east.  
 It is now thought pretty certain that Voorhees (Democrat) is elected to congress from Washington territory by a small majority—not over 100.

The *Perthshire* has been chartered by A. W. Berry to load salmon. The bark *Geneth*, now about 80 days from Valparaiso, has also been chartered by Mr. Berry.  
 Frank L. Parker and Miss Alice C. Pope, were married at the residence of the bride's mother last evening. They leave this morning for Portland on a bridal tour. The young couple have the best wishes of a host of friends.

Gill & Clinton are driving spiles on Nurnburg's lot, opposite Wyatt & Thompson's, for a Jeff, the boss restaurant man, who has a 99 years' lease. He will build a two-story building and will open a lunch saloon to be named "The Telephone." Jeff has no intention of giving up his present place of business, but will run them both.

A resolution was adopted at the city council meeting last evening recommending that the city attorney draft an ordinance repealing the twelve o'clock ordinance at its next meeting. This ordinance has occasioned an immense amount of discussion. The *ASTORIAN* has written columns upon the subject, and is of the opinion that the commercial interests of our city demand the repeal of the ordinance.

At the last meeting of the Portland board of trade a communication was read from Harry C. Lord to Mayor Chapman setting forth that a new steamer is to be built for lighthouse service and asking the board to use its best endeavors to secure the services of the new boat in the Thirteenth district. The United States lighthouse board now proposes to send the *Manzanita* to Oregon, and use the new steamer in the California district. The communication was referred to Oregon senators and congressmen, asking them to aid in securing the new steamer for the Thirteenth district.

**Opinion in re Mortgage of G. W. Hume vs. I. X. L. Packing Co.**  
 The following was read and adopted in council, last evening:  
 The question is: Can a mortgage upon realty in this county be taxed, the holder being a non-resident.  
 This question was before the supreme court in the case of *Manford vs. Sewall*. In this case the mortgage was on realty in Oregon and the mortgagee was resident of New York state. The court then held that the mortgage was a property and is incorporated property and is local in its nature.

Section 8 of the act of 1882, (referring to mortgages), provides that a person owning a debt secured by a mortgage may take the amount of the indebtedness from his assessment as such indebtedness.  
 I am therefore of the opinion that the mortgage of G. W. Hume is taxable property; that the I. X. L. Packing Company are entitled to the right to deduct the amount of their property mortgaged from their assessment.

**Board at Jeff's.**  
 The best in America, \$20.00 a month.  
**CROW**

**Home for Children.**  
 Mrs. Wagner, whose residence is next to C. W. Fulton's, is now prepared to take entire charge of a limited number of children. Every attention paid to the little ones, and any one leaving their child with Mrs. Wagner may be sure that it will receive a mother's care.

**JEFF**  
 Gives meals for 25 cents, as big as the mammoth pumpkin on exhibition in front of his restaurant. Go and see it.

**Notice.**  
 Dinner at "JEFF'S" CHOP HOUSE every day from 4:30 to 8 o'clock. The best 25-cent meal in town; soup, fish, seven kinds of meats, vegetables, pie, pudding, etc. Tea or coffee included. All who have tried him say Jeff is the BOSS.

**Removal.**  
 Mrs. A. B. Jewett has removed to rooms 3 and 4, Odd Fellows Building. Dresses cut, made and fitted in the most fashionable style.

**STILL IN SUSPENSE.**

The election has for the past week been the great topic of discussion in the city, and reports from elsewhere are to the effect that it is precisely the same all over the United States. Bets are still being made on the result. Republican stock was quoted a little firmer yesterday afternoon. Following is the latest obtainable news.

New York, Nov. 10.—The Republican national committee have instructed all Republican inspectors to attend the county canvass to-morrow. It is understood the vote of every county will be challenged. The Republican managers have engaged Evers, Bliss and other prominent lawyers to represent their case before the state canvassing board. Their opponents have engaged Conkling for the same purpose. The Republicans will endeavor to have the vote of Canajoharie thrown out because the polls were opened half an hour before the Republican inspectors arrived at the time set by proclamation.

New York, Nov. 10.—A United Press reporter interviewed a large number of prominent business firms as to their opinion of the prospective change of administration and its effect upon business. The opinion was about equally divided, many seeing disaster, others predicting improvement. A great majority thought it would have no visible effect, after the present dullness owing to the uncertainty is over.

New York, Nov. 10.—Republican headquarters are practically closed, but the committee have leased the building till the 15th proximo, and will confer there till then.

New York, Nov. 10.—The state board of canvassers, to canvass the vote of each county, meets at the secretary of state's office at noon to-morrow. It may take five days to complete the work, depending whether there are any controversies before the board, which are now indicated.

INDIANAPOLIS, Nov. 10.—Senator McDonald is reported as saying he thought the Democrats were wrong in jollying before the official count. It is also alleged that he said Cleveland and Hendricks, in exchanging congratulations were unbranded.

BLAINE GAINS 503 VOTES.  
 The following was received at nine last evening:  
 PORTLAND, Or., Nov. 11, 1884.

**THE ASTORIAN:**  
 The New York court began this morning. Ten counties have been reported on officially up to this time. There is only one change, viz., in Clinton county; this gives Blaine a gain of five hundred votes. The suspense is just as painful here as in Astoria.

**CONCERNING THE BOYS.**  
 EDITOR ASTORIAN:  
 The engine house of No. 2 is a place of resort at night for boys who should be at home.

It would be doing justice to the parents and the boys, if those who are in authority would stop this practice. There are fruit and candy stores also, where dice throwing is done for cigarettes, nuts, etc. The boys of this town are thus taking their first lessons in gambling and thus unfitting themselves for business, as business men will not employ boys who remain out late at night in bad company, or who gamble.

There are places where the curfew-bell is rung to warn boys that they must be at home. If not they are arrested and carried by the police.

It is very well to say that the parents must take charge of their children, but there are many who cannot.

I make the suggestion that the city council take some steps to aid parents in this much needed police regulation, in this town where there are so many places of resort which are disreputable. The 12 o'clock ordinance is not more important than to remedy the evil of which I write, and for one who feels a deep interest in the rising generation, I hope that my suggestions may be considered.

That this may meet with more consideration than a communication which is not signed by the name of the writer, I sign my name.  
 T. T. CARBENESS.

**CITY COUNCIL PROCEEDINGS.**

**The Twelve O'clock Ordinance and Its Probable Repeal.**

**ENGLISH SALMON NOTES.**  
 Salmon has been in better request, and larger quantities have been cleared off, which is very gratifying to those holders who have been long looking for a revival of animation in the trade in this article, but no recovery in prices worth mentioning has taken place.—*London Grocer.*

Liverpool, October, 1884.—The low prices at which salmon stocks are now offering have tempted a few dealers to operate, and the consumptive demand shows some improvement. Business has, however, been rather limited, and sales have not been effected to an extent likely to benefit the market, and prices remain unchanged.—*Correspondence London Grocer's Gazette.*

The business in salmon during the week has been steady, but is still much below the average as compared with the sales at the same period in 1883. The prices are low in proportion to the demand, and it is considered probable that a large consumption will soon follow. With the average sales of last year, the prices could now be ten to fifteen per cent higher, and it is believed that grocers would do well to buy at present rates. It is to be noted that this season we are to have small consignments of one or two high-class brands, which for the past season Astorian friends have kept entirely to themselves. It is to be hoped, however, that in future we are to have a large proportion of the finest quality.—*Correspondence London Grocer.*

**Fire in Texas.**  
 Chief of Fire Department, Houston, Texas, Mr. Wm. H. Coyle, writes, that he was severely injured by a falling wall. He could scarcely move about when he was induced to try St. Jacobs Oil, the magical pain-reliever, and to his surprise he was cured of his lameness.

**STATE AND TERRITORIAL NEWS.**

The largest sawmill on the coast is under construction at Emery.  
 There were 42 deaths in Seattle during October; four from consumption.

The southern Oregon papers tell of green fields and splendid pasturage. Seattle citizens who were willing to back up opinions with coin have \$10,000 at stake.

The steamers plying between Seattle and Whatcom are to be withdrawn for the winter.

A man bearing the suggestive name of Stretch has been elected sheriff of Snohomish county.

By a vote of the people the seat of Skagit has been removed from LaComer to Mount Vernon.

It is said that more persons have been drowned in the Skagit than in any river emptying into the Sound. The Skagit never gives up its dead.

The total assessment value of the property in Crook county, one of the new counties of Oregon, is \$1,612,323, one-half of which is represented by cattle, horses and sheep in nearly equal proportions.

At the term of the United States district court, now in session at Vancouver, judgment has been taken against John Wood & Co., of Pacific county, in favor of the United States for \$1,500 and costs, for lumber unlawfully cut upon the public lands.

Thirteen thousand boxes, amounting to 161 tons of hops, were picked on the Snoqualmie hop ranch during the season, which lasted fifty days. About fifty tons were lost for want of pickers. Some 500 pickers were employed toward the close of the picking.

The Tacoma *Ledger* says: Over 1,000 men are employed on the first seven miles of the Cascade division. The long trestle near South Prairie is nearly completed and work on the through cuts beyond is progressing rapidly. On the completion of these cuts tracklaying will be commenced.

On the 10th the advance force of track-layers on the Baker City branch, reached Huntington, and met the advance force of the Oregon Short Line coming west. By evening the tracks had been joined, except one length of rail, and this was delayed awaiting the pleasure of C. H. Prescott, manager. The formal completion took place yesterday.

The *Chehalis Valley Vidette* says: The Hoquiam mill, having received a large order for spruce lumber, is now running on full time with a good prospect of continuing. We presume this fact may be interpreted in two ways. First, that as spruce is used for lining grain vessels, California is preparing to ship large quantities of grain to foreign markets, and second, that if this is true, the lumber market in California will be materially improved, as the Californians must sell wheat before they can buy lumber.
