

The Daily Astorian.
 ASTORIA, OREGON:
 THURSDAY, NOVEMBER 13, 1884

THAT windward anchor seems to be dragging.

CLEVELAND carried Texas by over 100,000 majority.

In some Texas towns an alarm of fire is given by the citizens in the vicinity shooting off their pistols.

At Lexington, Ky., last Tuesday, the famous trotting mare Mand S. trotted a mile in 2:09 1/4, the best time on record.

In Maryland they have a law that there shall be no torchlight processions "within ten days preceding the election."

NEW YORK is bounded on the south by Pennsylvania which gave Blaine 78,000 majority. Geography is a great science.

SIXTY-THREE deaths, in Paris, from cholera, in the twenty-four hours ending on the 11th inst., greatly alarm the residents of the French capital.

WHETHER beaten or victorious, the potency of the name of Blaine in the contest of the 4th, carried into office thousands of candidates all over the Union that never would have been elected had not Blaine's name headed the ticket on which theirs were printed. This is notably the case in California.

If ever there was a case of "adding insult to injury," it is on the part of the jackdaws in New York who are telegraphing to Blaine that they are "sorry" they voted against him. They evidently didn't know it was loaded, but the market value of their sorrow is about on a par with their judgment, as displayed in post mortem regrets.

The New York Morning Journal is conceded to be the most popular of all eastern newspapers. It is also a marvel of accuracy. The day before the election it said what Cleveland's New York and Brooklyn majority would be, what Blaine's majority outside of New York would be, and declared that Cleveland would carry the state by 1,000. It was a wonderful bit of political prophecy, and while party managers were prophesying 60,000 each way the little Journal called the exact turn.

McPHERSON, secretary of the Republican congressional committee, says, from the most authentic information he has been able to secure, that the next house of representatives will consist of 182 Democrats, 141 Republicans, one Greenbacker (Brumm, of Pennsylvania), and one Fusionist (Weaver, of Iowa); Democratic majority over all, 39. As compared with the membership of the various parties in the present house, this estimate shows a loss of 19 to the Democrats, and 4 to the Independents, and a gain of 22 Republicans and one Fusionist vote.

VICE-ADMIRAL CLOSE of the British navy has offered a singular explanation about the loss of the gunboat Wasp, recently off the Irish coast. There exists, it seems, a form of defective sight known as "moon blindness," persons afflicted with which are unable to perceive a light shining in darkness. It is easy to see the consequences of this infirmity in the navigating officer of a ship. Admiral Close says he nearly lost the man-of-war Trident once from this cause, only discovering in the nick of time that his navigating officer was unable to see the light of a lighthouse half a mile distant. If "moon blindness" is an established fact in medical science, the sooner provision for detecting it is made the better.

The Scott law decision will make no end of trouble with local revenue matters in Ohio. Under it there was last year collected from the saloons something like \$4,000,000, which went mostly to the counties and cities, and was applied in paying pauper and police expenses. Aided by this the municipalities paid their debts, and this year the rate of taxation was greatly reduced. Now the extraordinary income is stopped, and it seems that some saloon taxes already paid will have to be refunded, and county and city treasurers are tearing their hair from one end of the state to the other. Comparatively few of the beer sellers had paid for this year, but it remains to be seen whether all they paid last season cannot be recovered. And even if it cannot be, the local governments have altogether—with the failure of this year's tax and the reduced ordinary assessments—a deficit of about \$5,000,000 staring them in the face, and that after the year's levy is made, so that there is only borrowing left.

Ordinance No. 703.
 An ordinance regulating the management of fires and the protection of property.
 The city of Astoria does ordain as follows:
 Sec. 1.—The Common Council of the city of Astoria shall at its first meeting in October of each year appoint from such company of the fire department of the city of Astoria four active members to be recommended by the Chief Engineer of the fire department to act as fire police at and during all fires.
 Sec. 2.—That the fire police so appointed shall, at all fires, under direction of the Chief of Police, to place ropes or guards across all streets on which shall be situated any building on fire and at such other points as may be deemed expedient and necessary by the Chief Engineer of the fire department and they shall prevent any and all persons except members of the department who shall be known by their badges or by identification by the firemen of his company, insurance agents, members of the press, and owners and occupants of buildings endangered by existing fire, from entering within the line or guards of a fire and such apparatus, together with all other vehicles contiguous thereto, excepting street cars, shall take and keep the right side of the street, unless the same be obstructed, and all street cars in the vicinity of such apparatus going to a fire shall retard or accelerate their speed as occasion may require, in order to give the apparatus of the fire department the unobstructed use of the street for the time being.
 Sec. 3.—No person or persons shall break through or attempt to break through such blockade or run over any line of hose at a fire.
 Sec. 4.—All steam engines and other movable apparatus of the fire department shall have the paramount right of way through all streets and thoroughfares of the city of Astoria when going to a fire and such apparatus, together with all other vehicles contiguous thereto, excepting street cars, shall take and keep the right side of the street, unless the same be obstructed, and all street cars in the vicinity of such apparatus going to a fire shall retard or accelerate their speed as occasion may require, in order to give the apparatus of the fire department the unobstructed use of the street for the time being.
 Sec. 5.—No person or persons having the control of any vehicle shall willfully or carelessly permit the same to obstruct the progress of the apparatus of the fire department while going to a fire.
 Sec. 6.—Any person who shall violate any of the foregoing provisions of this ordinance shall be deemed guilty of a misdemeanor, and on conviction thereof before the police judge be fined not less than five dollars nor more than one hundred dollars or by imprisonment in the city jail not more than 20 days, or by both, as the police judge may determine.
 Sec. 7.—The Chief Engineer of the fire department, assistant engineers, clerk of the department, and Chief of Police and police officers and fire police, are directed to see that the provisions of this ordinance are enforced, and make complaint in the police court for the violation of the provisions thereof.
