THE DELINQUENT CITY TAX.

You Make Hits Pay His Tax and Then I'll Pay Mine."

By reference to the advertising column There is a good deal of kicking about of the Daily Oregonian it will be seen the matter of the city tax this year. That that a meeting of the stockholders and it is high is an evident fact. A good directors of the Oregon and California many refuse to pay it. The tax became railroad has been called to be held at the delinquent over a month ago and the asoffice in Portland on December 22, to take great man. essment roll was placed in the hands of the necessary steps to "water" the stock the chief of police for collection. What they mean is that they don't want egislature. This new movement is well understood niways be collected. Those that refer to the neglect or refusal of others to pay

to be but the ratification of a bargain made sometime ago. And it is intended to put the California monopoly into the entire possession and control. for all pur-poses of the East and West side valley represent a feeling that has excellent reasons for its existence. It is a notorious fact that there are property owner coads; and the road completed through to a connection with the California road. The preferred stock is to be increased from twelve million dollars to fifteen taxes-somehow. Some of them have injudiciously bragged of it and the nillions, and the common stock from seven million to ten million dollars, making an increase of six million dollars. knowledge of it doesn't set well on the minds of people who have to scratch to the tax rankes it all the harder on thos

took is fictitious and fraudulent. When Villard reorganized the company three years ago, he and his friends went into the money markets of Europe and bought up the old Holladay bonds on the road for about fifteen cents on the dollar, the whole road costing them in this way about one million five hundred thousand dollars. Then these operators added up the principal and interest on the bonds which had cost them only this last named sum in cash, and found that it amounted to twelve million dollars, and for this they issued to themselves preferred stock who do pay. The expense is all the same and the fewer there are to divide the bill among, the more each one has Then again comes the matter of the lovy. A good many people think that a twolve mill levy is too much. They se that times are doll; they feel that they

to twelve million dollars, and for this they issued to themselves preferred stock at par to the amount of twelve millions. And for the old Holladay stock for which neither Ben Holladay or anybody else ever paid a single penny, these operators issued to themselves additional stock, and called it "common" stock, to the amount of seven million dollars. And now to all this fraudulent stock, for it is fraudulent as far as the unblic is conraised the salaries of several city officer-and they want to know what for. Still further comes the matter of the assessment roll. It is a plain fact that the city assessment roll for '81, is full of errors; that it has been a bother to every fraudulent as far as the public is con-cerned, these gentlemen propose to add six million dollars more in paper certifi-cates, and then turn the whole batch over to the California monopolists, to be used in grinding the life blood out of the one connected with it and even now at this late day it isn't in the shape that it

THE ASPORTAN has no feeling in com mon with those who are forever poking and prying around to see if they can't people of Oregon. Somebody may say, "but where did the money come from that built the road?" money come from that built the road? That was raised on bonds issued on a mortgage on the road, and is an addi-tional lien besides the stock above, on which interest must be paid to the bond holders. The bonds amount to about twenty thousand dollars a mile, or six millions more on top of the stock claim

The iniquity of this whole business consists in this. The government of the United States grants these corporations iands to build the road. The state of

Oregon grants them the right to go through everybody's private lands, the right to perpetuate existence, the right to take tolls, and other valuable franchises. Then these corporations ungratefully and months the reserved and above the

Then these corporations ungratefully and unjustly turn around and abuse their rights and powers, issue all this stock costing them next to nothing, and then establish such rates of freight and fare as will pay them interest on all this pile of stocks and bonds in addition to ex-pense, high salaries to officers, lawyers and money to corrupt elections. This is a burming shame, a tyrannical abuse of a burning shame, a tyrannical abuse of power and privilege, and an outrage upon the people of Oregon which should not be any longer borne with. Just think of it. On eastern roads a bushel of wheat is hauled from Chicago to New York-twette hundred milesdents of this city calling themselves citi-
