The A-to-in and Coast Transportation company will have business meeting at eleven o'clock this morning.

"The Golden Future" is the delightful name of a new publication in newspaper form soon to be issued in Portland.

During the last four months 2,731 immigrants arrived in Oregon overland, and at the same time by steamer.

Robert Searcy, a seaman on the Chesapeake, now in port, was lost from the yard arm of that vessel while rounding Cape Horn.

Lyle's masterpiece was "The Lady of Lyons" it will be presented with rare fidelity at Occidental hall to-night.

Thos. Ward, a runner for Clapham Stubb's "Mariners' Home," was fined \$40 and costs in Portland last Wednesday for "putting a head" on John Mahoney the night before.

The Olympic school of the gymnasium rooms last evening was thoroughly enjoyed by those present. Some of the best young men of the city belong to the club and their gatherings are always popular.

Last season a large proportion of the grain cargoes were in the form of flour, and it is expected that this season will be no exception.

It is said that the natives on the Congo river in Africa are forming a council similar to that of the United States.

Miss Moore is a pleasing speaker and adds additional charms to her discourse by her admirable elocution.

The Zenia cleared for Monterey with \$24,000, lumber worth \$2100, the Cornuvia for Queenstown with \$4,511, bus, went worth \$3,160, the Pea Stuart for Hull with \$2,120, wheat worth \$2,971, and the Cochran for Queenstown with \$1,917 bus went worth \$3,000, yesterday.

Lingishe and his company deserved a better audience than turned out to hear to-night "The Terrible Telegram" last night. He kept those that were there in a roar from first to last.

The Standard gives a long list of candidates for the U. S. senatorship at the coming session of the legislature. Among others the Standard mentions H. W. Scott of the Oregonian. That gentleman would make a mistake to accept were he elected, which is not likely. He has vastly more power where he is.

THE NEWEST MOVE ON THE BOARD.

A Probability That the Street Which the Builders Rejected May Become the Corner Stone of the Edifice.

Mr. C. Leinenweber returned home last evening from a five week's sojourn in the east, principally New York City and Washington. About the first thing a prominent Astorian does is to look around to see what is being done regarding railroad connection with Astoria.

Without entering into detail it may be said in substance that Henry Villard's connection with the railroad system of the northwest has taken a new direction; he occupies a new position and a different one to that which he has heretofore occupied, and it is within the limits of probability that another year will see the railroad built.

FROM FOREST GROVE TO ASTORIA. It will be remembered that Mr. Villard is still the president of the Oregon Central railroad. He is now engaged in a scheme that if carried out will place the Central Pacific Railroad Company in direct opposition to the O. R. & N. Co., and the Northern Pacific Railroad Co.

On the 22nd of this month the stockholders of the Oregon and California railroad company will have a special meeting at Forest Grove. The purpose of the meeting is to discuss the proposed extension of the road to the Columbia river. Should this be done, the road would cost \$3,000,000 to build.

ALLEGED FRAUD. Among the aftermath of Wednesday's election was the issuance from Justice Goodell's office yesterday afternoon of warrants charging sundry parties with voting illegally in the Second ward the day before.

It is thought not improbable that other suits may be made of parties who are considered to have voted illegally on the other side. One thing stands plainly out: that neither side can afford to have the taint of fraud upon their contest, and if a legal investigation it shall appear that there has been any illegal voting due for Gratke or for Welch, prompt punishment should be meted out to the criminals.

Good Health and Long Life. The two do not always go together, but they ought to, for it is a sad sight to see an old gentleman or an aged lady dragging out a painful existence of disease, debility, and misery.

Oh! Say You should see those splendid piano covers at Adler's. Do not fail to examine them.

Do You Think that "Jeff" of The Chop House Gives you a meal for nothing, and a glass of something to drink? "No-much" but he gives a better meal and a glass of that same something in town for 25 cents.

Christmas is Coming And you will remember your friends. Remember too that at Carl Adler's Crystal Palace is the finest assortment of gift goods in the city.

Fresh Eastern and Saltwater Bay Oysters. Constantly on hand, cooked to any style at Frank Fabre's.

THE ASTORIA STREET RAILWAY.

Shall the City Build and Operate It?

The present condition of the Astoria Street Railway Company, financially and otherwise, suggests the propriety of an inquiry into its affairs. A short time ago a party from San Francisco, in temporary government employ, got a franchise from the city for himself and associates to build and operate a street railway on certain streets in this city.

What the Astorian suggests is that the enterprise be not allowed to languish. The scheme of a street railway in Astoria is a good one; it is in the direct line of progress; it will add to our wealth as a community; and, under proper management, can be made a paying institution.

Under the circumstances the Astorian would be glad to see the road pushed to completion under its present ownership. But franchises are valuable; they are worth just as much to the city that grants them as to the party that receives them.

APPLICABLE AS WELL TO ASTORIA AS TO SEATTLE.

"An eastern man" writes "an open letter to the mayor and city fathers" of Seattle which is check full of sense.

"The site of this city is peculiar to itself, and to my mind, although had formed it to order, she could not well have improved upon it. But the mind that lays out a town should attend itself to the topography of the ground, so that, when the streets may be laid out with the regularity of a chess-board, the streets and avenues were a matter of mathematical calculation; a city on a hundred hills, like this, should not be subjected to any such cat-and-dog plan whatever."

There is no city in the United States in which a street railway can be built so cheaply as in this city. There is no city in the United States in which a street railway would pay as high a percentage of profit on the amount invested as in Astoria.

There is no city in the United States in which a street railway would pay as high a percentage of profit on the amount invested as in Astoria. The city is long and narrow; an enormous amount of business is transacted between here and upper town.
