### The Daily Astorian.

ASTORIA, OREGON: JANUARY 4 1885

THERE are in the whole country 4,008,807 farms, the value of which is \$10,197,096,776.

PRESIDENT-RUGOT Cleveland denies that he ever was president of a free trade club as charged by Hurd, of Ohio

NORTH CAROLINA is one of the original thirteen states, yet the largest city within its borders has only 29,000 population.

The Oreginian is of the opinion that any member of the state legislature may be a candidate for the United State scunte.

It is said that the county of Me-Intoch. Dakota, that was entirely government hard until ninety days ago does not yet contain men enough to till the usual offices, but they have elected themselves as far as they will

One good authority says that the net result of agriculture in the United Kingdom of Great Britain and Ireland for the period from 1873 to the beginning of 1881 was a shrinkage of the aggregate capital of the farmers of the British Isles amounting to \$867,060,000.

A PROTESTENT Washington official says that when in New York a few days ago he learned that five physicians had been called in consultation to examine the state of General Grant's health, and arrived at the conclusion that the general was completely broken down, physically and required absolute rest.

Congressman Gronor's views are telegraphed. The legislature meets to-morrow week, and on the 19th procoeds to elect a United States senator. Mr. George is a clever politician. but the people of western Oregon, at least of Classop county, would prefer to see their representatives at Salem vote for some one besides Mr. George to represent them for six years in the apper house.

Tun debt statement shows an increase of the public debt during December of SGH,584; decrease since June 30, 1881, 831,501,864; eash in the treasury, \$132,276,176; gold certificates, \$119,631,150; silver certificates, \$138,168,291; certificates of deposit, \$21,920,000; refunding certificates, \$290,000; legal tenders, \$31,108,106; fractional currency, \$6,971,343; available cash, \$110,811,929,

Much excitement and surprise has been created in London by the sudden appearance of Gladstone. He hastily called a cabinet which met yesterday. The opinion is that he has received important news of Franco-German designs upon Egypt which require promptest attention. Another rumor is that Germany proposes to follow up her recent acquisitions of islands in the south Pacific, by annexing the Touga islands and the Samoan or Navigators islands. Still another ramer, which, however, finds little credence, is to the effect that England has agreed to the an nexation of the New Hebrides islands by France, on condition that the latter power shall help England out of the Egyptian muddle. The state ment is that French troops are to be sent into lower Egypt so that the Eu- RUBBERS. glish garrisons may be sent up the Nile if necessary, and that France is to share the barden of interest on the Egyptian debt.
