FORFEITED AT LAST.

a conference report on the Oregon Central bill; agreed to. The house recedes from its disagreement to all the senate now than it did in 1865; more clerks case diments. The Oregon Central land forfeiture bill, the schate amendments to which were concurred in by the house towhich were concurred in by the house to-day, is the first forfeiture bill that has passed both houses of the present con-gress. It is substantially the same as the bill originally prepared by the Astoria chamber of commerce, with the addition of the amendment offered in the house by George, for the purpose of protecting settlers. It forfeits all uncarned lands between Forest Grove and Astoria. between Forest Grove and Astoria.

THE above tells the whole story, The Astoria land grant is forfeited, and the effort that THE ASTORIAN made results as stated above. No newspaper ever started in on a fight against greater odds; seldom has a newspaper won a victory more com-

We have received a good deal of adverse criticism at home and abroad in most lines of business statements about this Astoria land grant business. which we have not stopped to answer nor do we now propose to argue. On taking charge of this paper in October, 1881, we took this stand: That the road should be built or the grant forfeited. We would have preferred to see the road built, and in common with other citizens of Astoria did all that could be done to secure the building of the road. The company said: "We won't build the forfeited; now what are you going to do about it?"

to be the law of the land. And so ends that chapter.

THE TRANSCONTINENTAL ASSO-CLATION.

THE Transcontinental association finished its business at San Francisco last Thursday, C. W. Smith, the newly elected commissioner, had not accepted the position up to the honr of adjournment. The agreement had not been signed by any of the companies, and it requires unanimous agreement to make it valid. It is said that one road at least will refuse to sign unless certain conces sions are granted. This is the Northern Pacific. The other lines in the pool will without question sign the agreement, but the Northern Pacific is the stumbling block. It is stated that the pools are to pay the Northern Pacific a bonus of 8 per cent on all California business, to keep the northern lines out of San Francisco. This 8 per cent has to be divided with the wrecked iron the Oregon Short Line, which has an eastern outlet, via the Union Pacific and Oregon Railway and Navigation Co.'s lines, which also has a San Francisco connection by its line of steamships running between San The Northern Pacific in conjune tion with the Navigation Company in turn pays the Southern Pacific a bonus of 8 per cent. on Port land business, in order to keep the Southern Pacific out of Portland, which is accessible to them by the Navigation Company's steamers They claim in this direction that the Southern Pacific should rebate a part of the bonus, as without the Navigation Company's steamers they would have no Portland connection This proposition Southern Pacific men have so far resisted and under this state of affairs, as detailed, the Price, - - Ten Cents. Northern Pacific men will not sign the agreement. What percentage of the 8 per cent they pay to the Southera Pacific they want rebated is not known, but it is thought to be in the neighborhood of about one third.

AT a secret session of the woman's suffrage association in Washington on the 22nd, the chairman of the committee on plans of work, made a report, which was adopted, recommending that the women- of the several states labor with their legislatures for the passage of suffrage laws, or without Skates, 25 cents. and mark every member antagonizing measures in favor of women, in order to oppose them. Work before congress for the passage of the 16th amendment is to be continued. Women in the several states are also requested to oppose re-election of senators and representatives voting against woman suffrage. The vice presidents of the association were requested to obtain, if possible, passage of resolutions by their respective state legislatures, recommending to congress the adoption of a 16th amendment.

Advices from Melbourne state that the commander of the Australian This Machine is Nearly New and is Sold for squadron has hoisted the British flag over a number of islands lying off the eastern point of New Guinea.

EXPENSES OF BUSINESS,

A well informed merchant of Boston recently said to a representative of the Boston Herald that he had SATURDAY JANUARY 24, 1885 been looking back over his accounts and was surprised to find that since the close of the war there had been a steady increase in the ordinary ex-Wassirsorox, Jan. 22,-Cobb presented pense of carrying on business. Mere were needed, and, on the whole, each of these received higher pay. Assistance was required in the receiving and delivering departments to an extent and of a character that would not have been dreamed of two decades ago. Then there were a variety of incidental expenses that now entered into the compilation. There were telephone charges, printing, the expense of solicitors, the whole making up au amount sufficiently large to eat up all that would have been considered fair profits a quarter of a century ago. It is probable that experience in different trades varies, and yet we fancy that

Texas was received into the Union by joint resolution of the United road; we defy you to get the grant States congress after a treaty for the purpose had been rejected by the senate, and under the act it was stipulat-Upon that THE ASTORIAN started ed that Texas should keep her own in to get the grant forfeited, and the lands and pay her own debts. Under grant is forfeited, and the bill now the compromise of 1850 Texas was only awaits the president's signature paid \$5,000,000 for the cession of her claims to the territory of New Mexico.

somewhat similar to the above might be made. The tendency, all the time

going on, to lessen the hours of ser-

vice, both in offices and workshops,

would of itself make the cost of bus-

iness proportionately higher. The

cheapening process, if there is one,

would seem to be in enlarging the

amount of business which each con-
