Skillful operators always in attendance, and the most minute attention paid to pictures of children. Don't forget the location, N. W. corner First and Morrison streets, up stairs. No trouble to show specimens to visitors. Street railroads pass the door every ten minutes, and this is the nearest gallery to the five principal hotels.

is only a part of beauty; but it is a part. Every lady may have it; at least, what looks like it. Magnolia Balm both freshens and beautifies.

Did you Suppose
Mustang Liniment only good for horses? It is for inflammation of all flesh.

HOSTETTER'S
CELEBRATED
STOMACH
BITTERS
The Fittest Subjects
For fever and ague, and remittents, are the debilitated, bilious and nervous. To such persons, Hostetter's Stomach Bitters affords adequate protection by increasing vital stamina and the resistant power of the constitution, and by checking irregularities of the liver, stomach and bowels. Moreover, it eradicates malarial complaints of an obstinate type, and stands alone unequalled among our national remedies.
For sale by all Druggists and Dealers generally.

WASHINGTON, March 16.—It is regarded as certain that ex-congressman Sparks, of Illinois, is to be made commissioner of the land office. He was closeted for an hour yesterday with Secretary Lamar, and in company with the secretary looked into several of the offices, and was introduced to various officials. Ex-senator Slater of Oregon, is still a candidate, and his friends claim that the chances lie between him and Sparks. There is excellent authority for believing that Sparks will be nominated this week. Lamar is at work with his private secretary trying to open two bushels of letters that have accumulated since yesterday morning, the press of business having been so great that he could not attend to them. Assistant Secretary Joslyn is still in office. Mr. Clark, the new assistant secretary, is sick abed with chills and fever at Mr. Lamar's residence.

LONDON, March 16.—The Chinese embassy deny that the French have occupied the heights of Kelung, as claimed in Paris. Members of the embassy say the French, after fighting several days, and losing 500 men, succeeded in occupying two positions commanding the road across the island between Kelung and Tamsui, but the Chinese still hold all other forts. In securing these two positions the French made their first and only successful advance since landing at Kelung in September.

NEW YORK, March 16.—Statistics of immigration at Castle Garden show a falling off of more than 35 per cent. from January 1st, compared with the same period last year. The decline is especially marked in German immigration. The steamship *Servia* brought here Wednesday 264. One year ago at the same date, she brought 4916. There is a slight increase in English immigration. Immigration is lighter now than it has been before at the same date since Castle Garden was used as a landing depot.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites.
In Incipient Consumption—seems to possess remedial powers of great efficacy. It heals the irritation of the throat and lungs. Makes pure blood and builds up and fortifies the system against further inroads by disease.

BERLIN, March 16.—As soon as Bismarck is satisfied that a Pacific settlement of the difficulty between Russia and England is assured, he will follow the advice of his physician and take a trip to Italy.

No depressing effects from Red Star Cough Cure; no nausea; no reaction; no constipation.

ZEBEHR PASHA A TRAITOR.
ALEXANDRIA, March 16.—Zebehr Pasha has been arrested, and his house searched. Documents were found proving his complicity with El Mahdi. He was sent aboard a British vessel. Zebehr Pasha is the person whom General Gordon asked to be made governor of Khartoum. Zebehr Pasha will be kept on the island of Cyprus. Zebehr has been under surveillance, which practically made him a prisoner, for the past two years. His wealth, mainly acquired in the slave trade, was confiscated, and he was allowed a monthly stipend on condition that he should not leave Alexandria without the consent of the khedive. General Gordon pleaded that Zebehr should be restored to power in the Sudan, and said the ex-king was the only man who had enough nerve and prestige to keep the Arabs in subjection. General Gordon had encountered Zebehr during former service in Egypt, and hated one of Zebehr's sons who was left as hostage, and whose life had been forfeited by an act of treachery on Zebehr's part. When Gordon was sent to Khartoum last year both he and Zebehr Pasha seemed to have agreed to ignore the past. It was another of Zebehr's sons who escorted General Gordon across the desert to Abu Hamel. Without this escort it is certain General Gordon would never get to Khartoum. It has now been discovered by the British government that Zebehr has been in continual correspondence with El Mahdi, both before and since the capture of Khartoum, and the killing of General Gordon. Several other persons are about to be arrested, including some prominent notables.

War Preparations.
The terms of the agreement with Russia is denounced by the conservatives, and the liberal press admits that the arrangement is a virtual surrender to Russia of the frontier demanded. Preparations for war, however, continue on the most extensive scale. An enormous transport fleet is collecting in the Thames at Portsmouth and Plymouth. The size of the fleet far exceeds any possible needs of the Sudan campaign. The Woolwich arsenal workshops have been hurriedly enlarged by the erection of temporary structures, and workmen at the arsenal have been placed on double time. On recommendation of the viceroy of India, large grants have been accorded from the Indian treasury to Abdurrahman, ameer of Afghanistan, for the purpose of the complete repair of forts in his territory, and particularly those at Herat. The works of repair will be done under supervision of English engineers, and additional guns needed by the fortifications of Afghanistan are to be supplied from Woolwich.

THE NAVAL APPROPRIATION.
In the enrollment of the naval appropriation bill, the section providing for the abolition advisory board, at the discretion of the secretary of the navy, was omitted. The clause appropriating \$300,000 for the armament of the new cruisers was also omitted on enrollment, although it was agreed to by both houses of congress. In the sundry civil appropriation bill the appropriation of \$5,500 for telegraph poles and material for the life saving service also dropped out in enrollment.

No woman whose blood enjoys unimpeded circulation from her head to her heels will admit that she cares a hairpin whether she ever gets to vote or not. It is the woman with cold feet who wants to nudge in and crowd poor man to the wall in politics.

Morris Conner of Black River, W. T., has not been seen or heard of since Monday, and fears are entertained that he has been drowned. When last seen he was engaged in working upon a drift near where it empties into the Chehalis. He leaves a wife and two children.

Blue Under the Eyes.
There is no beauty in that leaden hue which appears in a deep streak under the eyes, indicating disordered digestion and dismal debility. Ladies who carry with them this evidence of suffering should at once take Brown's Iron Bitters—the sovereign remedy for feminine weakness and impoverished blood. Mr. J. N. Bradford, of Huntsville, Texas, says, "My wife was in delicate health and greatly debilitated. Brown's Iron Bitters relieved her."

The Tacoma mill has contracted for three million feet of logs at \$5.75 and \$6.

How He Got a Position.
"I applied for a position in a banking house in Wall street six months ago, and although I proved my competency, they would not take me. I had been down on my luck and looked old and shabby. An idea struck me I got up a new growth of hair with Parker's Hair Balsam, raised a decent suit of clothes, applied again, and they took me in a minute." So writes a clerk with \$2,000 salary. The moral is plain. Parker's Hair Balsam gives a person a new face.

RHODE ISLAND'S TWO CAPITALS.
Yesterday we received a very pleasant call from a little miss, a scholar of school No. 3, carrying a note from Miss Manstrong, teacher. She was likewise the bearer of a huge letter, on which was the coat-of-arms of the state of Rhode Island, directed to "Miss Lola M. Tator, Hudson, N. Y." A few days since, Lola's teacher wrote on the blackboard for her scholars the question: "Why has Rhode Island two capitals?" leaving the class to find out. Lola, without consulting her teacher or schoolmates, wrote to the governor of Rhode Island, and received in answer the following letter:
State of Rhode Island, Executive Chamber, Providence, February 5, 1885.—MISS LOLA M. TATOR, HUDSON, N. Y.: I have received your letter asking me why Rhode Island has two capitals. If I can be of any assistance to you in your lessons I will gladly write you the reason. In the very early history of this state there were two states or colonies comprising what is now Rhode Island. The island of Rhode Island was one and the other was Providence plantation. After a while both were united into one colony under the name of Rhode Island and Providence plantations, and that is still the full proper name of the state, though it is commonly, for convenience, called Rhode Island. In the colonial times, and also down to within a comparatively few years, the state legislature used to meet at several towns in the state—Providence, Newport, Bristol, Kingston and East Greenwich—probably because the people of the various sections thought the legislature ought to favor them as much as Providence and Newport. But for the past thirty years the legislature has met only at Newport and Providence, thus perpetuating the remembrance of the time when they were two governments. The legislative meets at Newport the last Tuesday in May, and remains there generally only a few days. Then it adjourns to meet in Providence in January, where nearly all the business of the state is transacted. If I have not written so you can understand the reason, let me know and I will write you again.
Very truly yours,
AUGUSTUS O. BROWN,
Hudson, (N. Y.) Register.

A construction train on the Oregon Pacific railroad left Corvallis a few days ago and reached Yaquina bay in a little more than five hours. Considering stoppages made on the trip, waiting for the completion of repairs on a bridge, the actual time of travel was less than four hours, a distance of seventy-two miles, which is fair time over a new road in this country. The road is not yet in condition for regular trains or for the heavy engines, as in places it has not been ballasted. The work, however, will be prosecuted with vigor until the entire road is in first-class condition. The company state that they intend to put regular trains on next week.
