Cak Grove was an untrained horse, and
went to Australia before having but little
doportunity of establishing a record. His
dam is a full sister to Venture, who has a
record of 2:7%. Arthurton, although never prepared for racing, has shown a mile in

The desk was made by Mr. C. Constantine of this city and certainly reflects great credit on the skill, taste and workmanship of the manufacturer. The desk is about fifty-two inches high by two feet in width and is made out of various woods such as oak, ash, butternut, walnut and white holly; they were first sawed out in pieces and so cut in beautiful designs as to resemble fine bracket work. The top or cover of the cesk is iniald with cardinal and blue relvet. At the back on either side of a square recess are two handsomely carved apartments with folding doors. In the desk part are a number of pigeon holes for papers, euvelopes, etc., this is surmounted with beautiful bracket work, and on the top of each side is a white door, handsomely carved; underneath is a semi-circle, also carved in rich designs, iniald with gilt work. The sides are iniald with crimson velvet, the bracket work being laid over it in different kinds of rich woods, the whole being surmounted with gold mouldings. A brief description of this wonderful invention conveys no idea of its elegance and finish, one must see it to appreciate it. The desk will be raffled off and persons destinated the store any time to show those desirous of needing the desk. The raffle will take place at 3 o clock April 14th, IN THE CIECUIT COURT OF THE STATE of Oregon for the county of Clatsop. Laura Collins, plaintiff. vs, Thomas Col-lins, defendant. A. Van Camp, lately United States consul to the Fiji islands, who is now in San Francisco, pronounces the re-

group. The chiefs own it all. Six Purely Vegetable Compound, that years since King Carkabow, a celebrated cannibal, introduced measles into the Fiji group, from which 50,000 people have since died. There is now a native population of 125,000 and about 2,000 whites. Very little tea or coffee is raised. The only river of any importance is the Reiva, which is navigable for 180 miles. The English and German residents of the islands are continually quarreling about land. Mr. Van Camp has with him some ghastly curiosities in the shape of the bones and skull of a missionary, who, a number of years since, was murdered and eaten by the cannibals.

Purely Vegetable Compound, that acts directly upon the Liver; curing the many diseases incident to that important organ, and preventing the number of the many diseases incident to that important organ, and preventing the number of saloon Supplies.
