Portland Flouring Mill.

The number of families who are using the floor manufactured by the Portland flouring mills is on the increase. The flour is pronounced by those who use it as the best in the market, and as it has justly earned this reputation, it is a mat-ter of pride to the people of Portland that a mill bearing the name of our city is winning golden opinions at home and abroad, for it is a well-known fact that the flour is making rapid headway in the estimation of consumers in Europe. It is one of those bome industries that is entitled to full recognition by our own people. Sibsou, Church & Co. are the general agents, and the flour is for sale by the leading grocers.—Telegram April 11.

Mr. F. Deat— Dran Sir: I have but very little time to write, but as in these exciting times we are very auxions to hear from you, and know of no other way but by writing first to you, I must ranke time. We get but little news by telegraph from St. Louis, but from all other points of the country we are hearing all the time. The times are indeed startling, but now is the time, particularly in the beather slave states, for men to prove their love of country. I know it is hard for southern men to apparently work with the Republican party, but now all nextly distinction should be lost in so way destiny. Some is lost by 'sua-Gauna, April 19, 1861.

time or of their abundant means.

No impartial man can conceal from himself the fact that in all these troubles the southerners have been the aggressors and the administration has stood surely on the defensive—more on the defensive than she would dared to have done be make an effort to charter a steamer and come down 150 strong, with band playing and colors flying;" There will be four companies here from Salem, three from the influence she will have on the other border slave states this is not much to be regretted. Her position, or rather that of eastern Virginia, has been more reprehensible from the beginning than that of South Carolins. She should be made to bear a heavy portion of the burden of the war for her guilt.

In all this I can but see the doom of slavery. The north does not want, nor will it want, to interfere with the institution, but it will refuse for all time to give it protection on essithe south shall return soon to its allegiance. And then, too, this disturbance will give such an impe-tus to the production of its staple, cotton, in other parts of the world that it can never recover the control of the market never recover the control of the market again for that commodity. This will re-duce the value of the negroes so much that they will never be worth fighting for over again. I have just received a letter from Frederick Dent, Jr. He breathes forth the most patriotic sentiments. He is for the old flag as long as there is a union of two states fighting under the barner, and when they dissolve, he will go it alone. This is not so well expressed as he expresses it.
