The raids of cowboys on the trains of the Southern Pacific, some months ago, gave an unenviable notoriety to that road, but it seems that the far west is not the only section subject to outrages of this nature. Recent dispatches contain an account of the boarding of a train on the Louisville, Nashville and Chicago road by masked robbers, who killed the express agent and broke open and robbed his safe of \$400. It would seem that Indiana is sufficiently populous to make enterprises of this kind with head of the land of the l kind extra hazardous, and that lone-some roads like those traversing the almost uninhabited regions between Texas and California would be the only kind offering temptation to thieves, but the latter evidently think

thieves, but the latter evidently think differently.

Riel, the Saskatchewan rebel, is beginning to show the true colors of the mountebank. Unable to control the half-breeds by force of ability and personal example he has brought to his aid religious fanaticism, and is said to be preaching a crusade with a cross in hand. He claims that his mission is similar to El Mahdi's. If he lasts as long as the Soudan prophet he he will do better than the best authorities predict. The credulity of the Canadian half-breeds is not equal thorities predict. The credulity of the Canadian half-breeds is not equal to that of the Soudan Arabs.

There is a sort of pallid, chalky complexion which the novelists call a "washed-out complexion." It is ghastly enough, and no mistake. Washed-out, faded, discolored, or particulored hair is almost as repulsive and melancholy. Parker's Hair Balsam will restore your hair to its original color, whatever it was; brown, auburn or black. Why wear moss on your head, when you may easily have lively, shinning hair.

U.S. ENGINEER OFFICE,

PORTLANDOR, April 27, 1865.
PROPOSALS, TO BE OPENED AT THIS office at 11 A.M. Thursday, May 7th, 1885, are invited for reparing the roads leading from the wharf road to the Center and Left Batteries, Fort Canby, Mouth of the Columbia River. The roads to be repaired aggregate about 2,200 feet in length and are localed as shown in the accompanying drawing being the road from "A" to the "Left Battery" and the road from "B" to "C. "They are at present unpaved and are approximately graded. The road bed is to be about 10 feet wide, with not more than four turnouts. The work to be done is (1) the preparation of the road bed, including placing box culverts where necessary, and thorough ditching, the latter being necessary upon only one side for the greater part of the length of the road; (2) the placing of the broken stone. Stone can be obtained upon the millitary reservation, near the wharf and in other places, or it may be obtained elsewhere by the contractor. The amount available for this work is \$1,700.00 and payment will be made upon the completion and acceptance of the work. The work to be completed on or before the 20th of June 1885. A penalty of \$10 00 per day is to be forfeited to the U.S. Government for each day after that date until the work shall be completed. Bidders should state the amount of work they propose to do upon this length of road for the amount given above, or a smaller one, giving their own specifications in detail. The bid accepted will be the responsible one specifying the best road bed. The U.S. reserves the right, however, to reject any or all bids. Proposals should be enclosed in a sealed envelope endorsed "Prosonals for repairing Roads."
