WALLA WALLA, June 3.—Tramps are getting troublesome and saucy. Three of them were put off a train west of here this morning and one persisting in getting on a third time was shot by a brakeman and dangerously wounded.

SCIENCE VALLEY, Ore., June 3.—Louis Rivers, a respected resident of this section was shot and killed yesterday by horse thieves.

THE GRANGES' PICNIC. JEFFERSON, Ore., June 3.—Oregon Granges are assembling here for a grand picnic at the crossing of the Oregon and California railroads and the Santiam.

CHICAGO, Ills., June 3.—A car load of chad passed through this city this morning to be placed in Oregon waters.

OLYMPIAN'S ACCIDENT. Her Collision With the Ocean Dock at Seattle.

Steamer Olympian this morning at half-past 1 o'clock, as she attempted to land at the city dock, struck the southeast corner of the ocean dock, carrying away the piles supporting the same, and demolishing that corner of the building.

The total damage thereto is estimated at \$3,071. The Olympian herself was badly damaged. There were but few eye witnesses to the accident.

On her return to Tacoma she will be hauled off for repairs. Steamer George E. Starr will take her place meanwhile, and arrive at midnight from Tacoma.

FOREIGN SALMON NOTES. The continuous steady demand for salmon has made very considerable inroads on the stocks, so much so that it is discovered on inquiry that there is very little to be had—certainly none at the ordinary level of prices which have been ruling for some time past.

Salmon practically does not exist to meet the requirements. The forces which have contributed to this result are the rainous prices, the remarkable absence of lobsters, the loss of 50,000 cases by the foundering of the Kerkwood, and the short supply (estimated at 50,000 cases) at the beginning of the season as compared with previous years.

Other reports say the demand is fairly sustained and is much better than could have been anticipated under the present pressure of stock duty-paid goods.

The visible supply of really fine and choice brands is becoming very restricted, while the demand for low-priced goods is likely to bring a great quantity of that class into the market.

At the same time it has become evident that the retail prices of 4 1/2 and 5 1/2 per cent have greatly increased the consumption. A reaction in salmon seems about to take place.

Our sale of Ball's Corsets is unprecedented.—PRAEL BROS.

Don't pay 25 to 50 cents for dinner when you can get a better one at the Telephone for 15 cents from 11 to 2.

Do You Think that "Jeff" of The Chop House Gives you a meal for nothing, and a glass of something to drink? "Not much!" but he gives a better meal and more of it than any place in town for 25 cents. He buys by the wholesale and pays cash.

CHARACTER IN THE BEARD.

"It is not generally known, but it is a fact, that a better idea of character is expressed by the beard of features than by the countenance.

The art of reading character by the beard is taught as a science in Paris under the name of "philography," and I understand a book is shortly to be published in which the principles of this science will be given in detail.
