There will be a special meeting of the chamber of commerce at eight o'clock this evening. Special business. One of Mrs. A. Devlin's nets was picked up off Clatsop beach yesterday, with all sorts of marine animals in it.

Two oil paintings in Griffin & Reed's window from the gifted pencil of Miss Annie Curtis of this city attract considerable attention. Rev. Samuel Wood, formerly pastor of the Congregational church in this city and later of East Portland, has resigned the pastorate at that place.

A man who swallowed cotton and emitted scarlet ribbon attracted a large crowd on the corner of Main and Chenamus streets yesterday evening. It is reported that the chartrougers of the Bonanza now on berth and loading, will lighter wheat to finish cargo in the event of salmon not more freely offering.

The Salem fireman had a big time on their return home. There was a procession; speeches, congratulations, "Honorary exercises at the opera house," etc. They were well worn laurels and should proudly wear them.

Mr. C. W. Leick advertises for bids for the construction of the new church that the vestry of Grace church propose to build on the lot opposite Col. Taylor's. At eleven o'clock they started for Tacoma, where they made a trip to the coal mines and were given a banquet at the Tacoma hotel last night.

Yesterday was a good specimen of "a rainy day." During the tournament it was raining heavily on all sides of us, and in Astoria the weather was perfect; now that the cherries, currants, etc., need a little rain to bring out their ripening juices, it comes in splendid season. More exact data regarding the proposed work at Fort Canby has been received, from which it is learned that the bid of Blanchard & Muecke was \$3.08 per pile. Should any award be made it will be at the office of the war department. The work involves the expenditure of about \$15,000. At present writing it is indefinite as to any contract being let.

A RECORD UNPARALLELED IN THE HISTORY OF THE LIFE INSURANCE OF THE WORLD.

The Mutual Reserve Fund Life Association of New York in 1884 issued upon the lives of citizens of New York (its own state) more insurance by 1,146,465 than issued by five-sixths of all the old line life insurance companies of New York combined, with the expenses of management alone of these companies, although scoring over one million dollars less business, were \$4,077,750, or eighteen times as great as the entire expense of the Mutual Reserve Fund Life Association and more than seven times greater than all its total expenditures including death claims paid.

Total new business in 1884 in New York state of the Mutual Reserve Fund Life Association \$26,185,000 More than 25 per cent of all the new business obtained in New York by this association and its twenty-nine rivals (12 state and 17 foreign companies) was done by this association in spite of all the fair and unfair competition of those powerful competitors. The record of the two previous years was similar, while in 1885 up to date more than \$30,000,000 new business has been obtained. If this association is not in every sense reliable, why is it so well patronized where it is best known?

To the taxpayers of Oregon and Washington territory: pending the change in the internal revenue collectors for that district, which will take place on the 22d instant, any official communication should be addressed to the "Collector of Internal Revenue," omitting individual name, and checks or money orders should be drawn accordingly. An adherence to those instructions will prevent confusion and delay in getting stamps. After said date you will address Hon. John Whiteaker, who becomes collector on that day. All mail matter should be sent to the main office at Portland until further notice, as the branch offices for the sale of stamps have been discontinued. J. C. CARSWRIGHT, Collector.

STEAM-BY! While the steamer Olympia was making a landing at Astoria Thursday morning she ran into the dock at full speed, damaging it to the extent of \$5,000, besides injuring herself about \$4,000 worth. —S. F. Chronicle, 12.

It was at Seattle it happened. Steamers don't run into docks at full speed in Astoria, nor any other point on the Columbia river. In the Portland municipal election last Monday, Jno. The Republicans elected a marshal, assessor, treasurer and two councilmen.

THE O. R. & N. ELECTION.

The annual meeting of the Oregon Railway and Navigation company was held yesterday in the company's headquarters, corner Front and D streets. The session began at 11 a. m. and concluded about half-past 7 in the evening. Towards the middle of the afternoon it looked very much as if a peaceful result could not be reached, and the meeting must adjourn without electing a board of directors. Elijah Smith, president of the company, presided, and there were present the following directors: Wm. Endicott, Jr., and N. P. Hallowell, of Boston; C. H. Lewis, C. A. Dolph, W. S. Ladd, C. H. Prescott, Henry Failing and H. W. Corbett, of this city; also Brayton Ives of New York. Mr. Smith and Mr. Ives were each represented by counsel, Mr. Dolph appearing for the former and Mr. H. Y. Thompson for the latter. All that transpired in the meeting could not be learned, as all the directors were strongly inclined to be reticent; indeed nothing could be learned from the outside until late in the evening, after the meeting had adjourned.

Proxies for more than half the shares represented were in dispute. H. Y. Thompson had secured the proxies for over 105,000 shares from the Farmers' Loan and Trust company, the voting power of which had been originally delegated to Messrs. Morgan, Ives and Endicott. His right to the vote was combated on the ground that the three gentlemen mentioned did not have the legal power to delegate such power to him. Mr. Ives' right to vote 1200 shares held by him was also contested on the ground of informality. On the other hand, objection was made to Mr. Smith voting 15,000 shares held by the Transcontinental company on the same ground. Finally, in order to reach some result an adjournment was made to the following day, the matter of admitting the disputed proxies having been made to serve an injunction on one side or the other to prevent that side from doing something or other, the matter of admitting the disputed proxies was referred to a committee of arbitration which consisted of the six Portland directors. They wrestled with the question about two hours, the four eastern gentlemen meanwhile pacing the halls anxiously. Their decision was that all the disputed proxies should be received. This proved oil on troubled waters and all the waves were soon calmed.

There were represented 235,551 shares. These were cast solidly for the old board of directors which consisted of twelve members only. Mr. Coolidge having resigned some time since. The votes split almost equally on the thirteenth director, James J. Higginson was presented by the Smith party, and Brayton Ives by the anti-Smith. Mr. Higginson received the vote of 117,281 shares, and Mr. Ives 118,164, giving him a majority of 777 shares. The Portland stockholders voted for Mr. Ives. The newly elected board therefore consists of: C. H. Lewis, C. A. Dolph, W. S. Ladd, C. H. Prescott, Henry Failing, H. W. Corbett and Lloyd Brooks, of Portland; William Endicott, Jr., and N. P. Hallowell, of Boston; Charles L. Colby, Milwaukee; John H. Hall, Elijah Smith and Brayton Ives of New York.

So the hatches are buried and everybody is happy. A meeting of the directors will be held to-day and Mr. Smith will no doubt be re-elected. Mr. Ives has a representation in the board, and the Portland directors are relieved at the harmonious result.—Oregonian, 15.

HOT BREAD MADE WHOLESOME.

The Royal Baking Powder possesses a peculiar merit that is not possessed by any other leavening agent. It provides bread, biscuit, cake, muffins, or rolls which may be eaten when hot without inconvenience by persons of the most delicate digestive organs. With most persons it is necessary that bread raised with yeast should lose its freshness or become stale before it can be eaten with safety. The same distressing results follow from eating biscuit, cake, pastry, etc., raised by the cheap, inferior baking powders that contain lime, alum, or other adulterants. The hot roll and muffin, and the delicious hot griddle cakes, raised by Royal Baking Powder, are as wholesome and digestible as warm soup, meat, or any other food.

Another greatly superior quality possessed by the Royal Baking Powder is that by which the preservation of important elements of the flour is effected in raising the bread by the mechanical operation of the gas without fermentation. Yeast, and all baking powders that produce the leavening gas by fermentation, as is well known, destroy a portion of the nutritive elements of the flour, and particularly those which are the most healthful and the greatest aids to a perfect assimilation of the food. The Royal Baking Powder, while perfectly leavening, retains without change or impairment all those elements which were intended by nature, when combined in our bread, to make it literally the "staff of life."

No leavening agent or baking powder, except the Royal Baking Powder possesses these great qualifications.
