J. J. Fagin, aged 67, tired of life in Portland last Tuesday and flung himself in the river.

C. Leinenweber is shipping a fine quality of leather to Helena, Montana, and points farther east. E. C. Crow returned yesterday from Medical Lake where he has been seeking

relief from rheumatism. The Astoria dancing school will have a soirce this evening. Friends of the club are cordially invited.

There will be a school meeting in the school house in District No. One this evening at 7:30. A full attendance of those interested is advisable. J. F. Ferchen and M. D. Kant have bought from M. C. Hutchings, patent rights for the dominion of Canada and British America, in his patent process of

testing sealed cans. The Columbia on her last trip brought to Astoria 2 cs cigars, 3 bxs tobacco, 35 kgs nails, 278 pkgs fruit, 3 cs hams, 80 sks flour, 100 sks bark, 44 bls meal, 58 cs can goods, 306 mats rice, 9 cs coffee, 15 bbls

The new law requiring liquor dealers where liquors are sold by the bottle or measure, to pay a license of \$25 per quarter, will, it is said, be contested by

the druggists of the state who will test the matter in the courts. Work at Ft. Stevens is progessing as work at P. Stevens is progessing as fast as circumstances will permit. File driving is going ahead and the front is away west of high water mark, the breakers foaming end tumbling in upon the foundation of the future jetty.

Next Sunday the Clara Parker will make one of her pleasant excursion trips to Chinook, Hwaco and Ft. Canby. This will give everyone a chance to spend a pleasant day. The steamer will leave Main street wharf at 9 o'clock: fare for

the round trip only one dollar. Clark Loughrey is after the vags this week and is making it lively for that nu-merous fraternity. Two of them went over yesterday morning to Harry Hob-son's house on Young's river to wait till the clouds roll by, but officers Rucker and Carlson were put on their track and brought them in.

No pleasanter excursion can be taken than that afforded by the Gen. Miles. She is a convenient boat, swift and stead fast and has a most obliging set of officers, every attention being paid to pass. The expenses of the year were, for teachers, every attention being paid to pass. The expenses of the year were, for teachers, \$1.612.56; janitor \$117.50; wood, \$60; engers. Fts. Stevens and Camby are well worth visiting and the Miles leaves for those points at eight every morning, making two trips.

Sergeant Brodie as he treads the solitary grass-grown embrasares of the lonely fort at Stevens feels "like one who trends alone some banquet hall deserted, whose lights are fied, whose garlands dead, and all but he departed." The fort shows the signs of time and need repair. The sergeant is the sole remaining representative of the garrison.

Examinations for departmental service will be held at Helena. September 15, Portland, September 15, Seattle, September 22, and at San Francisco, October 1. At the same time examinations will be held for persons wishing to be examined in special subjects. Those who intend applying should at once request official blanks from the civil service commission,

The editor of the Heppner Times and the editor of the Heppner Gazette met on the 4th inst., and the editor of the Gaz-ette knocked the editor of the Times down and smote him full sore. Heppner is a little place of about 500 people and to say that it was a circus for the Hepp nerites would be drawing it mild. The boys say they hadn't so much fun since the last lynching scrape.

The State of California is due from San Francisco this morning; the Columbia leaves out to-day. This brings the three steamers around to the regularly announced sailing dates for the month, viz: every four days, though the steamers are not as given in the published viz: every four days, though the steamers are not as given in the published schedule. The Elder will not go on the Portland-San Francisco route for the present. The State brings 139 passengers and 950 tons of freight. The Oregon leaves San Francisco, Sunday the 19th, and the State will leave Portland, Monday the 20th.

At a late hour last Wednesday night, Fred Holm and his boat paller in boat No. 6, of the Astoria Packing Company were thrown into the water by the upsetting of their boat on Clatsop spit. The boat puller scrambled into the bottom of the boat; Holm instantly disappeared and was seen no more. ### AT THE CAPE.

Target Practice at Ft. Canby - Some Good Beccost Scenery.

The regular target practice of the are unusually good. Lieut. Cotton made while Major Rogers, post commander, rivalry in the regular army in the matter of shooting is at the highest pitch. This is due primarily to the liberal allowance of amunition that has been allowed in recent years, and to the prominence given to the subject by the war department both in careful and frequent orders, and in the adoption of a war shooting manual. Fort Carby now takes the lead in this particular of all posts in the department of the careful and the caref partment of the Columbia, and will soon send three representatives to Vancouver barracks to compete for positions in the department team. There is no doubt that some one, if not all of them will suc-ceed in getting in it. The direct road from Fort Camby to the weather beach is now about finished, both for pedestrians and the lucky ones who own horses and housing. The work

who own horses and buggies. The work has been accomplished by the personal and intermittent exertion of Major Rogers, the post commander, and will not only form a great convenience and pleasure to those who may be temporarily visiting at the Care, but ience and pleasure to those who may be temporarily visiting at the Cape, but changes the entire character of the place for those who live there. To give an idea of the amount of work that has been accomplished, and the density of the underbrash, it may be said that this road although two and a half unles long, has been under way since the 17th of February, and with the work of four men constantly and such volumeera as felt disposed to lend a helping hand. No where can an idea of a primeval forest has been bought by L. D. Brown of Portland and will be brought up this way for repairs.

C. A. May sustained a severe accident last Wednesday evening by slicing off the end of his left thumb while splitting kindling.

There will be a school meeting in the denly come upon the occan with its waters foaming at their base and the bay and magnificent beach prospective to the aight.

## Would Traffic In Woman's Shame,

There was a case before Justice Goodell resterday wherein one Rosine Miller sued one Petina Richard on a writ of replevin to recover some personal property belonging to her. From the testimony it appears that Richard came up here some time ago and sent for the woman; on her ing erect upon two legs and wearing the form and semblance of a man who would try to compel a woman to support him from the proceeds of her shame.
