 THE ASTORIAN guarantees to its advertisers the largest circulation of any newspaper published on the Columbia river.
 This paper is on file at the St. Charles Hotel, Portland, Or.
 Look out for fire!
 J. D. Merriman is in the city on a visit for a few days.
 R. R. Spedden has an office three doors south of The Astorian office.
 The A. B. Field leaves Main street west for Tillamook at eight o'clock this morning.
 The Telephone goes to Portland at two this afternoon, and comes down to-morrow afternoon.
 At 2 o'clock this afternoon will be sold at court house door real estate belonging to estate of Margaret Miller, deceased.
 The Tillamook Packing Company will shortly begin operations. John Fox will go down to Hobsenville in a few days.
 At 10:30 this morning Sheriff Ross will sell to satisfy execution, at the slip foot of Cass street, a fishing boat with furniture and tackle.
 E. C. Holden will sell some bamboo easy chairs, 350 Big Bird chairs, and several household furniture at eleven o'clock this morning.
 The Finnish-Lutheran congregation fair at Liberty Hall next Wednesday afternoon will be opened by Gustaf Wilson, Swedish consul for Oregon.
 The *Tina O'Shelter*, lumber laden, went to sea yesterday. The *Joia* also crossed. She had 500 tons wheat, and 50 M feet lumber on her deck.
 Few fishermen made anything on the river this season. There's a little money in it for a certain number, but like other pursuits the thing is overdone.
 The steamer *Tolosa* has been put upon the ways in Portland, and is to be remodelled and thoroughly renovated. She will be out in two and fifteen feet added to her length.
 S. L. Lovell, of Westport, reports that the Oregon City land office is crowded with people taking up land in the forested tract area in Columbia and Clatsop counties.
 Lutheran divine service, conducted by Rev. H. Engh in the Norwegian-Danish language, will be held in the Swedish church, upper Astoria, to-morrow at 10:30 A. M. and 7:30 P. M.
 The era of low prices has reached Portland. The papers report chickens selling at from \$2 to \$1 a dozen, and cordwood piled near the river in the timber, ninety-five cents a cord.
 At the auction sale at Adler's store this evening there will be offered complete sets of Dickens' works and other celebrated authors. Also a choice variety of other valuable goods, and gold and silver watches.
 J. C. Ross desires to say that he is not guilty as charged with having been elected "fourth duty sergeant" of the new militia company. It seems he is not good looking enough. John Fox, the gentleman elected to that responsible position.
 The Parker House on Lake Union, near Seattle, caught fire at 12:30 o'clock Thursday morning and burned to the ground. The Western mill, adjoining the hotel, was in flames several times, but was saved. The hotel is a total loss. Damage, \$5,000; no insurance.
 To-morrow the *Gen. Miles* will go on a delightful excursion to Tillamook Rock, via Ilwaco, leaving Gray's dock at 6 A. M., returning via Ilwaco and due here at 6 P. M. The *Gen. Canby* will go on the regular Fort Stevens, Fort Canby and Ilwaco excursion at nine o'clock, returning at 6.
 The *Queen of the Pacific* ran aground on Point Hudson, at the north end of Fort Townsend, at 3:30 Thursday morning, in a dense fog. After lighting a part of her cargo she was gotten off, apparently without injury, at 6 P. M., with the assistance of the tug *Tiger*.
 Milton Parrish, for four years inspector in connection with the custom house at this place, is expected to-day by Thea Dealey. Mr. Parrish has, during his incumbency of office, repeatedly made use of his debtor by his readiness to aid in the acquisition of useful knowledge, and has our sincere thanks for prompt and accurate information.
 Mrs. O. Forth, proprietor of the Hamburg house, was unfortunate last Thursday night, a thief stealing \$735 in coin and some jewelry from her bedroom. Nothing was said about it in yesterday's ASTORIAN as it was thought "a still hunt" might give a clue to who the thief was. So far no one has been arrested, and Mrs. Forth seems to be out just the amount stolen.

THE SALMON PACK.
 Some Figures in Relation Thereto—A Pack of Nearly Half a Million Cases—Half the Pack Ahead and En Route.
 Salmon fishing on the Columbia river for '85 closed last night, and in a few days the packing of fish will have ceased. The prophecy of a short pack which is always made is this year partially fulfilled. The ten days strike in the early season and the cessation of the run during the last week made it impossible to get the total up to former figures even were such a course desirable.
 There are probably three men on the Columbia river this morning that know what the pack is; there is certainly no more. Fairly informed men who have kept the run of things during the season say that it will be about 500,000 cases. It will probably, not exceed that amount. Without any claim to absolute accuracy THE ASTORIAN in the belief that its figures are very near the exact facts, presents the following as its estimate of THE PACK OF '85.

TOLD BY THE TELEGRAPH.
 China will declare war if Franco invades Korea.
 Two powder magazines at Nevada, Cal., blew up last Thursday, smashing things generally.
 Mand S. trotted a mile on the Glenville track, near Cleveland, Ohio, on the 30th ult., in 2:08 1/4—best time on record.
 A monument to Rebecca Nurse, who was hanged for witchcraft July 19, 1692, was dedicated at her old home in Danvers on Thursday.
 The London Telegraph has a sensational dispatch from St. Petersburg, saying war between England and Russia is certain directly after the election in England.
 Great excitement prevails over the Colville mines. A new strike has been made in the Old Dominion mine. They feel from the central shaft. The ledge is eight feet thick, and assays \$500 to \$900 a ton. On August 10 forty tons will be shipped to Omaha.
 Sixty criminals sentenced to exile in Siberia, while en route last Wednesday, were shot and killed by their guards, and although unarmed, began a desperate fight for liberty. The battle lasted a long time, and the soldiers were absolutely unable to conquer their maniacal assailants. Twenty of them were shot dead, but the other forty, thirty succeeded in making good their escape.
 The president having been requested by Mrs. Grant to name the pall bearers for General Grant's funeral, has appointed the following: Wm. T. Sherman, major, Lieut. Gen. Phil. H. Sheridan, Admiral David D. Porter, Vice Admiral Stephen C. Rowan, Gen. Jos. E. Johnston of Virginia, Gen. Simon Buckner of Kentucky, Hamilton Fish of New York, Gen. S. Boutwell of Massachusetts, Geo. W. Childs of Pennsylvania, John A. Logan of Illinois, Geo. Jones of New York, and Oliver Hoyt of New York.

A SENSIBLE SPEECH.
 Senator J. N. Dolph, who returned from Alaska a few days ago, addressed the business men of Portland last Thursday night. In the course of his remarks he said: "Portland and every other portion of the state are naturally dependent upon the Columbia river for their commerce. It is the lifeblood of the state, and the prosperity of Portland by the numerous channels of transportation and trade is diffused to every portion of the state and to every portion of the country. As the country grows and prospers Portland and other commercial centers through the same channels share in the general prosperity. To partitionize, I do not regard the improvement of the lower Columbia as in the interest of Portland alone, nor the construction of the Cascade locks as in the interest of eastern Oregon or Washington alone. Every one of these improvements when completed will prove a lasting benefit not only to the people of the entire state, but to the residents of the entire basin of the Columbia as a citizen of Portland and without reference to my official connection with the state, I hope to see the day when the largest ocean vessels may enter with safety the Columbia river and come to Portland in the breaking cargo, and the Columbia may be navigated a thousand miles from its mouth without interruption."
 "The things in which the general government can constitutionally and properly aid the states are comparatively few. Perhaps the most important of them is the improvement of rivers and harbors. There is a division of sentiment upon the question of the propriety, if not of the power, of congress to make appropriations for the improvement of rivers and harbors on the Pacific coast. It is not probable that any radical improvement in the manner of making appropriations for such work can be hoped for in the near future. When the extent and number of the improvements now being carried on by the government—the improvement of the principal rivers and harbors on the Atlantic and the Gulf, from St. Croix to the Rio Grande, the Mississippi and its tributaries, the chain of great waterways, the improvement of the river and harbors of Oregon and Washington, it will be seen that although the appropriations for the improvement of rivers and harbors in Oregon appear to be small they have really been our proportion of the entire appropriation. The importance of the appropriation made at the first session of the last congress for the improvement of the mouth of the Columbia river, to which your president has referred, is not alone to the people of Oregon, Washington and Idaho, but to the commercial interests of the entire country can not be overestimated. Compared with the magnitude and importance of the work and the appropriations made in other works of like character and magnitude elsewhere, the appropriation made to-day, and its importance is not so much on account of the amount as it is from the fact that it secured the commencement of a great work much needed and long delayed. The present tendency is to construct deep draft vessels. The large steamships recently built for the Atlantic trade draw when loaded, from twenty-six to twenty-eight feet, and are compelled to wait for the tide to cross Sandy Hook and enter New York harbor. By reason of the increase of draft of these vessels a greater depth of water on the bar is needed, and congress, in the last river and harbor appropriation bill, made an appropriation for deepening the channel. The mouth of the Columbia is no doubt entirely capable of improvement so as to admit the safe passage of the largest ships, and a like improvement of the lower Columbia and Willamette rivers is a work of much less magnitude and difficulty. This great work has not been commenced any too soon to relieve our present commerce and enable us to secure our share of the future commerce of the coast."
Military Competition.
 A skirmishing competition and rifle contest will take place at Vancouver barracks August 3rd to 7th, inclusive, under the supervision of Captain F. E. Trotter, of Company E, Fourteenth Infantry. Following is the programme: August 3d, 9 A. M., at 200 and 300 yards, ten shots each; 1 P. M., at 200 and 300 yards, ten shots each; August 4th, 9 A. M., skirmishing; 1 P. M., regimental team match at 200 and 300 yards. August 7th, 9 A. M., regimental team match at 500 and 600 yards; 1 P. M., skirmishing. The twelve competitors making the highest aggregate score in the four days' competition will constitute the department team of twelve, and to the competitor winning the first place on the team will be awarded a suitably inscribed gold medal. To the competitor who is a member of the team or not—who makes the best aggregate score for the two days' skirmishing firing will be awarded a suitably inscribed silver medal.

One of the first labors of Col. Grant after all is over and the family have settled down, will be to begin a biography of his father. Reports of the profits the family expect to derive from the general's book have been exaggerated. Their guaranteed share of sales up to date is \$42,000, and their total receipts from the book will not much exceed \$100,000. Col. Grant is himself left without anything, and it is his intention, so soon as he has completed his father's biography, to endeavor to get into some active line of business.
 The *New York Tribune* of the 30th publishes an interview with Gen. Sherman, in which he says: "The parade will be the grandest military spectacle this city ever saw. Gen. Hancock is magnificently fitted to organize it and is hard at work. He will leave nothing undone. It was a good thing to do to place these things in his hands." Gen. Sherman gave this explanation of why he thought New York had been given the preference over Washington as the place of burial: "The Grant family will continue to reside in New York, and they want the general's tomb to be here. I think that is the feeling of the family, and when the country comes to know of it, the selection will be honored as reasonable."
COUNTY SCHOOL APPOINTMENT.
 The school population of this county by the last census is 1702. The total amount of the state fund just apportioned among the several districts is \$1,276.50. The apportionment gave 75 cents to each child, thus giving to the districts the following amounts:

Importing Chinamen.
 A Chinaman was seen at De Lin's place of business on Second street, one day this week, who positively informed a gentleman that he had been brought over from Victoria for \$40. Such things have long been suspected, but, so far, few of the offenders have been caught. A gentleman from Astoria informed a Standard reporter that he knew of 18 fishing boats having left the Columbia river for Victoria to go into the business of smuggling Chinamen across to the mainland, their owners having found the business more profitable than fishing. Of course his evidence was not positive, but that was his understanding of the destination of the boats. The number of Chinese here, which does not appear to diminish but rather increase, warrants the belief that the smuggling trade is carried along without hindrance, especially since the revenue officers of Puget sound have been left without means to capture the smugglers.—Standard, 30.
