A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times: "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure many diseases for which a reliable physician would prescribe it. The physician recognizes iron as the best restorative agent known to the profession, and inquiry of any leading chemist will substantiate the assertion that there are no other preparations of iron that give so much relief as this. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact that prior to the discovery of BROWN'S IRON BITTERS no perfect restorative of iron combination had ever been found.

BROWN'S IRON BITTERS does not irritate the stomach, or produce constipation—all other iron medicines do. **BROWN'S IRON BITTERS** cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia. For all these ailments iron is prescribed daily by the most eminent physicians.

BROWN'S IRON BITTERS not only cures the ailments mentioned above, but it also acts as a tonic. When taken by the first symptoms of weakness, the digestion improves, the appetite increases, the system is invigorated, the blood is purified, the complexion improves, the skin clears up, healthy color comes to the cheeks, nervousness disappears, functional derangements become regular, and if a retarding fever, abundant perspiration is induced, the disease is cured. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. Physicians and Druggists recommend it.

The Genuine has Trade Mark and crossed red lines on wrapper. TAKE NO OTHER.

A CURIOUS CALCULATION.

The End of the World Fixed at 1899.

The following singular and very curious calculation, by which the approaching end of the world is determined, has never before been made known to the public, writes a Waterloo, Kan., correspondent of the Louisville Courier-Journal, and may be of very great interest to those who have been studying the prophecies, or watching the progress of human events. Believe the results or not, as we may, nevertheless here are the figures, which any reader can verify for himself. If these results are here correctly foretold, then the startling fact stands in the face that the world is within fifteen years of its close. In the fall of 1899 the final winding up takes place. Here are the calculations. Let the reader carefully examine them:

To begin, there are several important prophetic periods made known in the scriptures, and various dates, as well as significant numbers, such as the great period of 2,300 years mentioned by Daniel, the period of 1,200 years and the period of 1,335 years. Besides these there are in the book of Revelation other periods and significant numbers such as the 1,260 years, the period of the woman's sojourn in the wilderness, 1,000 years, and 666 the number of the beast. Enoch's age (365 years), who prophesied of the second advent among the ante-diluvian sinners, is also beyond all question a symbolic number.

Perhaps, like the 365 days which complete one revolution of the earth around the sun, making one year, so his 365 years may be symbolic of the great prophetic periods known as "days," one grand revolution of which is to complete one of time's great years and finish earth's career. "Seven" is also one of the significant numbers of scripture, and a "week of sevens" or 7 times 7, still more so. The student of Scripture will readily recall frequent instances of this significant figure 7, and the more important one of 7 times 7, or 49—the number of final completion, the finishing of all mysteries, the winding up of earth's affairs.

Very well. Now take these figures, add them together, and see what you get.

2,300 years, Dan's great period for the cleansing of the sanctuary.
1,200 years, measuring the continuance of the "abomination of desolation."
1,335 years, the period of "blessedness" to the saints.
1,260 years, the duration of the woman's sojourn in the wilderness.
1,000 years, the binding of Satan.
666 years, the number of the "beast" who is to go into perdition.
365 years, the symbolic age of Enoch, the great prophet of the advent.
49 years, the number of final completion.

Total 8,265 years.

Now remember that before all the catastrophes denounced on mankind as the divine judgments against sin, there were usually periods of "waiting" before the judgment fell, so as to afford opportunity for repentance and escape, and these periods multiplied of 40, as for example, before the flood 120 years; before the conquest of Canaan, 40 years; and before the fall of Nineveh, 40 days, denounced by the Prophet Jonah.

Now add together 120 years of Noah's warning before the flood came, 40 years of Israel's warning before judgment fell on the guilty Canaanites, 34 years that the witnesses lay unburied preparatory to resurrection, and 3 years during which the owner of the vineyard came seeking fruit and finding none, at the expiration of which period the fig tree was to be cut down, and you have 167 1/2 as the sum.

Now, to apply these mystic numbers and learn their significance, imagine your life divided into the four periods of childhood, youth, manhood and old age, so as to get it in its completeness. Take your age in years, leaving off months and days, added to itself three times (one for each of these four periods), add to it the mystic number 8,265 (the sum of the great prophetic periods), in order to ascertain the full sum of time's revolutions, and divide the amount by four (the number of universality, because these calculations apply equally to every human being), subtract from the quotient the other mystic number, 167 1/2, (periods of warning given to man before the execution of final doom), and from the remainder deduct the number of years you have lived in this sublunary world and you get the number 1,899.

Now it matters not what age you take, that of the little child or the old man, the result is the same, the ominous 1,899 always remains as the one fatal period when every human life is to close. But the one year in which the human career is to terminate, and every life close must be the final year, the winding-up, the conclusion of all sublunary things, the year of doom.

A singular confirmation of this calculation is to be found in the fact that, according to an old Jewish tradition, the world was created in the fall of the year, of which the old feast of trumpets, occurring in October, was supposed to be the memorial. And it would be natural to suppose that it would be very appropriate for it to close its career on the completion of one of its annual revolutions;

in other words, in the fall of the year. And so this remarkable calculation plainly indicates. The three-fourths singularly points out that fact. Hence, if these conclusions are not erroneous, we have the startling prophecy before us that when earth reaches one of her great milestones on the highway of time in October, 1899, a mighty hand will be laid upon her and she will stop. Let the world look out for 1899.

PARNELL'S PROGRAMME DISCUSSED.

LONDON, Aug. 26.—Parnell's Dublin speech of yesterday has thoroughly aroused the conservative press of England. The Times says: "No prudent politician can underrate the importance of the action taken by the Irish nationalists at their conference in Dublin yesterday. Parnell's programme, continues the Times, 'may however, meet with a fate similar to that which befell O'Connell's, at the time when Irishmen were as confident as they are now. Parnell demands a repeal of the union, so the Irish question is no longer one of local self-government. This might be accepted by England, which will never listen to a plan for the separation of Ireland.'

The Standard says: "Parnell has declared war. It will be the shame and disaster of statesmen of both parties if they fail to battle him. We do not pretend to ignore the danger to which imperial unity is exposed. Parnell now holds a strong hand. The late liberal majority in parliament could afford to ignore him, but it will be different in a parliament evenly balanced between the two parties. Parnell has, however, rivals by the score. He knows very well how precarious his tenure of authority is. If both the whigs and Tories make it clear from the outset that Parnell's demand for home rule will be met with firm opposition, his influence will be doomed."

The News takes advantage of the excitement over Parnell's bold declaration for independence, to exhibit the advantage which a large liberal majority would be to the country. "Liberals," argues the News, "are more likely to oppose the Parnellites' demands than conservatives."

New York, Aug. 26.—The World's correspondent sent to investigate the president's reported illness searched for him in the Adirondacks. The presidential camp is located twenty-five miles north of a rural tavern known as the Prospect house, on the upper Saranac lake, in a region frequented by the guide book as "infested with deer, bear, wolves and catamounts." He found the president in good health, and enjoying himself in the most democratic, not to say primitive, way. He has fished a little, killed one deer, is nicely sunburned, and had a four days' growth of beard on the day the newspaper representative met him.

Full of Peril

Are those disorders which, beginning with an apparently trivial inactivity of the kidneys or bladder, terminate in Bright's disease, diabetes and cystitis. The first two not only interrupt the functions of the renal organs, but destroy their structure with as much certainty as tubercular consumption does that of the lungs. Hooper's Stomach Balm is an excellent diuretic, promoting the activity of these organs without exciting them, thus averting the deadly maladies in which their inaction is so prone to culminate. The removal from the blood of impurities which the kidneys should, but do not, when in-active, secrete, is an other beneficial effect of this incomparable medicinal agent and depurative. The Balm is, in all cases, too, a fine restorative of vigor, and aid to digestion, remedies malarial disease, and banishes liver complaint and constipation.

—For Dyspepsia and Liver Complaint, you have a prime guarantee on every bottle of Shiloh's Vitalizer. It never fails to cure. Sold by W. E. Dement.

—The Rev. Geo. H. Thayer, of Bourne, Ind., says: "Both myself and wife owe our lives to Shiloh's Consumption Cure." Sold by W. E. Dement.

Man and Beast.

Mustang Liniment is older than most men, and used more and more every year.

Now it matters not what age you take, that of the little child or the old man, the result is the same, the ominous 1,899 always remains as the one fatal period when every human life is to close. But the one year in which the human career is to terminate, and every life close must be the final year, the winding-up, the conclusion of all sublunary things, the year of doom.
