Reserved seats for the Kellogg concert at the New York Novelty store.

The Birmah is loaded and in the stream. She and the Nagpore will go to sea to-day. The Gen. Canby came in at six o'clock

yesterday with the Kellogg party, which was taken aboard at Kalama. The Methodist Episcopal conference has just closed at Roseburg. Rev. A. J. Joslyn was assigned charge of the church

Beginning to-day, the Gen. Miles or Gen. Canby will make two trips to the forts and liwaco on Tuesdays, Thursdays

The west wind cleared off the smoke

yesterday to some extent, and made navigation on the river a little less irk-some than it has been of late. A new floor is to be laid in the Welch Hill water reservoir, stone and other material now being hauled for that purpose. The cost will be about \$600.

And now they've gone to work and got np a corner in limes, and to-day limes are scarcer in Astoria than fresh eggs. or sweet cider, or \$20 gold pieces.

The fire to the south of the city is getting too near to be comfortable. Two dwelling houses were burned above the bridge two years ago and the flames will need watching now.

There are several large vessels heading this way from San Francisco and about due. If the smoke would lift and stay lifted for a day 'tis probable they could be made out in the offing.

Seldom it is that Astoria is favored by the presence of such an eminent canta-trice as Clara Louise Kellogg. She sings to-night at Ross' opera house. Reserved seats at the New York Novelty Store.

Now that the close season is over we may expect some fine game in the mar-ket. The venison is particularly fine this year. Nothing in the way of game is now under protection except Mongo-lian pheasants and quail.

The Walla Walla finished sluicing at St. Helens last Tuesday and is now load-ing wheat at Portland for San Francisco. The Oregonian says she has sluiced out a channel 150 feet wide, and 22 feet deep at low water at St. Helens. She is expected to do more sluicing at Martin's island upon her return.

It is understood from good authority that the Oregon Pacific railroad will shortly begin work on the eastern exten-sion to Boise City, I.T., where connection will be made with the Chicago and Northwestern. Three different routes from Corvallis to the summit of the Cascades have been made and platted.

The Birmah finished loading yester-lay. Following is a list of the shippers: 500; Pacific Union. 5,500; Badollet & 2,000; Pacine Chion, 5,500; Balonet & Geo.T. Myers, 2,000 cs; Cutting Pkg Co., Co., 11,350; J. O. Hanthorn & Co., 2,100; American Flag Packing Co., 2,000; Scandinavian Packing Co., 6,000; Point Adams Packing Co., 1,048; Anglo-American Packing Co., 1,000; J. G. Megler & Co., 4,000. Total, 37,448 cases.

He says that there is smoke enough between the California line and the Columbia river to cure all the bacon in the United States; a dense pall of smoke hangs over the whole region from the Cascades miles out to sea, and at night the blazing fires light up the sky.

EDTYOR ASTORIAS

We read in The Weekly Astorian of August 15, "The government engineers in their report on an examination of Nehalem bay and river, recommend that no improvements be attempted by the government."

Now, will you please tell the people who live at and near the mouth of the Nehalem river when such "examination" was made, as we have neither seen nor heard of such "engineers." And further we read, in quotation marks, as if copied from such "report," "Enough is known of Nehalem bar to conclude that it is too shoal for easy crossings," etc. Now, too shoal for easy crossings, 'etc. Now, may we ask through your columns, where those paid government engineers got "enough," without ever coming within sight of the bar they were ordered to examine? Certainly they did not get it from those who have for many years lived near the bar, watched its appearance at every stage of the tide, and several times at low tide and quiet sea have taken careful soundings in smrll boats. Will the man who was so kindly officious taken careful soundings in small boats. Will the man who was so kindly officious as to seek those engineers and cram them with the all-satisfying "enough," please tell us when, where, and under what circumstances he obtained it, and oblige CITIZENS OF NEHALEM.

Last Evening's Concert.

A large audience greeted the appearance of Miss Kellogg and her talented companions at Ross' opera house last evening. The entertainment was a musical treat and was thoroughly appreciated by those present. To attempt to criticise the performance would be absurd and if they would build these all over new with Warner's Safe Cure, the part of one who claims little knowledge of music, but everyone present was delighted and the talented performers deserved the applause their efforts elicited. At the close it was announced that there would be another concert this evthere would be another concert this evening with an entire change of programme. Those who heard the beautiful nussic last evening will naturally wish to go again to night and to those who did not attend it need but be said that the performers are all artists, they stand at the head of the profession, and Miss Kellogg is conceded to be the finest singer in the United States. Reserved seats at the New York Novelty Store.

The Wrecked Haddingtonshire

During July and August the express rate on salmon to St. Paul and Minneapolis was \$5.50 per 190 pounds. On the 1st inst, it was raised to the old rate of \$7.50.

W. Mighell, the purchaser of the cargo of the wrecked bark Haddingtonshire, returned from Point Reyes on Friday W. Mighell, the purchaser of the cargo of the wrecked bark Haddingtonshire, returned from Point Reyes on Friday evening and reports that there were 1.830 cases of sulmon in good shape on the beach and about 1.800 sacks of flour, some in fair condition. A large quantity of the cans from broken cases was found in the sand, but they are nearly worth-less. The vessel is still visible and is apparently well broken up, as nearly all the woodwork, decks, hatches, etc., have come ashore. Only two spars have come ashore—one the royal yard, with the sail come ashore, but two corpses were seen from the lighthouse, floating by.—S. F.

"O. Lor', Hit 'Im Agnin."

In the early days of Methodism in Scotland, a certain congregation, where there was but one rich man, desired to build a new chapel. A church meeting was held. The old rich Scotchman rose and said: "Brethren, we dinna need a new chapel;

I'll give five pounds for repairs."

Just then a bit of plaster falling from the ceiling hit him on the head.

Looking up and seeing how bad it was, he said: "Brethren, its worse thon I thought; I'll make it 50 pun'."
"O Lord," exclaimed a devoted brother on a back seat, "hit 'im

again!"
There are many human tabernacles which are in sore need of radical building over, but we putter and fuss and repair in spots without satisfac-tory results. It is only when we are personally alarmed at the real danger that we act independently, and do the right thing. Then it is that we most keenly regret because we did not sooner use our judgment, follow the advice born of the experience of others, and jump away from our

Thousands of persons who will read this paragraph are in abject misery to-day when they might be in a satisfactory condition. They are weak, lifeless, full of odd aches and pains, and every year they know they are getting worse, even though the best doctors are patching them in spots. The origin of these aches as millions have done, and cease in-vesting their money in miserably unsuccessful patchwork, they would be well and happy, and would bless the day when the Lord "hit 'em" and indicated the common-sense course for them to pursue.—[London Press.

TOTAL ECLIPSE OF THE SUN.

The sun will be totally eclipsed next Saturday, but the grand phenomenor will be invisible in this part of the world. The portion of the earth traversed by the moon's shadow, or the line of totality, as it is called, lies entirely in the

F. most sublime and most awe-inspiring spectacle revealed to mortal eyes will on the present recurrence be seen by com-

aratively few observers.

None the less surely will it occur. The moon on the 8th will pass centrally between the earth and the sun. She will be at her nearest point to the earth, and appear larger than usual, and the sun will be almost at his most distant point. from the earth, and appear smaller than usual. Under these conditions the moon's shadow will reach the earth, and hide the sun entirely from those who are upon the narrow belt we have described.

Gradually the dark body of our satellite will encroach upon the sun's bright face, until for about two minutes, he will be hidden from view. minutes, he will be hidden from view. When totality commences, the silvery corona springs into being, the rosy protuberances send forth tongues of flame, stars shine in the darkened sky, and a weird, funereal gloom enshrouds the earth like a pail. Before the awestruck and bewildered observer can take in the scene the event is over, and the san's face seems nore radiant than ever

after emerging from the darkness.

Sometimes comets are visible during totality, close to the sun, and observers totality, close to the sun, and observers are always seeking to find some small planets peeping from the darkness that are nearer the sun than Mercury. As-tronomers willingly travel thousands of miles to behold a solar eclipse, always hoping to make discoveries which have thus far eluded their grasp.

Recognition on the Street

There are certain rules in regard to recognition that should be observed. It seems a trivial thing and yet is important. Always bow to any one you know, and this should be done at once, as soon as your eyes meet; don't wait to see if they are going to bow to you first; that does not matter so you do your duty. This rule is the same for either lady or gentleman. It used to be customary for a lady to bow first when meeting a gentleman, but this point is fast growing obsolete. A gentleman should always lift his hat to a lady, and if smoking, must remove his cigar from his mouth before bowing. Never fail to return a bow even should it be a case of mistaken identity. And never be guilty of bowing at one time and not another—it is the height of rudeness. It is ctiquette for a gentleman who is stopped by a lady upon the street to turn and walk with her while they are conversing, but he is not called upon to escort her home; he can leave her at any eems a trivial thing and yet is important. escort her home; he can leave her at any time, merely bowing.—Atlanta Constitu-

THE FATE OF A LIAR.

Washington, Sept. 2,-Mr. Montgom ery, the new commissioner of patents, while engaged in "turning the rascals out," decapitated a messenger in his bureau who had been in office for several years without doing much of anything to earn his salary. Upon receiving his discharge he made a great ado over it, and insisted that the ax had fallen on the wrong neck. He was a Democrat, he said, and had always been a Democrat; had voted the ticket straight at every election, and stood by his party even in the face of discharge by a Kepublican administration. Mr. Montgomery looked him over and then called for the letters of recommendation upon which he was

of recommendation upon which he tetters originally appointed.

"You are a Democrat, are you?"

"Yes, sir," replied the man.

"And always have been?"

"Then you."

"Always."
"Then you are discharged for false-hood and for obtaining an effice under false pretenses. In this application for appointment filed five years ago you state that you are a Republican, no one but Republicans indorsed you, and everyone of them commends you as a faithful and useful member of that party. You can go." can go."

There are a good many department clerks turning up who have always been Democrats, but this example has assisted to make such pretentions unpopular.

Easily Explained.

The Butte City (Montana) Inter-Moun tuin says: Yesterday a Chinese store keeper who kept silk handkerchiefs for sale was induced to sell one for ninety cents which he had asked \$2.50 for at first. "How much do you make on this sale?" was asked after the trade was made. "Oh, ninety cents," was replied. "But how can you make ninety cents when that is all you get for it?" "Oh, me steal um," coolly said the Chinaman, as he threw the money into the drawer.
