To Rent. FINE BUSINESS OFFICE CENTRAL WORK OF A DASTARD MOB.

KNOXVILLE, Tenn., Sept. 6.—Last right a large body of masked men passed down Gay street, in the direction of the jail. They were joined at various points along the street by at least two hundred citizens. They apleast two hundred citizens. They approached the jail in perfect order, excepting the firing of pistols. The jailor surrendered the keys to the main entrance, and the crowd broke the door of the cell containing Lee Sellers, a young man charged with the marder and robbery of Edgar Maine, committed on last Tuesday propring one mile east of the city. norning, one mile east of the city. Sellers had a knife in his possession, and when one of the vigilantes went into his cell to adjust handcuffs, Sellers gave him a number of frightful slashes. Both doors were soon battered down, and the masked vigilantes shot at Sellers twice, without inflicting any serious wounds. Then seizing Sellers, the mob passed out of the jail yard and went to the mid-ile of a high bridge over the Tennessee river. A rope was placed around the criminal's neck while he was yet in the corridor of the jail. He stood with his arms folded, and never tlinched while the knot was being arranged. He called for a drink of water before leaving for the bridge and his wishes were complied with.

After reaching the middle of the ridge the mob halted and demanded a confession. Sellers refused to say a word, and the rope was placed over crossbeam, about twenty-two feet

bove the floor, and he was swung n as the noose began to tighten he climbed up the rope hand over band, and gained the top of the bridge framing. He then crawled

the water, eighty feet below, and has not yet been found. At the very last

LONDON, Sept. 6.-Telegrams from centleman who was recently sent to termany to inquire into the alleged pholesale expulsion of Russian subjects fully confirm all previous re-ports. In a dispatch dated at Kongsburg he says: Many thousand persons have been expelled from owns in the eastern provinces, and thousands of Russians have been or-dered to leave by the 1st of October, on the ground that they have not obtained formal naturalization, al-though many of those expelled per-formed German military service at Danzig. The chief sufferers are merchants, artisans, workmen, and even musicians, some of whom have been ettled in the country twenty years. At least 500 persons in Danzig at present are under notice to depart. At Konigsburg the same barsh state of affairs exists, and the sufferings likely to be caused by the forced renoval of so many peple from the comfortable homes which they have, by their industry, succeeded in making for themselves, excites the keen-est sympathy of the natives in these cities, who are indignant at the prospective loss of so many wealthy producers. The municipal council of Danzig has sent a petition to Bismarck, setting forth in forcible terms the injustice and injury which will result from the enforcement of the order of removal, and requesting that is only a part of beauty; but it is a part. Every lady

OREGON AND WASHINGTON CATTLE IN ENGLAND.

have awakened considerable interest particularly among trade competitors.
These cattle, it appears, were driven
eastward and finally shipped on board
vessels at Duluth. A British trade
paper, in commenting upon this shipment, states that the dead-meat has proved a failure to all intents and purposes. Not only does the meat lose in quality, but the weight shrinks by more than 6 per cent. The livecattle trade, however, it regards as a far more serious matter. That Wy oming territory alone sends from its borders nearly enough ment to satis-fy the requirements of London, and now that the northern systems of railways is finished, transit is com-

paratively an easy thing. Three-year-old bullocks, weighing 1,000 pounds each, can be bought at railroad points in Montana and Dakota for \$3.40 per head. Transportation from Montana to London adds \$22.80 Fresh and Currel Meatto this figure, and at these rates "it will be found that in this trade of supplying London with cattle from the great prairies of the northwest there is an enormous and profitable field for enterprise." The low figure is arrived at by direct shipments, with-out the intervention of brokers, while cattle which are taken from some other sources of supply pass through half a dozen hands before they reach the retailer.—Walla Walla Union.

F. J. Horswill describes the Conner coal mines on the south side of the Skagit as superior to all coal mined on this coast. He cites the Scotch expert, P. N. McKay, as sharing this high opinion of its value. There are five veins of coal, the better quality being found in the lower vein, an eighty-foot one. The pitch is 50 deg. to the southeast. A cross-cut tunnel has been put in 171 feet long.

Ward C. White, the most successful dairyman in Wisconsin, uttered that aphorism that has gone over the whole world: "I always speak to a cow as I do to a lady." When I asked him to tell me the answer to the whole dairy problem in one word he replied: "Well, my boy, I should spell it c-o-m-f-o-r-t." Remember that milk-g.ving is a maternal function, and no man should abuse a mother.

Mr. Jones, the revivalist, in his ser mon in Cincinnati last Sunday, said "I don't believe any of Darwin's the ory, unless you invert it, Invert it and my judgement is, it's a fact. We came from the blessed hand of God perfect, but I look about me and I think the world is running to mon keys."

It is reported that placer mines have been discovered on upper Fall ereek, about sixty miles from Eugene City, and that men are making \$4 or \$5 a day.

This is the season when housewives are busy making preserves and jam. If you should be unfortunate enough to jam your finger St. Jacobs Oil will \$67,000,000 Capital

New York has twelve hundred gospel ministers, eight hundred of whom are Protestant, and four hundred Roman Catholic. Miss Belle Waters, of Jacksonville, who was so severely burned a few

weeks ago, died last Tuesday night, after much suffering. About fifty ledges have been pros-pected in Pine creek district, and shafts in some are down fifty feet.

An average of five mining locations per day are filed with the recorder at the Pine valley mines.

Better than She Expected.

"Your letter received. In reply I am happy to say that Parker's Hair Balsam did much more for me than you said it would, or than I expected. My hair has not only stopped falling out, but the bald spots are all covered, and all my hair grown thicker, softer and more lively than it was before my sickness a year ago. Thank you again and again." Extract from letters of Mr. R. W. T., West Fifty-third street, New York.
