**Notice to Advertisers.**  
THE ASTORIAN guarantees to its advertisers the largest circulation of any newspaper published on the Columbia River.  
This paper is on file at the St. Charles Hotel, Portland, Or.

The State is due from San Francisco this morning: the Columbia sails.  
Leave orders for North Pacific brewery beer at Wm. Beck's or Chris. Evensen's.

The British Benevolent society will have a business meeting this Tuesday evening.  
The O. R. & N. company is carrying passengers from Portland to Vancouver for ten cents.

The international yacht race between the *Puritan* and the *Genesta* will be sailed to-day.  
"In early times there were no flies in Oregon." Even now flies are comparatively scarce in Astoria.

A special meeting of Co. H. O. S. M. is called on to-morrow evening at 8 o'clock, at the company's armory.  
Henry Warren, state senator from Yamhill county in last winter's legislature, died at McMinnville last Sunday afternoon.

Mrs. Leinenweber, clerk of school district No. 3, invites proposals from teachers for the school year 1885-86. Two teachers are required, a principal, and an assistant. See adv't.

The steamer *Kootenai*, which has been running between Kettle Falls and the Canadian Pacific railroad at the second crossing of the Columbia ran on a ledge of rocks last Friday, and it is thought will prove a total loss.

The opening exercises of the state normal school at Monmouth will take place to-day at 10 a. m. The opening address will be delivered by Hon. J. D. Lee, of Dallas. Music and short addresses will constitute the remainder of the exercises.

Judge Taylor returned last Sunday from Alaska where he had been holding court. It was the first time that district court was held in that newly fledged county seat and the Alaskians duly appreciated the distinction that the local legislature so kindly conferred upon them.

There was much tribulation in Astoria on Sunday and yesterday occasioned by the failure somewhere, somehow of the water pipes to work. Toward midnight the plying clouds grew menacing and came to the city's relief by night any one that had a tin can had plenty water to drink or cook with.

Frank Silva, a local sport of some notoriety, and one Harlan, of Portland, had a fighting "contest" in that city last Sunday night which ended in a general stampede on the part of the spectators at the appearance of the police and the capture of the principals. The fight was for \$150 and "gate money."

Portland and the valley towns are infested with burglars. Private residences seem to suffer the most. There are two or three in Astoria who during the day sport the crib they intend to crack. They are very innocent, have some "smuggled" goods they wish to sell, or some other excuse to get inside and look around.

Shipments of wheat for the cargo of the ship *Benjamin F. Packard*, now loading at Tacoma, are being made from Portland. On Thursday seven car loads went, Friday five, Saturday eleven and Sunday ten. The wheat is transported in box cars provided with air brakes. It will take 350 car loads to make up the cargo of 3,500 tons which the *Packard* will carry.

The steamer *Yaguina* will sail from Astoria for San Francisco to-day, carrying passengers and about 300 tons of wheat. The wheat shipment is an experiment, but it is thought may prove successful. The present rate for wheat between Corvallis and Portland is \$3.20 per ton, and \$3.00 from Portland to San Francisco, making the total \$6.20 from Corvallis to San Francisco. From Corvallis to San Francisco by the steamer *Yaguina* the rate is \$4.50 per ton, or \$1.70 per ton less. The passenger fare to San Francisco by the *Yaguina* is, cabin \$14 and steerage \$7.

**SCHOOL IN DISTRICT NO. 18.**  
The fall and winter term of school in district No. 18, began yesterday with an attendance of 131, which will probably be increased a hundred more in the next few weeks. The district has a fine new building which when completed will be fully equal to the demands of the district for many years. Four large rooms, each 36 feet square have been built on the front of the old structure. Miss Lawrence, the principal of the school, occupies the new building, Miss Connolly's pupils being in the room formerly occupied by Miss Lawrence, and Miss Atkinson's primary pupils in the room directly underneath.

Though yesterday was the first day of the term, and the school could not be expected to be more than organized, a visit to the several rooms showed that regular school work was going on, the bright, intelligent faces of the young folks, the quiet attention to school duties, and the evident efficiency of the teachers, speaking well for a prosperous term.

At the last meeting of the board of school directors, it was decided that the teachers should be required to carry the calendar months as school months this term; the usual order of things is to reckon a school month as being four weeks of five days each; under the decision of the directors the months shall run from September 14th to October 14th as one month, then to November 14th, and so on, which would give twenty-two school days in the month begun yesterday, and twenty-three days in the next month.

All those who have invitations do not forget the entertainment and social dance at the Gymnasium hall Friday evening.  
Goodwin's Clatsop butter at Beck's.

**Reopening of School in District No. 18.**  
School books cheaper than ever before at Carl Adler's Book Store, also change of books at prices adopted by State Board. Slate pencils, lead pencils, ink, etc., given away at Carl Adler's Book Store.

## LAYING THE CORNER STONE.

A Short History of Grace Church Parish.

When the hour for the deferred ceremony of laying the corner stone of the new Episcopal church rolled round yesterday, the clouds hung low and the falling rain prevented the full attendance that would have been there under brighter skies.  
Rev. Bishop Paddock, assisted by Rev. M. D. Wilson, the rector, performed the ceremony of laying the corner stone of the new edifice with appropriate ceremony, after which Bishop Paddock delivered the following ADDRESS:

According to the only records that are accessible we find that Grace Church, Astoria, Oregon, was established September 4, 1864, by the Rev. Thomas A. Hyland. At that time the services were held in the court house, where they continued to be held until the year 1867, when the present church building was erected. The Rev. Mr. Hyland remained in charge until the year 1878, being here as missionary in charge until 1875 or '76 when the missionary stipend was diverted to more needy points; from that time until his resignation in 1878 he drew his entire support from this community, as all his successors have done.

Besides the regular entries of baptisms and confirmations the following facts are found recorded:  
The present chancel carpet was given to the church by Mrs. Capt. J. W. White in 1872.  
That the matting in use on the aisle of the church was the gift of Miss Mary R. Morris in 1875.

That the baptismal font was the gift of Miss A. E. Tweedie, residing, in 1874, at 107 E 36th street, New York city.

That the first vestry was formed in March, 1875, and consisted of Gen. O. F. Bell and S. D. Adair, wardens; Capt. J. W. White, Gen. Adair, A. Van Dusen, P. Cherry, and Hon. W. D. Hare.

When Mr. Hyland came here in 1864, he found two communicants, Miss Mary A. Adair and Miss Emma Brown, who had been confirmed the year before. When he resigned in 1878 there was a list of 45 members. During this time there are recorded 125 baptisms, 49 confirmations and 62 marriages.

So active as can be gathered from the records and from the memories of those living here at the time there was no vacancy between the going away of Mr. Hyland and the coming of his successor, the Rev. Octavio Parker. Mr. Parker came in the summer of 1878, and remained but one year, going away in the summer of 1879. Mr. Parker has left a record of 12 baptisms, 8 confirmations and 3 marriages and a list of 60 communicants.

Mr. Parker left here late in the summer of 1879 and there was but a very short vacancy until the Rev. Alfred T. Perkins became rector of this parish in the early autumn of 1879. Mr. Perkins, until August, 1881, leaving a record of 52 baptisms, 13 confirmations, 8 marriages and a list of 67 communicants.

After Mr. Perkins went away there was a vacancy of 13 months, September 12, 1882, when the present rector, Rev. Mardon D. Wilson came. For these three years since this last date there are 72 baptisms, 17 confirmations, 25 marriages and there is now, September 12, 1885, a list of 75 communicants.

From all of which we find that there have been in this parish since its commencement as a missionary station, 262 baptisms, 87 confirmations, and 99 marriages including 4 baptisms and 1 marriage by Bishop Morris during the intervals.

There remains to be recorded that in the autumn of 1882 a beautiful stained glass window was put into the church in memory of Robert F. Treachner. This window was furnished by the young friends of the young man commemorated.

This corner stone is laid by the Rt. Rev. Bishop Paddock D. D. of Washington territory, Sept. 12, 1885. At this date the intention is, so soon as we are able to hold services in this new church building, to remove the old church to these new lots and eventually use it for the ordinary purposes of a parish building.

The following articles were placed in a box under the corner stone:  
Bible, Prayer book, New York Churchman, Sept. 25th, 1885, Oregonian, Sept. 12th, 1885, The Daily Astorian, Sept. 12th, 1885, the Standard, July 9th, 1885, the daily Oregonian, July 12th, 1885, Columbia Churchman, Sept. '85, containing accounts of their church building, history of parish, copy last 32nd convention journal giving statistics of parish, list of officers of parish, copy of service for laying corner stone *Spirit of Missions*, *Young Christian Soldier*, copy journal of conference of missionaries, jurisdiction of Washington territory; coin: Mexican dollar of 1876, American dollar of 1885, English penny, 1753, curious Chinese coin of 1863, copy of table of contents of box.

**BILLS OF LADING TO FOREIGN PORTS.**  
Wednesday of this week the Northern Pacific railroad company issued the first bill of lading from the Pacific coast to a foreign port. It was issued by the agent at Payalup, W. T., to E. Meeker & Co., for seventy bales (25,000 pounds) of wool, consigned to E. Meeker & Co., care Lindsay, Bird & Co., London via Liverpool, -Oregonian, 12.

It is nearly fifteen months since the Northern Pacific railroad company issued the first bill of lading from the Pacific coast to a foreign port. It was issued on June 21st, 1884, by Mr. E. A. Noyes, the agent at Astoria, to Badollet & Co., of London (70,000 pounds) of wool, consigned to Ostheimer Bros., Havre, France. On July 7th, 1884, the Northern Pacific railroad company issued another to the Astoria Packing Co., for 300 cases salmon, consigned to Geo. C. Lane, 17, Philpot Lane, London, England, E. C. Since then the agent here has issued several more to foreign ports. It is in accordance with the eternal fitness of things that from the report of the first foreign through bill of lading should be issued over the Northern Pacific railroad, but it was so long ago that it had probably been forgotten by our Portland contemporary.

**Excited Thousands.**  
All over the land are going into ecstasies over Dr. Kneumeyer's Discovery for Consumption. Their unlooked for recovery by the timely use of this great life saving remedy, causes them to go nearly wild in its praise. It is guaranteed to positively cure Coughs, Colds, Asthma, Hay Fever, Bronchitis, Hoarseness, Loss of Voice, or any affection of the Throat and Lungs. Trial bottles free at W. E. Dement & Co.'s Drug Store. Large size \$1.00.

**WHAT!**  
Do You Think that "Jeff" of The Chop House Gives you a meal for nothing, and a glass of something to drink? "Not much!" but he gives a better meal and more of it than any place in town for 25 cents. He buys by the wholesale and pays cash. "That settles it."

## STATE AND TERRITORIAL.

There has not been a law suit, either criminal or civil, in Willamina, Sheridan, or Bellevue precincts, Yamhill county, for more than two years.

Union county has set the following prices to be paid for the scalps of wild animals: Panther and cougar, \$3; wildcat and catamount, \$1; wolves and coyotes, \$3.

Among the contributions to the Washington territory exhibit at New Orleans will be a section from a cedar tree 17 1/2 feet in diameter, and another from a fir 13 feet in diameter, providing a saw can be obtained that will cut them. They are to come from Chehalis county.

Last Saturday the Union Pacific railroad company closed a contract with the Willamette Steam Mills Lumbering and Manufacturing company for 200,000 ties, to be delivered at Albina. It is well known, says the *Oregonian*, that no better timber can be found for ties than Oregon fir.

Curry county, according to the census, has a population of 1140. The number is about 100 less than in 1880; but the local paper says the census was very incorrectly taken, since some of the precincts have more than doubled in population. In Curry county there are 34,192 sheep and 3,192 cattle. The county produced 54,900 pounds of butter last year.

The ceremonies attending the driving of the last spike on the Canadian Pacific will occur next month, the date not having been yet determined upon. The road will be then completed, with the exception of snow sheds, etc. The final completion will have nothing of the character of the Northern's golden spike "blow-out," but all the railroad types and many government notabilities will be on hand.

## UNCLE ESKE'S WISDOM.

The great art in getting rich is not in saving money, but in knowing how to spend it.  
Don't mistake stupidity for patience; patience is the humility of wisdom.

Any one can commit a blunder, but no one but a fool is bit twice by the same dog.  
The man whose illness don't lend itself to mischief is either a very dull or a very stupid one.

Money is a kind of natural wealth; money is never at interest.  
Advice, just at present, is the greatest drug in the market; the supply has ruined the demand.

Take the fun out of this world and every pound of life would weigh ten.  
You can buy a dog for two dollars and a half, but there isn't enough in the world to buy the wag of his tail.

The poor man who begins at home; the rich, and this is just what keeps them poor; for the sake of one feast they are willing to starve three days.  
The ridiculous side of life goes far toward making it endurable.

A fool may possibly amuse others, but he can't amuse himself.  
Beware of the man who listens much and talks little; he is setting your thumb and saving his own lightning.

A peacock's pedigree is all in the spread of his tail; a wet day takes the glory out of it.  
Condensation is almost omnipotent, single words are autocrats, and a sentence is law for all mankind.

Men have very varying opinions, and yet there are scarcely any two of them who think alike.  
What the world wants just now is less civilization and more of the virtues.

Beware of the man who few words; he always has something in reserve.  
Truth can travel to the end of the earth all alone, but a lie must have company to keep up its courage.

Religion is most excellent to mix with business, but to mix business with religion is not safe.  
We get our vices from each other, but our virtues by cultivation.

Labor will buy anything that is in the market.  
Vice and virtue began life together and will leave the world when the last man does.

Wisdom can afford to go slow; but if a fool doesn't run he is sure to get left.  
Honesty, like charity, begins at home; the man who is not honest with himself cannot be with others. -Century.

## CURE FOR PILES.

Piles are frequently preceded by a seque of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant. Blind, bleeding and itching Piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the Tumors, alleviating the intense itching, and effecting a permanent cure. Price 50 cents. Address The Dr. Bosanko Medicine Co., Piqua, O. Sold by J. W. Conn.
