How to Prevent Fires.

Always buy the best quality of

Never make a sudden motion Never make a sudden motion with the lamp, either in lifting it or 3. Never place a lamp on the edge of a table or mantle.

 Never fill a lamp after dark even if you should have to go with out a light. See that the lamp wicks are al-ways clean, and that they work freely

6. Never blow a lamp out from the 7. Never take a light to a closet where there are clothes. If necessary to go to the closet, place the light at a distance.

S. Use candles when possible in going about the house and in bed-They are cheaper, can't explode, and, for many purposes are just as good as lamps.

9. Matches should always be kept in stone or earthen jars or tin.

10. They should never be left where

rats or mice can get hold of them. There is nothing more to the taste of a rat than phosphorous. They will eat it if they can get at it. A bunch of matches is almost certain to be set fire to if a rat gets at it.

11. Have perfectly good sales in every place where matches are to be used, and never let a match be left on the floor. 12. Never let a match go out of

your hand after lighting it until you are sure the fire is out, and then it is better to put it in a stove or earthen 13. It is far better to use the safety matches which can only be lighted upon the box which contains them. 14. Have your furnaces examined

carefully in the fall, and at least once during the winter by a competent person. All the pipes and flues should be carefully looked to. 15. If there are any closets in the house near chimneys or flues, which there ought not to be, put nothing of a combustible nature into them. Such closets will soil silver ware,

crack crockery and burn bedding. They form a bad part of any house that contains them. 16. Never leave any wood near a furnace, range, or stove to dry.
17. Have your stove looked to frequently to see that there are no holes

for coal to drop out. 18. Never put hot ashes or coals in wooden receptacle. 19. Be sure there are no curtains or shades that can be blown into a gaslight. Never examine a gas meter
