A SAN FRANCISCO SENSATION.

A Banker Who Received a Dose of Vitriol in His Face.

SAN FRANCISCO, Sept. 25.—An effort was made last night by several friends of Martin Fuller, into whose face, as mentioned in last night's dispatches, May Jackson threw a bottle of vitriol, to have his identity suppressed. They stated if this was done the authorities of the bank with which Fuller was connected would, if he recovered his eyesight, be induced to reinstate him in his position. It is, however, a matter of general public knowledge this morning that Fuller was loan teller in the San Francisco Savings Union. He has always borne an excellent character and moved in good society. Although the event took place last Monday evening in a prominent restaurant on Pine street, the affair was kept so secret that nothing was publicly known of it until it leaked out through an application for the arrest of Miss May Jackson. In explanation of what induced her to commit such a fearful crime, she says Fuller has systematically deceived her; that he told her he had been divorced from his wife, promised to marry her, and treated her before friends of both as his fiancée. It was only when she saw he had determined to rid himself of her that she conceived the scheme of disfiguring him for life. While chatting over her dinner in the restaurant, Miss Jackson suddenly drew from her pocket a large mouthed bottle of oil of vitriol and without saying a word dashed it into Fuller's face. He rolled off his chair on the floor as if he had been shot, writhing and groaning in agony. His friends had him removed to his rooms at the Occidental hotel, while Miss Jackson was allowed to quietly return to her home. When it became evident Fuller would lose his sight of one eye and perhaps of both, and retain on his face during his lifetime the fearful scar made by the vitriol, one of his friends determined, with Fuller's consent, to have Miss Jackson arrested. The skin and flesh on the left side of Fuller's face are eaten into by the burning liquid in a frightful manner and when sloughing sets in the destruction of tissue will be so great as to leave deep holes in the flesh. The victim is 35 years of age, of medium height and gentlemanly appearance. Miss Jackson is a tall, demi-blonde, 20 years of age, so modest in appearance that no one would suspect her of being capable of committing so horrible a crime. Her friends have succeeded in finding bail in \$5,000 and releasing her from prison.

San Francisco, Sept. 25.—May Jackson, who burned with vitriol Martin Fuller, was arraigned this morning before Judge Rix. Drs. Clark and Gross testified that Fuller was dangerously and horribly disfigured. If the vitriol reached the jugular death would ensue. In view of this fact the judge increased the bail of the girl to \$10,000 pending the trial in two weeks, when the patient will be either better or dead. Judge Rix said the crime was the most hideous which the special law made.

On motion of the prosecuting Attorney Judge Rix dismissed the case of Minnie Carlson, the slippery Oregon girl, she having promised to return to her father in Oregon.

Ocean Mail Service.
 The steamer from San Francisco that arrives this morning brings freight to Astorians, but not till to-morrow, or probably Tuesday will the invoices, or market advices arrive by overland mail. This works an inconvenience to merchants, and will grow worse as the winter season makes mail connections by the overland route less certain. Under the best of regulations it takes a letter three days to get here from San Francisco by mail, and when storms occur and staging is bad it may be four, or even five. The only way at present to insure receipt of letters by steamer is to have them sent in an express envelope, and as these cost four cents apiece the aggregate tax represents something considerable. Astoria should have an ocean mail service to and from San Francisco and a little concerted effort toward that desirable condition is in order.

Some idea may be formed of the constant tide which is setting westward, and the number of persons who are finding homes from the East, that during the past month 500 deeds have been made out at the land department of the Northern Pacific railroad company in this city. These deeds have been executed to bona fide purchasers of railroad lands.—*Oregonian*.

MILITARY MATTERS.

Orders Issued by the Governor to the State Militia.

His excellency, Governor Moody has issued orders as follows:
 During the months of March, June, September and December, the commanding officer of each regiment, battalion and unassigned company shall report to the adjutant general the condition of their command.

Every company shall hold at least one meeting for drill each week, and the company commander is directed to make monthly reports to his immediate commander, who in turn will report them to the adjutant general.

Each enlistment shall be for a term of not less than three years, and none but physically qualified men shall be enlisted in any company. No enlisted man shall be discharged before the expiration of his term of enlistment, except for the following reasons: By order of the commander-in-chief, by sentence of a general court martial, a certificate of disability, by resignation, offered by reason of removal from place where company is organized, and as otherwise prescribed by the laws of the state.

All organized companies are directed to provide themselves with uniform prescribed by law, which is the same as that of the United States army. The fatigue pattern is recommended.

The term for which all field officers are to be elected shall be two years, except in cases to fill unexpired terms, when the election shall be for the balance of such unexpired term. The regimental staff will hold their commissions under the same rules as those which are prescribed for other staff officers in the militia law of the state. Commissions heretofore issued to field officers shall expire on the 31st of July, 1886.

All reports, returns and correspondence intended for the commander-in-chief, or adjutant general, must be forwarded through the proper channel of military correspondence.

Commanding officers of all militia organizations will enforce compliance with the foregoing regulations in their respective commands; and any organization refusing or neglecting to comply therewith, shall be promptly reported for disbandment.

THE OREGON AND CALIFORNIA.

Certain proceedings are now going on in London which seem to point to the probable absorption of the Oregon & California road by the Central Pacific, of California.

Application has been made to the London stock exchange to allow a quotation for the Oregon & California's committee's certificates, representing the first-mortgage bonds. These bonds are deposited in compliance with the provisional arrangement made by the directors with the Central Pacific railroad company, by which it was agreed that the Oregon & California bondholders should receive \$1,150 of new Central Pacific bonds, bearing 3 per cent for two years, and 5 per cent thereafter for each bond of \$1,000. Shareholders are to receive for two preferred shares, upon the payment of an assessment of \$4 per share, one share of the Central Pacific, and for four ordinary shares, upon the payment of \$3 per share, one share of Central Pacific stock. The Oregon & California company has \$12,000,000 preferred and \$7,000,000 common stock outstanding, so that the Central Pacific company will be called on under the agreement, should all the stockholders pay their assessments, to issue \$7,750,000 of its own stock, and will receive \$690,000 in cash toward the expense of completing the road.

This arrangement makes the central Pacific a large owner of the bonds of the Oregon & California. It is understood that the plan includes foreclosure of the Oregon & California, under which the road is to be bid in for the bond holders, thus cutting off both the preferred and common stock. This done, the Central Pacific is to take possession under a lease, and guarantee a certain amount to the first mortgage bondholders. We can not say that this is all fully settled yet, but it is believed to be in course of settlement; and to this fact is of construction work in California.

The Central Pacific, then, is to own the Oregon & California lines.—*Oregonian*, 26.

Plantation Philosophy.
 Yer can impose on er enemy an' he doan' think much about it, but when yer impose on a dear friend, he is dun wid yer fer life. De wildes, man sometimes becomes de quietest citizen. Dar ain't nothin' more skittish den a young deer, but once ketoh him an' he is de easiest thing in de world. He 'arsars dat all through life de hardes' thing ter do is de bes' arter it am done. It takes de hardes' sorter work to split or knotty piece o' wood, but arter it is split it makes de bes' fire.—*Arkansas Traveler*.

FOREIGN NEWS NOTES.

St. Petersburg, Sept. 25.—The feeling in St. Petersburg regarding the Roumelian question is hourly becoming more warlike. The sympathy of the masses is strongly with the Bulgarians. It is stated that the czar has telegraphed the minister of war to prepare plans for a campaign in the event of opening hostilities between Bulgaria and Turkey, as he is determined to support Prince Alexander's scheme of unity between Roumelia and Bulgaria. Some prominent Russian gentlemen interviewed to-day, when asked if it was true that the czar seriously intended to support Bulgaria to the extent of going to war with Turkey, replied that Russia would declare war against Turkey the moment the portes attacked Bulgaria, and added that the czar is most emphatic in his resolution to support Bulgaria.

THE GREEK HOSTS.
 ATHENS, Sept. 25.—Five thousand troops reserve force, have been formed into an army corps. Several thousand regular troops, including all branches of the army, are massing on the frontier bordering on Thessaly. A feeling of indignation prevails throughout Greece over recent events in Roumelia. The king will be unable to land before noon on Sunday, owing to quarantine regulations.

SLAUGHTER IN ANSAM.
 NEW YORK, Sept. 25.—The *Herald's* Paris special says of the massacre of Christians in Annam: The superior of the college and a whole host of Christians have been slaughtered pell mell. Some were thrown into the sea with their hands tied behind their backs. Some of the missionaries tried to make a stand with muskets, but were soon defeated. Churches, schools and dwelling houses were burned, and Christians who escaped had to walk for days without food or shelter, in order to reach places of refuge. Gen. De Courcy promised to send a gunboat, which came to Quinhon, after the place was burned down, and never fired a shot owing to the absence of orders.

PONTIFICAL MEDIATION.
 ROME, Sept. 25.—The pope has agreed to mediate between Germany and Spain, with regard to the Caroline question, subject to certain conditions which have not been promulgated.

A BENGALISE CYCLONE.
 CALCUTTA, Sept. 25.—A fearful cyclone has visited Falva Points, a port on the Bay of Bengal. Telegraph lines have been swept away, and probably many vessels have been wrecked on the bay. A government steamer has gone to render any assistance that may be needed.

HOW SALMON CANNING WAS STARTED IN OREGON.
 The salmon canning industry in Oregon is attributed altogether to a suggestion of that queer genius, George Francis Train. Some years ago Train was to deliver a lecture in Portland, and in the afternoon before he was to speak engaged in salmon fishing. He met with great success, and was amazed at the quantity of the great fish in the river. He could talk of nothing else, and begged the lecture committee which had engaged him to allow a substitution of salmon for the subject of his address in place of the one announced. This the committee would not agree to, and Train began the speech announced in the advertisements. He got along very well for half an hour or so, and then the attraction of the theme upon the most in his mind proved too much for him. He left his original subject and began to talk about salmon. He drew a salmon on the blackboard; he declared that the people before him were neglecting a mine of wealth close beside them; he told them that they ought to begin salmon canning at once; that it was the coming great industry of the region; and that if they did not move quickly in the matter others would come in and seize the prize. He became eloquent, and the lecture ended in a grand, wordy panorama showing a salmon colored future for the country. One or two men in the audience, though discounting Train's prophecies, were impressed with his ideas, and resolved to carry them out in a practical way. They organized a company, and the salmon-canning industry was begun.—*Chicago Tribune*.

The above is a good story, all but the last. The fact is that George Francis Train delivered that lecture in Portland on the Fourth of July, 1869, while Wm. Hume, Haggood and one other man were canning all they could catch, and catching all they could can in 1864.

THE SKIPPER'S METAPHORS.
 Oh, the yachtsmen have a way that's very vesing
 Of discoursing in the English of the Queen;
 And their metaphors are certainly perplexing
 To a man who never has the ocean
 For instance, he might read the yachtsmen were "sailing"
 At a certain time "upon a single tack,"
 And wonder that the officers commanding
 Should find of things to stand on such a tack.

If it is a man of science he'll deny it
 Two vessels on a single little spot!
 If he is a man of feeling he'll deny it
 He's stepped on tacks just where he thought them not.

And when he reads of how the jolly sailor
 In open day will "hug a friendly breeze,"
 He'll say the seaman is a funny male, or
 Perhaps there was no woman there to squeeze.
