These are times that render economy an important attainment, and ladies who wish to gain some useful hints in that respect might do well to visit Mrs. Malcolm's millinery establishment.

The contract for burying the bodies who die while county charges was yesterday let to J. C. Ross for \$13.50 per each interment. It would appear to be a very low rate when compared with ordinary funeral charges.

A San Francisco dispatch of the 13th says the Tom Corwin, which has heretofore been acting as guardian of the United States government's in-terests in Arctic waters, is to be withdrawn from that duty soon, and will then be stationed on the Columbia river, for which station she was originally built.

Last June Dr. J. B. C. Phillips, of Chicago, founded the Hawthorne sanitarium in Portland with Dr. E. Bailey of that city. A few days ago Dr. Phillips disappeared with \$400 or \$500 belonging to the concern, and sent from San Francisco a letter to his wife saying she would never see him again and telling her that after a year she could get a divorce. In November, 1883, there were three policemen, and the town got on all right, now there are six. Some taxpayers want to know why six should be necessary this fall when half that number seemed enough in the fall of '83. As a matter of business the question naturally occurs: whatis the necessity of so many at present? What business man would retain twice the number of men in his employ that he needed? Of course if he was under obligation to them and couldn't dispense with them the matter would be different.

Over at Seattle the women have all agreed to do their own washing and thus forward the anti-Chinese movement. Now there's some style about that. Caught in San Francisco.

Last spring a noted desperado named Frank Clark, known as "Lone and Si Star," made an assault on a family Conn. named Burke in the eastern part of the city and after a short confine-ment in the county jail broke out and escaped. Since then Sheriff Ross has been very solicitous as to his where-abouts and as the result of two days' telegraphing with Chief of Police Crowley of San Francisco, he yester-day had the satisfaction of knowing that "Lone Star" was in jail there awaiting a requisition from Gov. Moody. The requisition was telegraphed for yesterday afternoon and upon its arrival Clark will be brought

"How's Your Liver?"

In the comic opera of "The Mikado" his imperial highness says:-

"To make, to some extent, Each evil Liver A running river Of harmless merriment." A nobler task than making evil livers, rivers of harmless merriment no person, king or laymen, could take upon himself. The liver among the ancients was considered the source of all a man's evil impulses, and the chances are ten to one to-day that if one's liver is in an ugly condition of

discontent, some one's head will be mashed before night! "How's your liver?" is equivalent to the inquiry: Are you a bear or an angel to-day?

Nine-tenths of the "pure-cussed-ness," the actions for divorce, the curtain lectures, the family rows, not to speak of murders, crimes, other calamities, are prompted by the irritating effect of the inactivity of the liver upon the brain. Fother-gill, the great specialist, says this, and he knows. He also knows that to prevent such catastrophies nothing equals Warner's Safe Cure renowned throughout the world, as a maker of

Ways to Become Attractive,

A Parisian newspaper has been teaching its lady readers "how to be attractive." There are, however, me clauses which might with equal advantage be applied to both sexes. For instance: "Do not force wit; always listen attentively; be charit able for your own satisfaction; be frank and you need never be afraid of the truth; see things at a glance; judge quickly and think more quickly still in order to keep a cool head." Drove a Sea Captain Crazy.

Said an old shipmaster who had commanded at one time a famous Baltimore clipper, the Lapwing:
"The fact of it is that the race of the Genesta and the Puritan only illusrates what we proved in our crack American ships here years ago. Three ships were in the coffee trade to Rio. They were the Yamodin, Aquidneck and the Gray Eagle, the latter a ship which came from Rio in twenty-six days, steamer time even now. Tom Pierce, one of our leading merchants, got the idea of a light draft vessel. The three I have named were deep craft of the same general character as the Genesta-in line, you understand. He built the barkentine Spotless, now in Balti-more harbor. She was of great beam and light draft and she beat the Gray Eagle with ease. The skipper of the Gray Eagle was so broken up by it that he, having sailed his ship yardarms under from Rio in a futile effort to beat the Spotless, went crazy and is now in a Penusylvania insane asylum—Philadelphia Times.
