

The Daily Astorian.

ASTORIA, OREGON.

TUESDAY, OCTOBER 27, 1885

Large quantities of salmon labels are being received from the east.

Dan Holton has settled with his creditors for fifty cents on the dollar.

The O. R. & N. Co. has discharged all its Chinese employes on the Sound.

The Grisdale is reported hard aground in the Willamette below Portland.

The Eliza Anderson has been seized at Port Townsend on a charge of smuggling.

Two boxes of fine snipe were on the O. R. & N. dock yesterday. They were shot at Ilwaco.

The Schlussel brothers were busy yesterday moving their goods to their new place of business.

Silverside salmon in limited numbers have been put up during the month at two or three canneries.

E. C. Holden will sell household furniture, plants, etc., at the residence of K. E. Howes at two o'clock this afternoon.

The Oregon arrived in on Sunday morning; the State took on 75 cases Tillamook salmon and 225 sacks oysters and sailed for San Francisco.

The barges used in carrying the rock from Sigsby's Hole to the government work at Ft. Stevens are in Scow bay, and will winter in Lewis and Clarke's.

Hazlett, the pilgrim printer, was in the jug at Pendleton at last accounts. Hazlett took a contract sometime ago to drink up all the whiskey in the country and is one of the most willing of workers.

The Telephone will take a rest after this week to put in a new shaft. It is said the Lurline will take her place, unless terms between that boat and other towing craft are made when the Fleetwood would probably go on.

Among the vessels which sailed from San Francisco last Saturday for Liverpool was the Wasdale, with a cargo valued at \$300,000. Of this, canned salmon represented nearly \$240,000, all of which came from the Columbia river.

The Mercury says that Prof. Roby, the newly appointed Portland postmaster is an active member of the Knights of the Sun. It is believed that the Knights of the Sun differ slightly in kind and degree from the Knights of Labor.

The ladies of Grace church guild will have an ice cream social at the residence of Mrs. A. W. Berry on Thursday evening, the 29th inst. There will be excellent music and those attending will doubtless have a very pleasant evening.

The veterans of the various Indian wars of the North Pacific have organized. The headquarters is at Roseburg. All veterans are invited to join; membership is open to any of those who participated in any of the Indian fights between the years 1848 and 1860.

Petitions are in circulation addressed to the postmaster general regarding the reestablishment of the ocean mail service between San Francisco and this city. The cessation of the service is a serious and expensive inconvenience to the business men of this city and its reestablishment is an existing necessity.

The Idaho arrived in from Alaska and the Oregon from San Francisco last Sunday. The City of Florence, Church towing, Strang pilot; Grisdale, Okla towing, Johnson pilot, City of Hankow, Cook towing, Moody pilot, and Responder, Lurline towing, Ferchen pilot, left on Sunday morning; the McDermid, Cook towing, Ferchen pilot, the Durisier, and Parthia, Pease pilot, R. R. Thompson towing, and Santiago, Hoyt pilot, Dixie Thompson towing, went up yesterday. The Coloma, Mercia and Earl Derby cleared; the Mercia has 40,195 lbs. wheat, worth \$32,140; the Earl Derby has 10,225 lbs. flour, worth \$70,291.

Interviewing Geo. T. Myers as to where he intended removing he remarked that he had dismantled his cannery, and had so many offers of sites to build that he had hardly made up his mind where to go; might go to Ilwaco or some place above on the river. The order to evacuate the military reserve at Three Tree Point was being complied with as fast as possible. He neither thinks of trespassing or living further in dread of military necessity. Until the 25th of September Mr. Myers thought that he could get further endurance from the military authorities to remain on his present location. Neither by persuasion nor influence of influential friends would they permit occupancy further than October 1st. The tearing down and removing of the machinery in a large cannery is a long, tedious and expensive affair. It is a question what will the military do with the place as it is useless for agriculture or military use.

J. C. Ross will call on Atlas subscribers to-morrow.

BOARD OF FIRE DELEGATES.

W. C. Logan Elected First Assistant Engineer—Thomas Linville Second Assistant.

The board of delegates of the Astoria fire department met in regular session last evening at the rooms of Rescue No. 2. A full board was present. Communication from Rescue No. 2 regarding exemptions and those dropped from roll received and referred to committee; motion made that exempt certificates date seven years from the date of members becoming legal members of their respective companies; carried; communication from secretary No. 1, regarding expulsion and resignation of members was received and filed; bill of Carrier & Ives for \$23.75 for 50 active certificates was referred to finance committee; application of Wm. Kyle for active membership in Rescue No. 2, granted.

On motion exempt certificates were ordered granted to Messrs. Baltes, Ferguson, Hahn, Merriman, Hawes and Stockton.

On motion the offices of 1st and 2nd assistants of the department were declared vacant.

The question of jurisdiction regarding the electric fire alarm came up on a communication from the chief engineer relative thereto. After protracted debate it was decided upon motion, that the committee on rules draft a paper to be presented to the city council this evening asking that body to pass an ordinance vesting control of the electric fire alarm system in the chief engineer of the department and that such action is fully endorsed by the board of delegates.

It was ordered that the council be requested to grant the board of delegates the privilege of holding their meetings in the council room.

The secretary was instructed to cast the unanimous ballot of the board for W. C. Logan for the position of first assistant engineer of the department, and Thos. Linville for second assistant for the current term.

The secretary offered the following resolution, which was carried: Resolved: That all firemen who have served for a period of seven years in any company in the city and who holds a certificate of said fact duly authenticated by the president and secretary under seal of said company, shall be entitled to an exempt certificate upon application, deposit of certificate and \$1.50, and that the certificate issued shall date in conformity with the certificate of their respective companies; adjourned.

MYSTERIOUS DISAPPEARANCE.

The Clatskanie correspondent of the Oregonist writes of the mysterious disappearance of Patrick Hayes, of Lower Beaver. It appears that on Wednesday afternoon, about 4 o'clock, Hayes and a man named Coakley, were on board the steamer Huntress to do some trading, and at about 9 o'clock the same evening started home in a scow—a distance of about two miles. At about 11 o'clock they were heard near home. Shortly after this Hayes was heard calling to his wife, and this was the last heard of the parties until the next morning, when search was made and Coakley was found in the scow near the place he had left the steamer the evening before, and coming back the same way he and Hayes had come during the night. On being asked where Hayes was he said that they had taken a big drink of whisky and had taken to wait for the turn of the tide, and that he went to sleep and when he awoke Hayes was gone. It is quite a mystery to those acquainted with the surrounding circumstances why Mr. Coakley should be found nearly two miles from where he and Hayes were heard during the night, and claiming he was so intoxicated he did not know what had happened, and yet had taken his scow through a slough that none but those well acquainted with it could navigate. Thorough search has been made for the body, but without success.

STATE AND TERRITORIAL.

Items of Interest Gleaned from Our Exchanges.

Union county is \$80,000 in debt. Ice and snow in eastern Oregon.

Coal in paying quantities has been discovered in Jackson county.

Walla Walla is 925 feet above the Pacific. The Dalles 106 feet and Portland 39 feet.

According to the census taken by the assessor, Jackson county has a population of over 9,000.

The steamer Topsy has had four feet added to her length and will carry wheat to the O. P. at Corvallis.

Albany is raising \$40,000 as a bonus to the Oregon Pacific Co., to extend their railroad from Corvallis to that place.

John B. Lamiesie and Eugene Behier, of Oswego, have purchased the Washington county poor farm for \$6,200.

Douglas county is enjoying Indian summer weather, the annual migration of the wild geese to the great lakes and valleys of the southern coast has commenced.

Twenty-four Portland men are said to be worth in the aggregate \$25,000, each of whom is worth over \$700,000, and none of whom pays taxes on over \$300,000.

By straightening the railroad between Delta and Roseburg, says the Jacksonville Sentinel, the Central Pacific people claim they can shorten the route about twenty-one miles.

Two Willamina, Polk county, girls are now putting in a crop of wheat, the youngest one driving two horses, while the oldest one manages three. Their work is said to be first-class.

The earnings of the penitentiary for the quarter ending Sept. 30th, were \$2,404, expenditures \$6,692.49. The number of convicts in the penitentiary now, 209, only 8 of which are unable to work.

Work on the sea wall at Cape Blanco will not be commenced till spring, but the crew of men at present employed there will be retained for a few weeks, getting things in readiness for business next season.

Thomas Davis of Sacramento, Cal., has recently sold his 500-acre farm near that place for \$40,000, and with his family come to this state. He has purchased a farm of 480 acres, five miles from Albany, for \$12,000.

The Dallas city council has provided that all manufacturing enterprises costing \$2,000 or more, shall be exempt from city taxation for the first five years after their completion. Dallas has a magnificent water power.

Snow sheds are being built at Pyles canyon to prevent a repetition of last year's snow blockade. Heavy timbers, 12x12 inches, are being placed along the track for a distance of two miles to form the framework for the sheds.

Plowing and seeding in this county, says the Yamhill Reporter, is well advanced now, further, perhaps, than ever before at this season of the year. The long continued warm weather after the fall rains makes the hills look green and lively.

The wheat yield of the inland empire is astonishing. Fully 60,000 acres in eastern Oregon and Washington have been harvested with an average yield of over thirty bushels. The great snow storm last winter contributed to this result.

The railway mail line from Omaha to Garrison has been extended to Butte City, thus converting it into two lines. One of the new routes will be 21 miles long, from Garrison to Butte City, and the other 417 miles, beginning at Ogden and also terminating at Butte City.

Pat Keating died full of joy near Almoda, W. T., the other day. He had just been informed of the arrival of his intended bride, and in the intense joy of the moment he drove his team so fast that he lost control of the reins and was thrown out and fell under the wheels. He lived but a few moments.

Work on the Pataska branch of the Oregon Railway and Navigation company is progressing rapidly. About 600 hands are at work. The pay is \$4 per day for man and team. The road runs between Starbuck and Pomeroy, a distance of thirty-one miles, and it is expected to be finished by January.

The steel steamer Arago, recently built at San Francisco for the Newport Coal company's trade, sailed from there on the 10th inst., arrived at Coos bay and took aboard her cargo of 800 tons of coal, and arrived back on the 15th inst., making the round trip in four and one-half days. She discharged and sailed again on Saturday, the 17th inst.

When Portland people now speak of future events or engagements they generally ring in something about the Campbell-Dempsey fight. Two men were standing on the corner of Alder and First streets conversing. "When does the legislature meet?" asked the taller. "Lemme see, on November 9th, I think." Why, that's just one week after Campbell and Dempsey fight."

A correspondent of the East Oregonian writing from Pilot Rock, Umatilla county, states that if half the reports that are in circulation are true, a large part of the population of that region would be serving terms in the penitentiary. Stock stealing and land grabbing are the special crimes mentioned in connection with these citizens of Umatilla county.

Hon. Binger Herman intends to urge congress to make a national park of Crater lake in Lake county. The Centerville thinks that it would please the people of Oregon better if the gentleman would use his best endeavors for appropriations to open the Columbia river. We can do without a national park for a while, but the river should and must be open to navigation.

The inspector of fisheries at New

Westminster B. C., last Friday received from Harrison river one of the largest spring salmon ever taken in those waters. It was 4 feet 6 inches long, 14 inches around the small of the tail, 27 inches back of the dorsal fin, 33 inches in front of the dorsal, and 31 inches under the pectoral near the gill. It weighed 70 pounds. After being skinned and stuffed it will be forwarded to the Colonial exhibition at London next year.

Good reports are again coming in from the Coeur d'Alene section, and it would seem that, after all, it is a better place than it had credit for. The output in bullion is about \$50,000 a month at present, but this will be greatly increased when the bed-rock flume which is being built by a syndicate of New York and Pennsylvania capitalists is completed. This syndicate represents \$5,000,000 of capital, and their ditch will cost them over \$1,000,000. It will be nine miles in length and will run from Hummels landing, on the north fork of the Coeur d'Alene river, to a point one mile above Murray City. It will bring water to hundreds of claims on both Pritchard and Eagle creeks. One hundred men are at work on the flume at present, and 200 more will be put on at the end of the present month. They are paid \$3 a day.

THE OREGON AND CALIFORNIA.

The Negotiations now Complete Between that Company and the Central Pacific.

On the 31st day of July last both companies entered into a written agreement by which the Oregon & California were to sell their property to the Central Pacific. This agreement was published in London on the 15th of last month. The principal points of the agreement are as follows:

The Oregon & California agrees to sell to the Central Pacific all its railway lines (about 451 miles) and their appurtenances, its rolling stock, supplies and equipment, lands remaining unsold at the date of the agreement, and all its rights and franchises granted by the United States. The transfer of the property is to take place on or before the 1st day of July 1886. The terms of the sale are as follows:

For the \$9,000,000, or thereabouts of first mortgage bonds now outstanding, issued at the rate of \$20,000 per mile, the Central Pacific will issue bonds at the rate of \$20,000 per mile to the amount of \$10,500,000, payable in forty years, bearing interest at the rate of 3 per cent for the first two years, and 5 per cent thereafter. It is likely that the O. & C. will transfer the property to a new company to be organized for the purpose, and that the Central Pacific will guarantee the bonds of this new company; however the bonds may be secured by a mortgage on the property. The difference between \$9,000,000, the present indebtedness, and \$10,500,000, the amount of the proposed new bonds, is accounted for this way; the present bondholders have received no interest for a year, and will receive none on the first of January next. One year and a half at 6 per cent is 9 per cent loss. Then they will receive only 3 per cent for the first two years, another loss of 4 per cent. So the extra issue of \$1,500,000 will a little more than cover past and prospective losses.

The stock of the O. & C. is \$19,000,000—\$12,000,000 preferred and \$7,000,000 common. This will be taken up by the issue of \$8,000,000 Central Pacific stock, viz: one share of Central Pacific stock for two of O. & C. preferred, and one share of Central Pacific stock for four shares of O. & C. common.

The Central Pacific agrees to complete the connecting link between Ashland and Delta within three years of the transfer, so as to form a through line between Portland and San Francisco.

The eleventh article reads: "This agreement shall be void unless the stockholders of the O. & C. shall within two months from this date (July 31) ratify this agreement; and the two committees now formed, respectively in London and Frankfurt, representing the first mortgage bondholders, shall, within the same time, execute in due form a confirmation and acceptance of this agreement."

Excited Thousands. All over the land are going into ecstacy over Dr. King's New Discovery for Consumption. Their unlooked for recovery by the timely use of this great life saving remedy, causes them to go eagerly to its praise. It is guaranteed to positively cure Severe Coughs, Colds, Asthma, Hay Fever, Bronchitis, Hoarseness, Loss of Voice, or any affection of the Throat and Lungs. Trial bottles free at W. E. Dement & Co's Drug Store. Large size \$1.00.

Citation. IN THE COUNTY COURT OF THE STATE of Oregon, for the county of Clatsop. In the matter of the estate of H. R. Bruhn, deceased.

To the next of kin of H. R. Bruhn, deceased, and to whom it may concern, greeting.
