five or six thousand Canadian Pacific laborers to China. The agitation has scared them off. 'Tis said in Salem that the sena-torial position lies between Mitchell and Moody. The Welcome says that

there is money in Salem and also some legislators with empty pocket books and no conscience. Cushing Post cornet band will have an entertainment at Ross opera

Granted for the sake of argument that all that Saturday's Oregonian charges are true; what does the whole business amount to? Simply thisthat fifteen years ago Mitchell fell in love with his wife's sister and told her about it. Till the Oregonian made the charges none of the parties interested appear to have been in any way damaged thereby.

Can one man dictate to the entire state? The entire state demands that John H. Mitchell shall be elected senator. The hundred journals tossed on this desk voice public opin-ion from every nook and cor-ner of the commonwealth. They all say "Give us Mitchell." Nothing but cowardice will keep the Republican majority at Salem from giving the people their choice.

The Portland News issued an extra edition last Sunday in which John H. Mitchell published a denial of the charges brought against him in Saturday's Oregonian. He says: "I deny most positively, specifically and unqualifiedly, that I ever wrote any one, so flagrantly apparent as to stamp the whole business as stupid and idiotic in theextreme: as, for instance, I am where I may go to commence practice. I may remain in Oregon City and I may go to Portland, I cannot tell as yet. While the fact is, as the rec-ords show, and as thousands of men in Pennsylvania and Oregon know, I was admitted to the bar first in the state of Pennsylvania, in the year 1856, and I was admitted to the in the state of Oregon in September, 1860, after an examination by a com-Mist, 13. mittee of the bar, of which Hon. COUNTY BOUNDARIES.

THE ASTORIAN says "the Nehalen THE ASTORIAN says "the Nenaem settlers are moving in the matter of a petition to the legislature praying that the present boundary lines between Clatsop and Columbia counties be moved east three miles." The only "settler" who is moving to any extent in the matter is a party by the name of Cameron, and he assigns as a reason that the taxes are too high in Columbia county, although as he is not a tax payer, this cannot affect him. As for any other "good reasons" that exist for such a change, we are ignorant of them, and we hardly think the legislature will reverse its own action so speedily. We know that the principal tax payers of that section—are opposed to such a change, and they have good reason for being so. Our people prefer Portland to Astoria as a trading point, and it is often a great convenience to them to often a great convenience to them to be able to visit the county seat on their way to the metropolis. Moreover, there is no way for the settlers in that section to get to Astoria except by boat. There is not even a trail from the Westport settlement to Astoria, and the Nebalen ecople have to go quite a distance down he Nehalem and then only have a very oor trail over the mountains to Asto poor train over the mountains to Asto-ria, while they have good roads to St. Helens. In view of these facts, friend Halloran, don't you think it would be as well to leave the line where the legis-lature has established it?—St. Helens

Prior to the legislature of '85, the crossed West's slough just at Wood's landing, in sec. 8, T. 7, two miles due east of Westport, though for all practical purposes the county line was supposably at Westport as all east of that was assessed in Columbia coun-ty. The verdict was that he was drowned in the ocean. It is be lieved that he was off the plunger Emma, two others, manifestly from that unfortunate craft, coming ashore last week. "Hard Times in the Northwest."

This is the title of a twenty-nine page pamphlet by John Campbell, of East Portland. It shows how 20,000 square miles of land in Oregon and Washington are still held by railroad corporations, and argues that in this lies the reason for sparse settlement, high taxes and the non development of the country. People who are still whining about the forfeiture of the Astoria land grant would do well to get the pamphlet. We do not agree with all of its arguments nor conclusions, but there is truth enough in the publication to merit attention.
